Modelo banho na praia

prompts - 10-SECOND VERTICAL 9:16 — ULTRA-REALISTIC NATURAL BEACH UGC — NO SPEECH.

Use the provided reference image as the ABSOLUTE reference for the model and THE CLOTHING ITEM FROM THE REFERENCE IMAGE.

ABSOLUTE CLOTHING LOCK:

The clothing item must remain 100% IDENTICAL to the reference image throughout the entire video.

Do not redesign, reinterpret, replace or modify ANY part of it.

Preserve exactly the original color, fabric, texture, cut, length, fit, coverage, seams, straps, sleeves, neckline, construction, details, proportions and overall appearance.

Water must NOT change the design, color, coverage, opacity or construction of the clothing item.

The clothing item may naturally become wet, but it must remain visually and structurally IDENTICAL to the reference.

IMPORTANT CAMERA DIRECTION:

THE CLOTHING ITEM IS ALWAYS THE VISUAL PRIORITY.

However, the model should NOT deliberately pose or constantly touch the clothing to advertise it.

Her movements must feel completely natural, spontaneous and realistic.

The CAMERA is responsible for keeping the clothing clearly visible.

Use mostly medium-wide, three-quarter-body and full-garment framing.

Do NOT zoom excessively.

Do NOT use face close-ups.

Do NOT crop important parts of the clothing.

Keep enough distance to clearly see the clothing throughout the actions.

Natural smartphone footage.

Natural beach shower.

Real sunlight.

Realistic water.

Natural handheld camera movement.

Fast but smooth micro-scene transitions.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

0.0–1.2s — TURNING ON THE SHOWER

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

The model naturally walks up to an outdoor beach shower after leaving the beach.

She reaches for the shower control and turns it on.

Water begins flowing naturally.

She immediately steps underneath the water.

She smiles naturally as the water hits her.

No posing.

Keep the clothing item clearly visible.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

1.2–2.5s — WASHING SAND FROM HER HAIR

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

She naturally brings BOTH HANDS into her wet hair.

She runs her fingers through her hair and gently massages/rinses it as if removing sand and saltwater.

She pushes her wet hair backward with both hands.

Water runs naturally through her hair.

She smiles and briefly laughs from the refreshing water.

Natural spontaneous movement.

The camera remains wide enough to keep the clothing clearly visible.

———————————————————

2.5–3.5s — RINSING ONE ARM

———————————————————

Natural micro-scene transition.

She lowers one hand and naturally rubs the OPPOSITE ARM from shoulder toward forearm, as if removing sand stuck to her skin.

The movement is casual and practical.

Water continues falling naturally.

No product posing.

Keep the clothing item prominently visible in the composition.

———————————————————

3.5–4.5s — RINSING THE OTHER ARM

———————————————————

Quick natural micro-scene.

She switches hands.

She rubs the OTHER ARM naturally, brushing away sand and rinsing it under the water.

She briefly looks down at what she is doing and then smiles naturally.

Hair is wet and pushed backward.

The clothing remains clearly visible.

———————————————————

4.5–5.5s — FINAL NATURAL RINSE

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

She moves slightly underneath the shower and gives herself one final rinse.

She naturally runs both hands backward through her wet hair once more.

She lightly shakes excess water from her hands.

She smiles with relaxed, cheerful beach-day energy.

No exaggerated posing.

CUT TO NEXT MICRO-SCENE.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

5.5–7.0s — TYING HER HAIR

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

She is now standing beside the beach shower.

She gathers all of her wet hair naturally behind her head using BOTH HANDS.

She quickly wraps a simple hair elastic around it.

Show the complete natural movement:

GATHER HAIR

→ PULL HAIR BACK

→ WRAP ELASTIC

→ SECURE HAIR

→ RELEASE HANDS.

She does this casually, like someone actually getting ready after rinsing off.

Keep the camera wide enough to show the clothing item.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

7.0–8.4s — GRABBING THE TOWEL

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Natural micro-scene transition.

She reaches beside her and grabs a beach towel.

She starts drying herself naturally.

First she pats the water from one arm.

Then quickly the other arm.

Then she lightly pats her shoulders and wet hair.

She does NOT wrap the towel around her body.

The towel must NOT hide the clothing item.

Everything feels spontaneous and unscripted.

——————————————————

8.4–9.2s — FINISHING DRYING

——————————————————

Still holding the towel casually in one hand, she gives her hair one final quick pat.

She lowers the towel naturally to her side.

The clothing item becomes completely unobstructed again.

She looks toward the camera with a cheerful natural smile.

——————————————————

9.2–10.0s — WINK + CTA

——————————————————

KEEP THE CAMERA MEDIUM-WIDE.

DO NOT zoom into her face.

She gives ONE quick playful wink with ONE EYE ONLY.

Immediately afterward, while smiling, she extends her index finger and clearly POINTS DOWN toward the bottom of the screen.

Hold the downward gesture until the final frame.

The clothing item remains clearly visible during the entire CTA.

━━━━━━━━━━━━━━━━━━━━━━━━━━

NATURAL MOVEMENT SEQUENCE

━━━━━━━━━━━━━━━━━━━━━━━━━━

TURN ON WATER

→ STEP UNDER SHOWER

→ WASH SAND FROM HAIR WITH BOTH HANDS

→ PUSH WET HAIR BACK

→ RUB AND RINSE ONE ARM

→ RUB AND RINSE OTHER ARM

→ FINAL QUICK RINSE

→ MICRO-SCENE TRANSITION

→ GATHER WET HAIR

→ TIE HAIR WITH ELASTIC

→ GRAB TOWEL

→ NATURALLY PAT ARMS AND HAIR DRY

→ LOWER TOWEL

→ WINK

→ POINT DOWN.

IMPORTANT:

She is NOT performing a fashion presentation.

She behaves like a real person naturally rinsing sand and saltwater off after spending time at the beach.

The PRODUCT FOCUS comes from CAMERA FRAMING, not exaggerated product-showing gestures.

Natural body movement.

Natural weight shifts.

Natural breathing.

Natural smiles.

Natural reactions to cold/fresh water.

Realistic wet hair.

Realistic water droplets.

Realistic hand interaction.

Realistic beach sunlight.

Realistic skin texture.

FAST NATURAL MICRO-SCENES, but every physical action must remain readable and complete.

NO sensual posing.

NO exaggerated modeling.

NO extreme close-ups.

NO face-dominant shots.

NO slow motion.

NO robotic movement.

NO garment changes.

NO garment morphing.

NO disappearing clothing details.

NO altered transparency.

NO body deformation.

NO SPEECH.

NO LIP SYNC.

NO TEXT ON SCREEN.

NO SUBTITLES.

NO MUSIC.

NO WATERMARKS.

VIDEO VERTICAL 9:16 — 10 SECONDS — ULTRA-REALISTIC LUXURY BOAT UGC — NO SPEECH.

Use the provided reference image as the ABSOLUTE visual reference.

Keep EXACTLY the same model and EXACTLY the same clothing she is wearing in the reference image throughout the entire video.

PRODUCT PRIORITY:
THE CLOTHING IS THE MAIN SUBJECT OF THE ENTIRE VIDEO.

Every micro-scene must clearly display the clothing.
The camera framing, model's poses and movements must always favor visibility of the garment.

Do NOT describe or reinterpret the garment.
This prompt must work with ANY clothing item shown in the reference image.

Never change:
color,
fabric,
design,
fit,
length,
construction,
details,
straps,
sleeves,
neckline,
waist,

seams,
print,
or proportions.

The clothing must remain 100% identical throughout all scenes.

SETTING:
Beautiful modern luxury motorboat cruising slowly across clear blue ocean water on a sunny day.

Natural bright sunlight, realistic reflections from the ocean, subtle wind, realistic hair movement and authentic smartphone UGC appearance.

FAST MICRO-SCENES.
Approximately 0.8–1.3 seconds each.
Clean energetic transitions.
NO slow motion.
NO long static shots.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

0.0–1.2s — BEVERAGE + OUTFIT

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

The model is comfortably seated on the boat holding a cold refreshing BEVERAGE in one hand.

The beverage has a straw.

She casually brings the straw to her lips and takes one quick sip.

While drinking, her posture naturally keeps the clothing clearly visible.

Medium framing showing the model and the garment prominently.

The beverage is only a lifestyle element.

THE CLOTHING REMAINS THE VISUAL PRIORITY.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

1.2–2.2s — HAIR MOVEMENT

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

MICRO-SCENE TRANSITION.

Standing or leaning naturally against the boat, she runs one hand through her hair and gently pushes it backward.

The ocean breeze naturally moves her hair.

She gives the camera a relaxed smile.

Her body turns slightly to naturally display the fit of the clothing.

2.2–3.1s — CLOTHING ONLY

FAST CUT.

The camera reframes specifically onto the CLOTHING.

Her face is NOT the focus.

Show only the relevant body area wearing the garment.

She naturally runs one hand across the fabric while slightly rotating her body.

The camera clearly captures:

fabric,
fit,
movement,
shape,
and how the garment looks while being worn.

NO sensual emphasis.

This is a PRODUCT DEMONSTRATION SHOT.

3.1–4.1s — WALKING ON THE BOAT

MICRO-SCENE TRANSITION.

She naturally walks a few steps along the boat deck.

The camera follows her briefly.

Natural wind creates subtle realistic movement in the garment.

Frame her body so the clothing remains fully visible.

4.1–5.3s — DRIVING THE BOAT

FAST CUT.

She is now alone at the helm, safely controlling the boat.

She places her hands naturally on the steering wheel.

She looks forward toward the ocean while driving.

Wind gently moves her hair and clothing.

Use a three-quarter body angle rather than a tight facial shot.

IMPORTANT:
Even while she is driving, the framing must clearly show the clothing she is wearing.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

5.3–6.2s — DRIVING DETAIL

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

MICRO-SCENE TRANSITION.

Quick side-angle shot of her controlling the steering wheel.

One hand remains securely on the wheel.

She briefly pushes her hair back with the other hand.

She naturally smiles while looking forward.

The garment remains clearly visible in the composition.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

6.2–7.2s — SECOND CLOTHING DETAIL

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

FAST CUT.

Close product-focused framing.

Focus entirely on the clothing being worn.

She naturally passes one hand over the garment and slightly turns her body.

Show how the fabric reacts naturally to her movement and the ocean breeze.

NO FACE-FOCUSED SHOT.

CLOTHING = ABSOLUTE VISUAL PRIORITY.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

7.2–8.2s — BOAT EDGE LIFESTYLE SHOT

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

MICRO-SCENE TRANSITION.

She stands safely near the interior side of the boat with the ocean behind her.

She turns naturally toward the camera.

She adjusts her hair with one hand while slightly changing her body angle to display the garment.

Relaxed, playful energy.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

8.2–9.1s — OUTFIT HERO SHOT

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

FAST CUT.

A clean medium/full-body product shot.

She takes one small step, naturally turns her body and lightly runs her hand over the clothing.

The camera keeps the entire relevant garment area clearly visible.

Natural fabric movement.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

9.1–10.0s — FINAL BOAT SHOT

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Final micro-scene.

She is back near the helm/deck area with the ocean moving behind her.

She turns toward the camera with a relaxed smile.

She briefly touches her hair and naturally positions her body so the clothing is completely visible.

Hold the garment clearly in frame until the final moment.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

ABSOLUTE PRODUCT LOCK
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

THE CLOTHING IS THE HERO PRODUCT.

Every scene must prioritize the garment over the face, beverage, boat or ocean.

Same woman.
Same clothing.
Same boat.
Same hairstyle.
Same environment.

NEVER modify the reference clothing.

Do not invent new clothing details.
Do not change garment between cuts.
Do not change colors.
Do not change fabric.
Do not change fit.
Do not expose more skin than the reference garment naturally exposes.

FAST MICRO-SCENE TRANSITIONS.
NATURAL HUMAN MOVEMENT.
REALISTIC BODY PHYSICS.
REALISTIC HAIR PHYSICS.
REALISTIC FABRIC PHYSICS.
REALISTIC WIND.
REALISTIC OCEAN.
REALISTIC BOAT MOVEMENT.

Authentic smartphone UGC.
Bright natural daylight.
Natural skin texture.
No beauty filter.
No exaggerated posing.
No overly sensual movements.
No robotic movement.
No frozen poses.
No long zooms.
No slow motion.

NO SPEECH.
NO LIP SYNC.
NO TEXT ON SCREEN.
NO SUBTITLES.
NO MUSIC.
NO LOGOS.

NO WATERMARKS.

—----------

modelo surfando

use a imagem da sua modelo sentada na prancha
Exato. O ideal é manter **comercial e focado na roupa**, mas com ela parecendo uma pessoa se divertindo de verdade: sorrindo, reagindo à onda, quase perdendo o equilíbrio e achando graça quando cai.

Create a **10-second vertical 9:16 ultra-realistic, energetic and playful clothing showcase** using the provided reference image as the **ABSOLUTE AND IMMUTABLE REFERENCE**.

MAIN FOCUS: THE CLOTHING. Every shot must clearly showcase the exact garment from the reference, but the model must feel **spontaneous, cheerful, relaxed and genuinely playful — NEVER stiff, robotic, overly posed or sensual.**

Preserve the EXACT woman and EXACT clothing throughout all micro-scenes. Never change color, fabric, design, straps, seams, cut, fit, length or details.

Create **FAST MICRO-SCENES connected by natural splash/water transitions.**

0.0–1.0s — RELAXED:
She sits casually on the surfboard, naturally moving with the water. She looks at the camera with a genuine smile, slightly laughing as a small wave rocks the board. Clothing clearly visible.

SPLASH TRANSITION.

1.0–2.0s — PLAYFUL:
Different angle. She gives the camera a playful spontaneous expression, smiles broadly and quickly gestures for it to come closer. The camera dynamically approaches while keeping the garment clearly framed.

FAST WATER TRANSITION.

2.0–3.0s — GET UP:
She quickly gets up on the board. She slightly wobbles while finding her balance and **laughs naturally at herself**, creating a fun candid moment. No perfect model pose.

QUICK WAVE TRANSITION.

3.0–4.3s — SURF:
She catches the wave and begins surfing. Side/front tracking shot keeps the clothing clearly visible. She smiles naturally, hair moving in the wind, arms dynamically balancing her body.

OCEAN-SPRAY TRANSITION.

4.3–5.5s — HAVING FUN:
New dynamic angle. She continues surfing, visibly enjoying herself. She briefly looks toward the camera with a big spontaneous smile, then immediately focuses back on balancing.

SPLASH TRANSITION.

5.5–6.5s — FUNNY FALL:
She starts wobbling, realizes she is losing balance and makes a **quick funny surprised expression**, naturally moving her arms trying to recover. She laughs and then falls sideways into the wave.

The fall should feel **fun and spontaneous, not dramatic**.

BIG SPLASH COMPLETELY COVERS THE LENS — TRANSITION.

6.5–7.3s — UNDERWATER:
Quick playful underwater micro-scene with realistic bubbles and turbulence. Clothing remains completely unchanged.

WATER-SURFACE TRANSITION.

7.3–8.4s — RESURFACE LAUGHING:
She pops back up beside the surfboard, grabs it and naturally rests against it. She is **smiling and laughing about the fall**, catching her breath with genuine playful energy.

8.4–9.2s — WINK:
Still relaxed against the board, she looks toward the camera, gives a big natural smile and **ONE quick playful wink**.

9.2–10.0s — CTA:
Still smiling, she casually **points downward with ONE index finger**, maintaining the same cheerful spontaneous energy.

PERFORMANCE RULE: natural smiles, spontaneous laughter, playful facial reactions, imperfect balance, realistic breathing, casual gestures and constant subtle body movement. She should look like **a real person genuinely having fun at the beach**, not a model performing rehearsed poses.

CAMERA PRIORITY: CLOTHING FIRST → MODEL SECOND → ACTION THIRD → ENVIRONMENT LAST. Keep the garment clearly visible in every possible shot without provocative body-part close-ups.

STYLE: sporty, fun, friendly, candid, commercial, energetic. **NOT sensual. NOT seductive. NOT stiff.**

NO SPEECH. NO MUSIC.

NEGATIVE: robotic posing, frozen smiles, stiff movements, seductive poses, exaggerated hip movements, sensual close-ups, clothing changes, garment morphing, extra limbs, unnatural anatomy, slow motion, text, watermark, AI artifacts.

Modelo montando guarda sol

💡

adicione foto da modelo + foto da cadeira de praia

VIDEO VERTICAL 9:16 — 10 SECONDS — ULTRA-REALISTIC BEACH UGC — NO SPEECH.

REFERENCE IMAGE 1:
Use as the ABSOLUTE reference for the MODEL, her appearance, body, face, hair, beachwear and overall visual identity.

REFERENCE IMAGE 2:
Use as the ABSOLUTE reference for the BEACH CHAIR.
The beach chair must remain EXACTLY consistent with Reference Image 2 in design, structure, proportions, materials and colors.

CONTINUITY AND REALISTIC PHYSICAL ACTIONS ARE THE HIGHEST PRIORITY.

IMPORTANT:
Every action must have a clear beginning and ending.
NEVER skip the intermediate physical movements.
NEVER teleport the model or any object.

——————————————————————

0.0–0.8s — ARRIVING

——————————————————————

The video STARTS with the model already walking toward the camera/setup area on the beach.

FROM THE VERY FIRST FRAME:

She is carrying the FOLDED BEACH CHAIR from Reference Image 2 in one hand.

She is carrying a CLOSED BEACH UMBRELLA in the other hand.

Her sunglasses are ALREADY ON HER FACE.

She takes a few quick natural steps.

Chair, umbrella and sunglasses are all clearly visible.

——————————————————————

0.8–1.3s — PUTTING THE UMBRELLA DOWN
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

She stops beside the setup area.

FIRST, she bends naturally and places ONLY the CLOSED BEACH UMBRELLA on the sand beside her.

The umbrella remains clearly visible on the sand.

She DOES NOT open it yet.

She releases the umbrella completely.

Now BOTH HANDS are free to handle the beach chair.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

1.3–3.0s — OPENING THE CHAIR WITH BOTH HANDS
━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

ONE CONTINUOUS ACTION — NO CUT.

She holds the SAME folded beach chair from Reference Image 2 WITH BOTH HANDS.

She positions the folded chair correctly on the sand.

Using BOTH HANDS, she physically pulls the chair frame apart.

Show the COMPLETE mechanical opening:

FOLDED CHAIR
→ both hands gripping the frame
→ frame separating
→ chair legs extending
→ seat fabric opening
→ chair becoming completely stable
→ FULLY OPEN BEACH CHAIR.

The model remains STANDING during the ENTIRE chair-opening process.

She does NOT sit yet.

CRITICAL:
The camera must clearly show the chair going from completely folded to completely open.

DO NOT instantly transform the chair.

DO NOT cut to her already sitting.

DO NOT skip any part of the opening action.

The closed umbrella remains lying on the sand beside her during this entire action.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

3.0–4.3s — PICKING UP AND OPENING THE UMBRELLA

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

ONLY AFTER the chair is completely open:

She releases the chair.

She bends down and picks up the SAME closed umbrella from the sand.

She holds the umbrella upright.

She raises it ABOVE HER HEAD.

While holding the pole firmly, she pushes the opening mechanism UPWARD.

The umbrella canopy visibly expands ABOVE HER:

CLOSED → OPENING → COMPLETELY OPEN.

Show the physical opening clearly.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

4.3–5.0s — PLANTING IT IN THE SAND

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

With the umbrella already FULLY OPEN above her, she lowers the pole toward the sand beside the chair.

She firmly pushes the umbrella pole DOWN INTO THE SAND.

She gives it one quick natural push/twist to secure it.

She releases it.

The open umbrella remains standing securely beside/above the beach chair.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

5.0–5.8s — SITTING DOWN

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Only NOW does she sit.

She turns toward the already-open beach chair.

Show the complete physical motion:

STANDING
→ turning toward chair
→ bending knees
→ lowering hips
→ touching the seat
→ FULLY SEATED.

NO teleportation from standing to seated.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

5.8–6.6s — SUNGLASSES

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Already seated, she brings both hands to the SAME sunglasses that have remained on her face since frame one.

She quickly adjusts them by the temples.

She releases them.

THE SUNGLASSES NEVER LEAVE HER FACE.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

6.6–7.6s — SHOWING THE BEACHWEAR

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

Quick product-focused shot.

Still seated, she naturally runs one hand over the beachwear she is wearing.

She lightly touches the strap, then smoothly slides her hand across the garment to emphasize its fit on her body.

Do NOT pull excessively.

Do NOT change the garment.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

7.6–8.4s — SECOND PRODUCT DETAIL

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

She naturally slides one hand toward the waist/side area of the beachwear.

She slightly rotates her torso and hips while seated, naturally displaying the garment from another angle.

She smiles toward the camera.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

8.4–9.2s — KISS

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

She looks directly at the camera.

She brings one hand to her lips.

She blows ONE quick playful kiss toward the lens.

Immediately lowers her hand.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

9.2–10.0s — CTA

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

She smiles.

Without standing up, she extends ONE index finger and clearly POINTS DOWN toward the bottom center of the screen.

Hold the downward pointing gesture until the final frame.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

ABSOLUTE CONTINUITY LOCK

━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━━

The sequence MUST happen in this EXACT physical order:

WALKING WITH FOLDED CHAIR + CLOSED UMBRELLA
→ PUT CLOSED UMBRELLA ON SAND
→ USE BOTH HANDS TO OPEN CHAIR
→ COMPLETELY OPEN CHAIR
→ PICK SAME UMBRELLA BACK UP
→ RAISE UMBRELLA ABOVE HER
→ OPEN UMBRELLA UPWARD
→ PUSH OPEN UMBRELLA INTO SAND
→ RELEASE UMBRELLA
→ TURN TOWARD CHAIR
→ PHYSICALLY SIT DOWN
→ ADJUST SUNGLASSES
→ SHOW BEACHWEAR
→ SHOW SECOND DETAIL

→ BLOW KISS
→ POINT DOWN.

NEVER change this order.

NEVER have her open the chair while still holding the umbrella.

She MUST use BOTH HANDS to open the chair.

The umbrella MUST remain on the sand while the chair is being opened.

She MUST NOT sit before BOTH the chair and umbrella are completely set up.

NO object spawning.
NO disappearing objects.
NO teleportation.
NO duplicated chair.
NO duplicated umbrella.
NO chair morphing.
NO umbrella morphing.
NO disappearing sunglasses.
NO wardrobe changes.
NO extra limbs.
NO deformed hands.

Ultra-realistic human movement.
Realistic body weight and balance.
Realistic chair mechanics.
Realistic umbrella mechanics.
Realistic interaction with the sand.
Natural ocean breeze.
Natural hair movement.
Natural fabric physics.
Real smartphone UGC appearance.

NO SPEECH.
NO LIP SYNC.
NO TEXT ON SCREEN.
NO SUBTITLES.
NO MUSIC.
NO WATERMARK.
}
—----------

Modelo na praia açai

Create a **10-second vertical 9:16 ultra-realistic, fast-paced UGC video** using the provided reference image as the **ABSOLUTE AND IMMUTABLE REFERENCE**. Preserve exactly

the same woman, identity, face, body, proportions, hair, accessories, environment and clothing throughout the entire video.

ABSOLUTE CLOTHING LOCK: Whatever clothing the woman is wearing in the reference must remain 100% identical from first to last frame. Preserve exact color, fabric, texture, straps, seams, cut, fit, length and construction. Never redesign, recolor, replace, remove or add any clothing detail.

0.0–1.0s — AÇAÍ SPOON:
She is naturally holding a cup/bowl of açaí. Smiling casually, she takes **one quick spoonful of açaí**, bringing the spoon naturally to her mouth and eating it. Realistic hand, mouth and spoon interaction.

1.0–1.8s — PLAYFUL AÇAÍ “CHEERS”:
She immediately smiles and playfully brings the açaí container directly toward the camera as if **cheers/toasting with the viewer**. The container rapidly approaches the lens.

1.8–2.1s — LENS-COVER TRANSITION:
The açaí container completely covers the camera lens for a fraction of a second, creating a fast natural transition.

2.1–2.8s — REVEAL / NO AÇAÍ:
As the lens becomes visible again, she is in the **same location, same outfit and same identity**, but the açaí and spoon are now completely gone from her hands. Her hands are naturally free. No object magically disappearing while visible — the disappearance happens ONLY while the lens is completely covered.

2.8–3.7s — OUTFIT DETAIL:
She naturally presents the clothing she is already wearing, briefly passing one hand over the outfit/body to highlight the fit and fabric.

3.7–4.5s — STRAP DETAIL:
She gives **ONE quick natural pull/adjustment to ONE existing strap of the garment**. Neutral for any clothing: only interact with a strap if it actually exists in the reference. Never invent a new strap.

4.5–5.5s — BODY / FABRIC:
Her hand smoothly slides along the outside of the garment and body in one continuous natural movement, showing how the piece fits without changing its shape.

5.5–6.4s — HAIR:
She smoothly sweeps her hair backward with one hand, placing it naturally behind her shoulder. Hair reacts realistically to the movement.

6.4–7.2s — SMILE:
She looks directly toward the camera with a spontaneous, confident smile and a subtle playful body movement.

7.2–8.1s — KISS:
She quickly brings her free hand toward her lips and sends **ONE playful kiss toward the camera**, then immediately lowers her hand.

8.1–9.0s — FINAL OUTFIT MICRO-MOVEMENT:
She makes one quick natural body turn/weight shift, giving another dynamic view of the clothing while smiling.

9.0–10.0s — CTA:
She finishes by clearly **pointing downward with ONE index finger**, smiling toward the camera. Hold the downward pointing gesture only briefly until the final frame.

Make every action FAST, fluid and connected, with constant natural micro-movements, realistic breathing, facial expressions, hair physics, fabric physics and handheld smartphone-style camera movement.

COMPLETELY SILENT: no speech, whispering, singing, lip-syncing, voice-over or music.

NEGATIVE: no clothing changes, no color changes, no new straps, no garment morphing, no extra people, no extra arms/hands/fingers, no duplicated limbs, no deformed hands, no floating objects, no açaí remaining after the transition, no robotic movement, no slow motion, no text, no subtitles, no watermark, no AI artifacts.

EXACT ORDER: spoonful of açaí → açaí cheers toward lens → container completely covers lens → transition → açaí disappears → show outfit → adjust existing strap → hand over outfit/body → hair back → smile → kiss → quick outfit movement → point downward.

Banho de sol

Create a 10-second vertical 9:16 ultra-realistic beach video using the provided image as the ABSOLUTE AND IMMUTABLE REFERENCE. Preserve exactly the same woman, face, body, hair, accessories, clothing, colors, fabric, straps, seams, fit and every original visual detail throughout the video.

IMPORTANT: FOLLOW THE MOVEMENTS IN THIS EXACT ORDER. DO NOT SKIP, REORDER OR COMBINE ACTIONS.

0.0–1.5s — CALL THE CAMERA:

The woman is relaxed on the beach. She notices the camera, smiles naturally and makes a clear playful “come here / come closer” hand gesture, curling her fingers toward herself twice. She remains in place while calling the camera.

1.5–2.5s — FAST CAMERA APPROACH:

Immediately after her gesture, the camera rapidly and dynamically moves toward her, creating an energetic TikTok-style push-in. She does NOT move toward the camera. The camera physically approaches HER. Smooth, fast forward tracking, no artificial digital zoom.

2.5–3.4s — HAIR:

Now framed closer, she naturally uses one hand to sweep her hair backward, placing it behind her shoulder. Quick, confident and spontaneous movement.

3.4–4.3s — STRAP:

Immediately afterward, the same hand moves to one existing strap of whatever garment she is wearing and gives it ONE small, natural adjustment/pull. Do not create a new strap. Only interact with a strap that already exists in the reference.

4.3–5.3s — HAND OVER BODY / OUTFIT:

Her hand naturally slides down over the outside of her existing outfit and along her body in one smooth gesture, briefly showing the fit and fabric. Keep it casual and realistic, not exaggerated.

5.3–6.1s — QUICK TURN:

She immediately turns her body away from the camera in one fast, playful movement. Her hair and clothing react naturally to the rotation.

6.1–8.5s — RUN TO THE OCEAN:

Without stopping after the turn, she starts running toward the sea. The camera dynamically follows behind her, maintaining realistic handheld tracking. Natural body mechanics, arm movement, hair movement and fabric physics.

8.5–10.0s — INTO THE WATER:

She reaches the shoreline and continues running into the shallow ocean. Her feet create realistic splashes, droplets, foam and ripples. The camera keeps following from behind until the final frame. No stopping and no final pose.

ABSOLUTE CLOTHING LOCK: The garment must remain EXACTLY identical to the reference during every movement. Never change its color, material, design, straps, fit, length, texture or construction. No wardrobe morphing or disappearing pieces.

CAMERA RULE: The camera itself and the person filming NEVER appear. The camera movement must feel like a real person quickly approaching and then following her. No digital zoom, teleportation or impossible camera movement.

COMPLETELY SILENT: no dialogue, voice, whispering, singing, lip-syncing or voice-over. No music.

Ultra-realistic natural sunlight, skin, hair physics, fabric physics, wind, sand, footprints, waves, water and splashes.

NEGATIVE: no extra arms, hands or fingers, no duplicated limbs, no body morphing, no clothing changes, no new straps, no extra people, no visible camera, no robotic movements, no cuts, no transitions, no slow motion, no artificial zoom, no text, no watermark, no CTA.

PRIORITY: call camera → camera rapidly approaches → hair back → adjust ONE existing strap → hand slides naturally over outfit/body → quick turn → immediately run → enter ocean. Preserve the reference 100% throughout all 10 seconds.

—————————————

3.1–4.0s — OUTFIT DETAIL:

Her hand smoothly passes over the bikini/body in one casual continuous motion, naturally showing the fit and fabric. Quick, spontaneous movement.

4.0–5.2s — GETTING UP:

Without interrupting the recording, she smoothly sits up and rises to her feet. The camera dynamically follows her upward while maintaining consistent perspective. She never drops or releases the filming position.

5.2–6.0s — SMILE + WINK:

Now standing, she looks toward the lens, gives a genuine playful smile and performs ONE quick wink with ONE eye only.

6.0–6.6s — KISS:

She immediately sends ONE quick playful kiss toward the camera with her free hand, then naturally turns her body toward the ocean.

6.6–7.2s — FAST TURN:

She makes a quick fluid turn, hair reacting naturally to the movement and ocean breeze, finishing with her back toward the camera.

7.2–8.7s — RUN:

She immediately runs toward the ocean. The viewpoint dynamically follows her from behind with energetic, realistic smartphone-style tracking.

8.7–10.0s — OCEAN:

She reaches the shoreline and runs into the shallow water. Realistic splashes, droplets, foam and ripples react around her legs. Keep her running until the final frame. No final pose.

Make the sequence feel FAST, playful and spontaneous, with continuous micro-movements, realistic breathing, natural body weight, hair physics, bikini fabric physics, sand movement, footprints, wind, waves, sunlight and water interaction.

ABSOLUTE BIKINI LOCK: Never modify the reference bikini. No color change, redesign, new straps, altered cut, disappearing fabric, morphing, different bikini or invented details.

NO CALLING GESTURE. She must NEVER make a “come here,” “follow me,” beckoning or finger-curling gesture.

COMPLETELY SILENT: no speech, lip-sync, whispering, singing, voice-over or music.

NEGATIVE: no visible phone, no visible selfie stick, no extra people, no extra arms/hands/fingers, no duplicated limbs, no body morphing, no bikini changes, no artificial digital zoom, no teleportation, no robotic movement, no slow motion, no text, no watermark, no AI artifacts.

EXACT ACTION ORDER: high top-down wide selfie → dynamic camera approach → touch existing bikini strap → hand naturally passes over bikini/body → smoothly stand up while continuously filming → smile → wink → quick kiss → turn → run → enter ocean.

Make the camera continuity physically consistentClarify who holds the camera while running

—----------

Modelo praia

💡
neutro para qualquer roupa

Create a **10-second vertical 9:16, ultra-realistic 4K video**, filmed as a real handheld selfie using the **iPhone 15 Pro Max already held by the woman in the reference image**. Use the provided reference image as the **ABSOLUTE AND IMMUTABLE visual source** for the entire video.

ABSOLUTE REFERENCE LOCK: Preserve the exact same woman, identity, face, facial features, hair, hairstyle, sunglasses, skin tone, body shape, body proportions, bikini, beachwear, colors, fabric, texture, seams, straps, construction, fit, proportions, and every visible detail from the reference from the first frame to the last frame. The clothing must NEVER change, morph, recolor, brighten, darken, disappear, deform, become transparent, or be replaced. Any white elements must remain ONLY where they already exist in the reference. Never turn the entire bikini white or generate a different bikini.

The entire 10 seconds must feel like **ONE continuous natural take**, with fluid movement and no cuts, transitions, morphing, teleportation, or time jumps.

0.0–1.5s — WALK + SUNGLASSES + KISS:
She walks naturally along the beach, smiling toward the camera. With her **FREE HAND ONLY**, she briefly and delicately lifts/adjusts her sunglasses and immediately sends a quick playful kiss toward the camera. The hand holding the phone remains occupied with filming and never enters the frame.

1.5–2.5s — HAIR:
Still walking, the same free hand naturally moves through the hair **only on the free-hand side**, gently sweeping the strands backward. Ocean wind naturally moves the remaining hair.

2.5–4.8s — CONTINUOUS CLOTHING ADJUSTMENT:
Without stopping the natural walking rhythm, the same free hand performs ONE smooth continuous clothing-adjustment gesture: first she gently adjusts the **upper bikini strap on

the free-hand side**, then the hand naturally moves toward the **center area between the breasts**, making a very small natural adjustment to the central portion of the top, slightly settling the garment downward, then continues toward the **side strap of the bikini bottom on that SAME free-hand side**, gently pulling and settling it into place.

These three actions must look like **one spontaneous, fluid adjustment**, not three separate exaggerated actions. The bikini itself remains structurally and visually identical to the reference.

ABSOLUTE HAND RULE: Only the FREE HAND may touch the hair, sunglasses, or clothing. The arm holding the phone remains dedicated to filming throughout the entire video. Never make the phone-holding hand touch the body, hair, sunglasses, or clothing. Never create an additional hand or arm. The opposite side of the bikini must remain untouched and completely stable.

4.8–6.0s — STOP + CAMERA REPOSITION:
She naturally slows down and stops walking. Using the SAME arm already holding the phone outside the frame, she smoothly brings the selfie camera slightly closer and directs it toward the front of her body. This is a natural repositioning of the existing phone — **do not create another phone, another arm, another hand, or another person**. The phone itself must NEVER become visible.

6.0–8.2s — UPPER GARMENT DETAIL:
With the camera now naturally framing the front of her body, the free hand smoothly passes over the **upper part of the bikini**, naturally demonstrating the fabric, fit, texture, and construction without pulling excessively or modifying the garment. The camera subtly follows the movement while remaining part of the same continuous handheld selfie shot.

8.2–10.0s — LOWER GARMENT DETAIL + FINISH:
The same free hand continues downward and smoothly passes over the **lower part of the bikini**, showing the fabric, fit, texture, and quality. She finishes naturally and confidently, maintaining a relaxed smile and spontaneous beach behavior. **No CTA, no pointing, and no additional gesture.**

Throughout the entire video, maintain realistic physical motion in the **ocean waves, sea foam, sand, sunlight, shadows, wind, hair, skin, hands, and fabric**. Movement must feel spontaneous, continuous, anatomically correct, and physically realistic, like authentic smartphone footage rather than AI-generated animation.

Maintain exactly **two anatomically correct arms and two hands** throughout the video. No duplicated limbs, disappearing limbs, swapped arms, extra fingers, malformed hands, impossible body movement, robotic motion, frozen poses, or sudden camera jumps.

COMPLETE SILENCE: She remains completely silent for all 10 seconds. No speaking, whispering, singing, lip-syncing, vocal sounds, dialogue, music, or voice-over. Do not animate her mouth as if she were talking.

STRICT NEGATIVE CONSTRAINTS: no clothing changes, no bikini color changes, no white bikini replacement, no new clothing details, no altered straps, no disappearing fabric, no wardrobe morphing, no body morphing, no identity change, no face change, no extra people, no visible phone, no extra arms, no extra hands, no extra fingers, no cuts, no transitions, no teleportation, no artificial zoom, no robotic movements, no CTA, no pointing, no speech, no text on screen, no watermark, and no AI-looking artifacts.

HIGHEST PRIORITY: preserve the reference woman and clothing **100% identically throughout all 10 seconds**, while executing every movement above in the exact chronological order as one fluid, realistic beach selfie recording.

UGC colar/correntinha

💡

adicione a imagem do saquinho + a imagem do colar + a imagem de referencia da modelo

Create a FAST-PACED 10-second vertical 9:16 ultra-realistic TikTok Shop UGC video.

EXACTLY 10 SHOTS — EXACTLY 1 SECOND EACH. Every second introduces a new angle, action or transition. ZERO dead time.

ABSOLUTE PRODUCT LOCK: The necklace from the SECOND reference image must remain 100% IDENTICAL in EVERY shot. Preserve EXACTLY its chain, pendant, shape, proportions, colors, materials, stones, engravings, textures and every visible detail. NEVER redesign, reinterpret, replace, add, remove or modify anything.

CRITICAL FOCUS RULE: THE PENDANT IS ALWAYS THE PRIMARY FOCUS POINT. Whenever the necklace is visible, autofocus MUST lock sharply onto the pendant. The pendant must remain crisp, detailed and clearly readable while hands, skin, face and background may have natural shallow depth-of-field blur. NEVER focus on the model's face instead of the pendant. NEVER allow the pendant to become blurry.

FRAMING: Whenever the model appears, NEVER wider than BUST-UP. Prefer tight neck, collarbone, chest and partial-face framing. NO full-body, waist-up or distant shots.

SHOT 1 — 0–1s:
POV, hands only. Start MID-ACTION with the necklace ALREADY being quickly pulled from the pouch. Instant autofocus on the emerging pendant.

SHOT 2 — 1–2s:
Necklace immediately lifted by its chain. Pendant facing the camera, SHARP focus locked directly on it.

SHOT 3 — 2–3s:
Extreme macro of the pendant between fingertips. Tiny natural movement reveals its exact details while maintaining perfect focus.

SHOT 4 — 3–4s:
New POV angle. Necklace hangs freely from one hand. Camera tracks the pendant, keeping it razor-sharp despite movement.

SHOT 5 — 4–5s:
Macro pendant shot. Pendant quickly approaches the lens until it fills the frame → transition.

SHOT 6 — 5–6s:
MATCH CUT. Necklace is already on the model's neck. Tight bust-up shot. Camera immediately locks focus on the pendant, NOT her face.

SHOT 7 — 6–7s:
Tighter neck/collarbone angle. Fingers slide along the chain toward the pendant. Focus remains permanently locked on the pendant.

SHOT 8 — 7–8s:
Extreme macro hero shot. She gently touches/holds the pendant. Maximum sharpness and detail on the pendant.

SHOT 9 — 8–9s:
Quick flash transition to another tight bust-up angle. Model smiles naturally in slight background softness while the pendant remains perfectly sharp in foreground focus.

SHOT 10 — 9–10s:
Tight bust-up CTA. She touches the pendant, smiles and points downward. FINAL VISUAL PRIORITY REMAINS THE PENDANT — sharp, centered and clearly visible until the last frame.

STYLE: viral TikTok Shop UGC, energetic smartphone video, rapid 1-second cuts, macro shots, hand-cover/match-cut/flash transitions, natural handheld movement and shallow depth of field.

MANDATORY: pendant always sharp, pendant always prioritized, continuous subject-tracking autofocus on pendant, realistic jewelry detail.

NEGATIVE: blurry pendant, focus hunting, face-focused autofocus, hand-focused autofocus, soft product, out-of-focus necklace, wide shots, long zoom-outs, slow motion, pauses, speaking, text, product alteration, different necklace, changed chain, changed pendant, extra charms, missing details, invented details, color changes, deformation or duplicate jewelry.

—----------

UGC colar/correntinha2

💡

adicione o colar que deseja divulgar nesta caixinha ou em outra

Create an 8-second ultra-realistic vertical 9:16 UGC video filmed naturally with a smartphone.

IMPORTANT — PRODUCT REFERENCE LOCK:

Use ONLY the jewelry shown in the PROVIDED PRODUCT REFERENCE IMAGE.

Do not describe, recreate, redesign, reinterpret, enhance, simplify, correct, stylize, or replace the jewelry.

Do not infer what the jewelry should look like.

Whatever necklace, chain, charms, pendants, stones, letters, shapes, colors, materials, proportions, details, or arrangement exist in the provided reference image must remain exactly as they appear in that reference.

The PROVIDED PRODUCT IMAGE is the ONLY source of truth for the jewelry.

Never introduce visual characteristics that are not present in the reference.

The exact same reference product must remain consistent throughout every shot.

SCENE 1 — 0.0–2.0s:

Close smartphone POV shot.

Only the woman's hands are visible.

She naturally opens a jewelry box containing the EXACT jewelry from the provided product reference image.

The camera immediately moves closer toward the jewelry with a smooth, dynamic push-in.

Do not modify the product during the camera movement.

SCENE 2 — 2.0–3.5s:

Extreme close-up.

Her fingertips gently touch and slightly lift the jewelry from the box.

She carefully moves it toward the camera and subtly changes its angle so the original details from the reference become clearly visible.

The jewelry moves naturally according to gravity.

Do not generate new details when the camera gets closer.

Preserve only the details that actually exist in the provided reference.

SCENE 3 — 3.5–4.2s:

She moves her hand directly toward the smartphone lens until her palm completely covers the camera.

The hand fully obscures the frame, creating a natural transition.

SCENE 4 — 4.2–6.0s:

When the hand moves away, reveal the PROVIDED REFERENCE MODEL naturally putting the EXACT SAME reference jewelry around her neck.

The product must not change during this transition.

She finishes putting it on and gently adjusts it with her fingertips.

Do not alter its design, scale, structure, arrangement, or visual identity to make it fit the model.

Preserve the product instead.

SCENE 5 — 6.0–6.5s:

Two quick realistic camera flashes:

FLASH — short pause — FLASH.

The flashes affect only the lighting and exposure of the scene.

They must NOT alter the appearance or design of the jewelry.

SCENE 6 — 6.5–8.0s:

Cut to a tight close-up of the jewelry being worn.

The model smiles naturally and gently passes her fingers beside the jewelry to draw attention to it.

The camera performs a subtle final push-in and focuses sharply on the product.

Finish with a beautiful close-up showing the ORIGINAL details of the provided reference jewelry.

ABSOLUTE PRODUCT CONSISTENCY:

The jewelry shown in the reference image is a fixed visual asset.

The

—----------

Toalha de natal

💡
neutro para qualquer toalha! peça fala feminina caso queira alterar ou remova a fala do prompt.

Create a 10-second ultra-realistic product presentation video using the provided reference image.

ABSOLUTE PRIORITY:
The tablecloth in the reference image is a LOCKED VISUAL ELEMENT.

The EXACT SAME tablecloth from the reference image must remain completely unchanged throughout the entire video.

DO NOT regenerate, reinterpret, redesign, replace, unfold, refold, stretch, resize, reposition, rotate, lift, pull, or modify the tablecloth in any way.

The tablecloth must preserve EXACTLY:
- the original print
- pattern placement
- colors
- color distribution
- fabric appearance
- texture
- stitching
- borders
- decorative details
- edges
- dimensions
- proportions
- folds
- orientation
- position

Every visible detail of the tablecloth must remain pixel-consistent with the reference image.

The AI must treat the tablecloth as a FIXED PRODUCT from the original image, NOT as an object to recreate.

[0–3 SECONDS]

A hand naturally enters or remains in the scene and gently touches the surface of the tablecloth.

The hand slowly slides across a SMALL area of the fabric.

IMPORTANT:
The fabric itself does NOT move.
The print does NOT move.
The folds do NOT change.
Only the HAND moves across the existing surface.

[3–6 SECONDS]

The camera makes a very subtle physical handheld approach toward the tablecloth to show the existing fabric details more closely.

NO digital zoom.

Do not create new details during the close-up.

The closer view must show EXACTLY the same existing print, colors and texture from the reference image.

The tablecloth remains completely stationary.

[6–8 SECONDS]

The camera naturally moves back to approximately the original framing.

The hand gently passes over another small section of the tablecloth.

Again, ONLY the hand moves.

Do NOT lift the fabric.
Do NOT pull the fabric.
Do NOT smooth or rearrange the fabric.
Do NOT alter any fold.

[8–10 SECONDS]

Keep the exact tablecloth clearly visible.

The hand stops interacting with the fabric and one finger naturally points downward as a CTA.

Hold the downward pointing gesture briefly.

CRITICAL PRODUCT LOCK:

REFERENCE IMAGE = ABSOLUTE SOURCE OF TRUTH.

Do NOT generate a new tablecloth.

Do NOT replace any part of the tablecloth.

Do NOT invent missing areas.

Do NOT modify the pattern.

Do NOT move individual elements of the print.

Do NOT change the colors.

Do NOT change the borders.

Do NOT change the fabric.

Do NOT change the folds.

Do NOT change its position.

Do NOT change its size or proportions.

Do NOT add decorations to it.

Do NOT remove details from it.

Do NOT transform the tablecloth at any moment.

If preserving the tablecloth conflicts with an intended movement, PRESERVING THE TABLECLOTH HAS PRIORITY.

Preserve the original environment, table, furniture, objects, lighting, shadows, perspective and composition from the reference image.

Single continuous 10-second shot.
Ultra-realistic.
Natural human hand movement.
Natural smartphone footage.
Minimal camera movement.
No cuts.
No transitions.
No scene changes.
No digital zoom.
No object deformation.
No text.
No subtitles.
No audio.
No added logos.
No added objects.

Almofadas Natal

💡

neutro para qualquer almofadas

Claro. Aqui está pronto para copiar no Grok:

```text
Create a highly dynamic 10-second ultra-realistic POV product showcase video using the uploaded reference image as the EXACT starting frame.

IMPORTANT:
Preserve the EXACT set of 4 pillows from the reference image throughout the entire video.
```

Do NOT change, redesign, replace, recolor or reinterpret any pillow.
Preserve exactly all 4 pillow designs, prints, colors, patterns, text, fabric appearance, proportions and details.

POV STYLE:
First-person adult POV.
NO PERSON appears at any moment.
NO face.
NO body.
NO reflection of a person.
Only realistic feminine hands may enter the frame when interacting with the pillows.

VIDEO — 10 SECONDS, FAST AND DYNAMIC:

0–1.5s:
Start by showing all 4 pillows together exactly as arranged in the reference image.
Quick natural handheld push-in toward the pillows.

1.5–3s:
Camera moves closer to the first pillow and performs a fast detailed close-up across its printed design, showing the fabric texture and print clearly.

3–4.5s:
Smooth lateral movement toward another pillow followed by another close-up of its print.
Keep the original artwork completely unchanged.

4.5–6.5s:
One feminine hand enters the frame, grabs ONE pillow naturally and lifts it slightly.
The hand squeezes and gently fluffs the pillow 2–3 times, visibly compressing the filling and letting it expand back into a soft, full, fluffy shape.
Show realistic fabric deformation and softness.

6.5–8s:
Place the pillow back naturally.
Immediately perform two quick close-up movements across different pillow prints, showing stitching, fabric texture and printed details.

8–9s:
Quick pull-back revealing the COMPLETE SET OF 4 PILLOWS together again.

9–10s:
Keep all 4 pillows clearly visible in the background.
One hand enters from the side and clearly points DOWN toward the bottom center of the screen with the index finger, like a natural TikTok Shop CTA.
Hold the downward pointing gesture until the video ends.

STYLE:

Ultra-realistic UGC.
Authentic smartphone video.
Dynamic TikTok Shop pacing.
Natural handheld micro-movements.
Fast but smooth camera movements.
Mix wide shots, medium shots and macro-style close-ups.
Realistic autofocus transitions.
Natural motion blur.
Real fabric physics.
Realistic hand anatomy.
Exactly five fingers.
Natural feminine nails.

ABSOLUTELY NO:
person visible
face
body
voice
speech
music
audio
on-screen text
captions
TikTok interface
shopping cart graphic
artificial CTA icon
new objects
extra pillows
missing pillows
changed prints
changed text
changed colors
warped patterns
morphing
floating objects
deformed hands
scene replacement

The final frame must show the 4 original pillows while the hand clearly points downward toward the bottom center of the frame.
```

—----------

## Decoração natal (neutro para qualquer decoração de natal)
## Create an 8-second ultra-photorealistic five-shot Christmas performance-ad sequence.
```

USE THE EXACT SAME REFERENCE PRODUCT IN EVERY SHOT.

ABSOLUTE IMMUTABILITY:

same silhouette
same geometry
same scale
same color
same pattern
same finish
same material
same logo
same labels
same text
same decorations
same components
same quantity
same physical object

PRODUCT REMAINS STATIONARY.

SHOT 1 — HOOK:
Immediate medium-close view of the reference-facing surface.

SHOT 2 — DETAIL:
Move camera gently closer to an existing visible detail.

Do not invent microscopic construction.

SHOT 3 — HUMAN CONTEXT:
A natural hand with exactly five fingers enters NEXT TO the product and makes a small presenting gesture without touching it.

SHOT 4 — ENVIRONMENT:
Camera pulls slightly wider, revealing how the exact product fits naturally into the premium Brazilian Christmas home.

SHOT 5 — HERO:

Stable final commercial composition with exact product sharply focused and warm Christmas bokeh behind.

CRITICAL:

Do not rotate product between shots.

Do not change product orientation dramatically.

Do not reconstruct unseen sides.

Do not alter scale.

Do not alter color.

Do not alter pattern.

Do not modify logo or text.

Do not add accessories.

Do not remove details.

No CGI.

No dialogue.
No voice-over.

Only tasteful Christmas instrumental music and authentic residential ambience.

—----------

Presépio de natal

Create an ultra-photorealistic vertical 9:16 video based on the reference image.

SCENE:

Keep the exact same real Brazilian home environment, countertop, background, lighting, colors and overall composition from the reference image.

The Christmas decoration must remain EXACTLY the same as in the reference image. Preserve its original shape, proportions, colors, materials, texture, surface details and construction throughout the entire video.

ACTION:
A natural adult female hand enters the frame slowly from the side.

The hand has realistic human anatomy, five fingers, natural finger proportions, realistic nails, subtle skin texture and natural movement.

The hand gently reaches toward ONE specific Christmas decorative object from the arrangement: [DESCREVA EXATAMENTE QUAL OBJETO SERÁ PEGADO].

The fingers carefully grip the object at a physically appropriate point, using a natural and believable grip.

The hand slowly lifts the object from the countertop.

After lifting it, the hand moves the object slightly closer to the camera, only a small distance, just enough to reveal its details more clearly.

The object remains fully visible and stable in the hand.

The hand pauses naturally for a moment while holding the object closer to the camera, allowing the viewer to clearly see its texture, colors, shape and small decorative details.

The movement must be slow, controlled and natural, like a person casually picking up a Christmas decoration to show it to someone.

Do NOT rotate the object excessively.
Do NOT flip the object.
Do NOT squeeze or deform the object.
Do NOT change its orientation unnecessarily.

CAMERA:
Vertical 9:16 smartphone video.
Camera remains mostly stationary.
Very subtle natural handheld micro-movement.
No dramatic camera movement.
No zoom effect.
No sudden focus changes.

As the object comes slightly closer to the camera, the camera naturally adjusts focus onto the object and hand, with realistic smartphone autofocus behavior.

The background may become slightly softer naturally, but must remain recognizable as the same real Brazilian home.

HAND REALISM:
Real female hand with anatomically correct fingers.
Five fingers only.
Natural finger joints.
Natural nail shapes.
Subtle skin pores and micro-texture.
Natural skin color variation.
Realistic interaction between fingers and the object's surface.

The fingers must physically wrap around the object according to its real shape.

No extra fingers.
No fused fingers.
No disappearing fingers.
No duplicated hands.
No distorted fingernails.

PRODUCT CONSISTENCY:
The selected Christmas decoration must remain completely consistent with the reference image.

Lock its:
- exact shape

- dimensions
- proportions
- colors
- materials
- texture
- decorative details
- edges
- surface reflections

The object must never morph, melt, stretch, duplicate, shrink or change design.

PHYSICS:
The object has realistic weight.
The hand must support it naturally.
The object must move together with the hand as one physically connected object.
No floating.
No sliding through fingers.
No unnatural grip.
No intersection between fingers and object.

LIGHTING:
Maintain the exact natural lighting character of the reference image.

Soft, realistic ambient daylight from the real environment.
Natural indoor light.
Subtle realistic shadows.
Natural reflections on the object.
Physically believable light interaction between the hand, object and countertop.

If the decoration contains lights, maintain their original subtle illumination without increasing the glow.

Do not introduce cinematic lighting.
Do not add dramatic warm light.
Do not create artificial highlights.
Do not create a commercial product-lighting effect.

STYLE:
Authentic casual smartphone footage filmed inside a real Brazilian home.

Natural.
Minimal.
Unstaged.
Everyday.
Quiet.
Photorealistic.

The video must look like a real person casually picked up one of their Christmas decorations and brought it slightly closer to the phone camera to show its details.

It must NOT look like a commercial, product advertisement, catalog, professional studio video or staged interior-design content.

MOTION:
0–2 seconds: the female hand naturally enters the frame and approaches the selected decoration.

2–4 seconds: the fingers gently grasp the decoration and lift it from the countertop.

4–6 seconds: the hand slowly brings the decoration slightly closer to the camera.

6–8 seconds: the hand holds the decoration steady near the camera for a brief moment, allowing its details to be clearly visible.

Keep all movements slow, continuous and physically natural.

BACKGROUND SOUND:
Very subtle authentic household room tone, faint ambient noise from a real home, no exaggerated sound effects.

MUSIC:
No music.

FINAL REALISM REQUIREMENT:
The entire scene must look like genuine smartphone footage recorded inside a real Brazilian home, with physically accurate hand-object interaction, stable product geometry, natural lighting and realistic camera behavior.

NEGATIVE CONSTRAINTS:
No product morphing, no object deformation, no melting, no duplicated object, no changing colors, no changing shape, no changing proportions, no extra fingers, no fused fingers, no missing fingers, no deformed hand, no floating object, no impossible grip, no object passing through fingers, no excessive rotation, no sudden movement, no camera zoom, no dramatic focus pull, no cinematic lighting, no studio lighting, no catalog aesthetic, no commercial aesthetic, no CGI, no 3D render, no artificial skin, no plastic hand, no excessive glow.

Dialogue: none.
rosto feminino

—----------
Jogo americano/ Suplas

Create an 8-second five-shot premium Brazilian Christmas table B-roll sequence using the EXACT SAME reference product.

SHOT 1:

Medium view of product already positioned on table.

SHOT 2:

Small camera push toward its original reference-facing surface.

SHOT 3:

Detail frame of existing texture or print without changing it.

SHOT 4:

Slow lateral camera move showing realistic relationship to tableware.

SHOT 5:

Stable premium Christmas-table hero shot.

The reference product never moves.

No duplicate products.

No altered print.

No color drift.

No logo change.

No material morphing.

No dialogue.

No voice-over.

Natural table ambience and subtle Christmas music.

—----------

--

faceless conjunto

VERTICAL 9:16 VIDEO, ULTRA-REALISTIC, UGC STYLE FOR TIKTOK SHOP.

Use EXACTLY the same woman, EXACTLY the same clothing, and EXACTLY the same environment shown in the reference image.

ABSOLUTE REFERENCE LOCK — MAXIMUM PRIORITY:

The REFERENCE IMAGE is the ONLY source of truth.

Keep the clothing 100% IDENTICAL to the reference image throughout the entire video.

Preserve EXACTLY the original color, fabric, texture, design, construction, fit, proportions, length, seams, details, and drape exactly as they appear in the reference image.

DO NOT invent any garment detail.

DO NOT add any garment detail.
DO NOT remove any garment detail.
DO NOT redesign any garment detail.
DO NOT reinterpret any garment detail.
DO NOT change the original color.
DO NOT change the original fabric.
DO NOT change the original fit or construction.

If any clothing feature mentioned in a movement does not exist in the reference image, DO NOT CREATE IT. Perform the same movement naturally on the corresponding area of the actual garment shown in the reference image.

DO NOT SHOW THE FACE.
Keep the framing from the neck down.

Hair behind the shoulders whenever necessary to keep the clothing fully visible.

No tattoos.
No accessories.
No handbag.
No smartphone.
No text on screen.
No logo.
No watermark.

10-SECOND VIDEO with QUICK CUTS, beautiful zooms, and varied movements, keeping attention throughout the entire video.

MOVEMENT SEQUENCE:

MICRO-SCENE 1:
Start with the woman STANDING STILL, FACING FORWARD, and the camera makes a QUICK BOTTOM-TO-TOP ZOOM, showing the lower part of the clothing and moving upward to the upper part.

MICRO-SCENE 2:
QUICK CUT to her LIGHTLY PULLING THE WAIST AREA OF THE GARMENT OUTWARD AND RELEASING IT, showing comfort and drape.

MICRO-SCENE 3:
CUT to her PLACING ONE HAND IN THE EXISTING POCKET, if present exactly as shown in the reference image, and with the other hand LIGHTLY SMOOTHING THE SIDE OF THE UPPER GARMENT, showing the upper part of the clothing.

MICRO-SCENE 4:
CUT WITH A CLOSER ZOOM as she GENTLY HOLDS THE SLEEVE AREA, exactly as it exists in the reference image, and LIGHTLY PULLS IT to show the fabric and finish.

MICRO-SCENE 5:
CUT to her TURNING HER BODY VERY SLIGHTLY, approximately 15 DEGREES, while the camera ZOOMS IN ON THE WAIST AREA and the corresponding side detail exactly as shown in the reference image, highlighting the fit.

MICRO-SCENE 6:
CUT to her RUNNING HER HAND OVER THE FABRIC OF THE LOWER GARMENT AT THIGH LEVEL, then MOVING HER HAND DOWN TO THE HEM, showing the natural drape of the garment.

MICRO-SCENE 7:
QUICK CUT to a SLIGHTLY LOWER CAMERA ANGLE, filming FROM BELOW UPWARD, while she TAKES TWO SHORT STEPS and the lower garment MOVES NATURALLY.

MICRO-SCENE 8:
CUT to her HOLDING THE SIDE OF THE UPPER GARMENT NEAR THE WAIST AND RELEASING IT, showing its natural drape.

MICRO-SCENE 9 — FINAL:
Finish with her FACING FORWARD, ONE HAND naturally positioned at the side or in an existing pocket exactly as appropriate to the reference garment, and THE OTHER HAND FREE, while the camera makes a SMOOTH ZOOM BACKWARD, showing the COMPLETE CLOTHING.

MANDATORY MOVEMENT LOCK:

ALL 9 MICRO-SCENES MUST APPEAR.
DO NOT SKIP ANY MICRO-SCENE.
DO NOT MERGE MICRO-SCENES.
DO NOT REPLACE ANY MOVEMENT.
DO NOT CHANGE THE ORDER.
DO NOT ADD NEW MOVEMENTS.

Keep the exact original choreography, timing, camera directions, cuts, turns, hand movements, and steps.

MANDATORY GARMENT LOCK:

THE REFERENCE IMAGE ALWAYS OVERRIDES THE TEXTUAL DESCRIPTION OF THE CLOTHING.

ONLY garment details that ACTUALLY EXIST in the reference image may appear.

The clothing must remain visually IDENTICAL in EVERY FRAME and EVERY CUT.

The movements must NEVER cause the AI to create pockets, sleeves, waistbands, openings, seams, buttons, ties, belts, or any other details that are absent from the reference image.

NEVER SHOW THE FACE.

The movements must be elegant, natural, feminine, dynamic, and slightly fast, with the appearance of a beautiful professional TikTok Shop sales video.

No speech.
No voice.
No music.
No ambient audio.
No audio of any kind.

—----------

faceless blusa

Use the reference image as the ABSOLUTE BASE.

VERTICAL 9:16 VIDEO, ULTRA-REALISTIC, TikTok Shop advertisement style. Show only from the neck down, without showing the face. Total focus on the blouse.

MAIN GARMENT LOCK — MAXIMUM PRIORITY:

Keep EXACTLY the same blouse from the reference image throughout the entire video.

DO NOT change the blouse.
DO NOT change the color.
DO NOT change the fabric.
DO NOT change the fit or design.
DO NOT change the collar.
DO NOT change the sleeves.
DO NOT change the hem.
DO NOT change the tie detail.
DO NOT adjust, pull, remake, tighten, or modify any part of the blouse.

The garment must remain IDENTICAL from beginning to end.

MOVEMENT-ONLY PROMPT.
No speech.
No copy.
No text on screen.
No logo.
No watermark.

MOVEMENTS:

The model STARTS STANDING STILL, FACING FORWARD, WITH HER ARMS RELAXED.

The camera makes a SMOOTH ZOOM on the UPPER PART OF THE BLOUSE, highlighting the COLLAR first.

Then, the model LIGHTLY TOUCHES THE COLLAR WITH HER FINGERS only to show the finish, WITHOUT PULLING and WITHOUT ALTERING THE GARMENT.

Then, QUICK CUT to a CLOSER FRAMING OF ONE SLEEVE, while the model SLIGHTLY RAISES HER ARM to better show the drape of the sleeve.

Next, she LOWERS HER ARM and the camera makes a SHORT ZOOM ON THE OTHER SLEEVE, while the model LIGHTLY TOUCHES THE FABRIC NEAR THE SLEEVE, only showing the detail.

Then, the camera MOVES SMOOTHLY DOWN FROM THE COLLAR TO THE HEM OF THE BLOUSE, showing how it drapes on the body.

Next, the model TURNS HER TORSO VERY SLIGHTLY TO ONE SIDE AND RETURNS TO THE CENTER, only to show how the blouse fits, WITHOUT CHANGING ANYTHING.

Finish with a FRONT-FACING FRAMING and a SMOOTH ZOOM MOVING CLOSER AGAIN TO THE COLLAR AND SLEEVES.

IMPORTANT:

DO NOT change anything about the blouse at any moment.
DO NOT touch or modify the tie detail.
DO NOT alter the shape of the garment.
The blouse must remain EXACTLY identical to the provided reference image.

NEVER SHOW THE FACE.
KEEP THE FRAMING FROM THE NECK DOWN DURING EVERY MOVEMENT AND EVERY CAMERA ZOOM.

KEEP ALL ORIGINAL MICRO-SCENES EXACTLY AS WRITTEN ABOVE.
DO NOT SKIP ANY MOVEMENT.
DO NOT MERGE MOVEMENTS.
DO NOT REPLACE MOVEMENTS.
DO NOT CHANGE THE ORDER.
DO NOT ADD NEW MOVEMENTS.

—----------

faceless blusa 2

Create a VERTICAL 9:16, ULTRA-REALISTIC video, styled like a real home fitting-room/bedroom video, using EXACTLY the woman from the reference image and EXACTLY the same blouse shown in the reference image.

SHOW ONLY FROM THE CHIN DOWN.
TOTAL FOCUS ON THE BLOUSE.

ABSOLUTE REFERENCE LOCK:
The blouse must remain 100% IDENTICAL to the provided reference image throughout the entire video.

The REFERENCE IMAGE is the ONLY source of truth for every visual characteristic and detail of the blouse.

Preserve EXACTLY the color, fabric, texture, shape, construction, neckline, straps, length, fit, silhouette, drape, seams, hem, and every other detail exactly as they actually appear in the reference image.

DO NOT invent, add, remove, redesign, reinterpret, reposition, resize, or modify ANY detail.

If a detail does not exist in the reference image, DO NOT create it.

No accessories, no tattoos, no smartphone, no text on screen.

START WITH A MEDIUM FRONT-FACING SHOT.

The model takes ONE SMALL STEP TO ONE SIDE and then ONE SMALL STEP TO THE OTHER SIDE, allowing the blouse to move naturally.

QUICK CUT TO A CLOSE-UP OF THE NECKLINE.

She LIGHTLY TOUCHES THE NECKLINE DETAIL WITH ONE HAND, exactly as it actually exists in the reference image, then TOUCHES ONE OF THE STRAPS, showing the finish.

NEW CUT TO A WIDER FRAMING.

She HOLDS THE ENDS OF THE HEM WITH BOTH HANDS and makes a LIGHT OPENING-AND-RELEASING MOVEMENT, showing the loose shape of the blouse.

Insert a ZOOM STARTING AT THE HEM AND MOVING UP TO THE BUST.

Then she makes a SMALL TURN OF APPROXIMATELY 20 DEGREES TO ONE SIDE, RETURNS TO THE FRONT, and RUNS HER HAND ALONG THE SIDE OF THE BLOUSE, showing how it drapes on the body.

Finish with a QUICK CLOSE-UP OF THE FRONT OF THE BLOUSE and then RETURN TO THE MEDIUM FRAMING.

Beautiful, fast, and natural movements, with several cuts and smooth zooms, in the style of a fashion sales video.

NEVER SHOW THE FACE AT ANY MOMENT.
Keep the framing from the chin down during every movement, cut, turn, and zoom.

DO NOT CHANGE ANY OF THE ORIGINAL MICRO-SCENES.
DO NOT CHANGE THE MOVEMENTS.
DO NOT CHANGE THEIR ORDER.
DO NOT SKIP ANY ACTION.
DO NOT MERGE ACTIONS.
DO NOT ADD NEW ACTIONS.

THE REFERENCE IMAGE OVERRIDES ANY DESCRIPTION OF THE GARMENT.
ONLY DETAILS THAT ACTUALLY EXIST IN THE REFERENCE IMAGE MAY APPEAR.

No speech.
No ambient audio.
No audio of any kind.

—----------

faceless blusa 3
💡
neutro qualquer blusa, ideal para blusas com detalhes nas mangas.

VERTICAL 9:16 VIDEO, NO SPEECH.

Keep exactly the same woman, the same Duna fabric blouse from the reference image, the same jeans, and the same environment. Total focus on the blouse. Do not alter the fit, length, drape, V-neckline, the three

front covered buttons, the slightly puffed short sleeves, or the elastic finish on the sleeves.

Always frame from the chin down and from the waist up, without showing the face.

Start with the model taking TWO SHORT AND FEMININE STEPS TOWARD THE CAMERA. Make a QUICK ZOOM on the texture of the Duna fabric while she gently runs the PALM OF HER HAND OVER THE FRONT OF THE BLOUSE, showing the light and loose drape.

CUT TO A CLOSE-UP OF THE SLEEVE: she delicately TOUCHES AND SMOOTHS THE SHORT SLEEVE, highlighting the soft volume and the elastic finish.

QUICK CUT TO THE NECKLINE: she delicately RUNS TWO FINGERS ALONG THE EDGE OF THE V-NECKLINE and then SLIDES HER FINGERS NEAR THE THREE COVERED BUTTONS, showing the details without pulling or deforming the garment.

Then, she GENTLY MOVES HER TORSO FROM ONE SIDE TO THE OTHER, allowing the fabric to naturally follow the movement, without standing still.

NEW CUT: slight turn of approximately 15 DEGREES TO THE SIDE while the camera follows the movement. She RETURNS TO THE FRONT and GENTLY RUNS BOTH HANDS ALONG THE SIDES OF THE BLOUSE, showing that it fits loosely on the body, without pulling the fabric.

Finish with a BOTTOM-TO-TOP ZOOM, STARTING AT THE HEM OF THE BLOUSE AND MOVING UP TO THE NECKLINE AND BUTTONS, while she TAKES A SMALL STEP TO THE SIDE.

Natural, feminine, elegant, and continuous movements. Quick but fluid cuts. No pauses, no freezing, no showing the face, and no altering the clothing, buttons, sleeves, fabric, or environment.

—----------

faceless vestido
💡
neutro qualquer vestido

Mesmo padrão: **12 microcenas obrigatórias, na mesma ordem e sem alterar nenhum movimento. Também mantenho a trava total do vestido e o rosto fora do enquadramento em todas as cenas.**

VERTICAL 9:16 VIDEO, ULTRA-REALISTIC.

Use exactly the woman, the dress, and the bedroom from the reference image. Keep the same woman, the same plus-size body, the same hair behind the shoulders, the same white sneakers, and the same environment.

NEVER SHOW THE FACE.
Always keep the framing from the chin down throughout the entire video.

THE FACE MUST NEVER APPEAR IN ANY MICRO-SCENE, INCLUDING DURING CAMERA MOVEMENTS, ZOOMS, CLOSE-UPS, WALKING, OR ANY BODY MOVEMENT.

TOTAL DRESS LOCK:
Keep the dress 100% identical to the reference image.
Do not alter the color, round neckline, strap width, armholes, length, width, fit, seams, hem, or drape.
The dress DOES NOT have sleeves, DOES NOT have pockets, DOES NOT have a collar, DOES NOT have buttons, DOES NOT have a belt, and DOES NOT have a print.
Do not create any new detail.

FABRIC:
VISCOSE LYCRA KNIT, lightweight, soft, comfortable, flexible, with elastane and natural movement.
The fabric must have the appearance of viscose knit with lycra, with a fluid and comfortable drape on the body.
Do not transform it into viscose linen, linen, silk, satin, denim, or heavy fabric.

Create a very dynamic video, with QUICK CUTS, close approaches, and ZOOMS, keeping the model in motion practically the entire time.

MOVEMENT SEQUENCE:

MICRO-SCENE 1:
Start already in motion.
The model holds both sides of the dress with BOTH HANDS and gently pulls the fabric to the sides, opening the garment to show the loose and comfortable drape of the viscose lycra.
Make a QUICK ZOOM during this movement.

MICRO-SCENE 2 — QUICK CUT:
She releases one side and, using only ONE HAND, holds the side of the dress and gently pulls it outward, showing the flexibility and drape of the knit fabric.
The other hand remains free and natural.

MICRO-SCENE 3 — CUT WITH A CLOSER SHOT OF THE TORSO:
She gently runs one hand over the front of the dress, sliding from the bust toward the waist and hip, showing how the knit fabric follows the body without becoming excessively tight.

MICRO-SCENE 4 — QUICK CUT WITH A ZOOM ON THE ARMHOLE AND SHOULDER AREA:
The camera moves closer to the upper part of the dress, showing the sleeveless finish, the armhole, and the round neckline.
She delicately touches the fabric in this area with her fingertips.
Never frame the face.

MICRO-SCENE 5:
The camera cuts to the HEM AREA.
Start with a close-up of the hem and make a camera movement MOVING UPWARD FROM THE HEM, showing the drape of the skirt, the movement of the knit fabric, and the fit of the dress.

MICRO-SCENE 6 — CUT:
She lightly holds part of the hem with one hand and moves the fabric from side to side, creating a gentle sway and showing the lightness of the viscose lycra.

MICRO-SCENE 7 — QUICK CUT:
The model takes 2 OR 3 natural steps TOWARD THE CAMERA.
The dress must sway naturally with each step.
Make a slight zoom following her approach, always without showing the face.

MICRO-SCENE 8 — CUT TO A SLIGHTLY CLOSER FRAMING:
She runs her hand along the side of the waist and over the hip, moving downward along the dress, highlighting how the knit fabric follows the curves of the body comfortably.

MICRO-SCENE 9 — QUICK CUT:
She once again grabs the fabric with BOTH HANDS, this time slightly lower around the hip area, and gently opens it to the sides, showing the space, elasticity, and comfortable drape of the garment.
Make a ZOOM while the fabric is being opened.

MICRO-SCENE 10 — CUT WITH A ZOOM ON THE NECKLINE AREA:
Show a close-up of the finish of the round neckline and the upper part of the dress while she delicately runs her fingers over the fabric.
Do not create a collar, accessories, or any nonexistent detail.
Do not frame the face.

MICRO-SCENE 11:
Return to a wider framing.
She takes one more small step toward the camera and then gently moves the hem with one hand, keeping the dress in motion.
The other hand remains free.

MICRO-SCENE 12 — FINAL:
Make one final camera movement starting at the hem and moving quickly upward to the bust area, ending with the model running one hand over the fabric while the other remains relaxed.

RHYTHM:
Fashion commercial video with plenty of movement.
Do not leave the model standing still for several seconds.
Alternate between wider framing, zoom on the fabric, zoom on the armhole, zoom on the neckline, and zoom on the hem.

Quick and natural cuts to maintain attention.
Feminine, elegant, and realistic movements.

ALL 12 MICRO-SCENES MUST APPEAR IN THE VIDEO.
DO NOT SKIP ANY MICRO-SCENE.
DO NOT MERGE MICRO-SCENES.
DO NOT REPLACE ANY MOVEMENT.
DO NOT CHANGE THE ORDER.
DO NOT CHANGE ANY MOVEMENT.

NEVER show the face at any moment.
DO NOT turn around.
DO NOT spin.
DO NOT alter the environment.
DO NOT change the woman.
DO NOT change the body.
DO NOT change the hair.
DO NOT alter the sneakers.
DO NOT add accessories, a watch, necklace, earrings, handbag, smartphone, or tattoos.
DO NOT create sleeves.
DO NOT create a collar.
DO NOT create pockets.
DO NOT create buttons.
DO NOT create belts.
DO NOT create prints.
DO NOT modify the color or fit.
DO NOT transform the viscose lycra into another fabric.
DO NOT deform hands, fingers, arms, legs, or fabric.

Keep the dress and the visual identity of the reference image intact throughout the entire video.

—----------

faceless shorts
VERTICAL 9:16 VIDEO, ULTRA-REALISTIC.

Use exactly the same woman, the same high-waisted crepe knit shorts, and the same environment from the reference image.

NEVER SHOW THE FACE.

Always keep the framing from the middle of the bust down and from the knees up.

THE FACE MUST NEVER APPEAR IN ANY MICRO-SCENE, INCLUDING DURING THE SQUAT, LEG LIFT, WALKING, TURNS, OR CAMERA ZOOMS.

TOTAL SHORTS LOCK:

Preserve the shorts 100% identical to the reference image.

The shorts are made of CREPE KNIT FABRIC, with a delicately grainy texture and a structured yet comfortable drape.

Maintain exactly the SAME COLOR of the shorts from the reference image, without altering the shade, saturation, or texture.

Maintain exactly:

*** the high waist;**

*** the wide waistband;**

*** the original short length;**

*** the slightly loose fit;**

*** the front pleats and panel details;**

*** the side pockets;**

*** the belt loops;**

*** the seams;**

*** the hem;**

*** the original drape.**

Keep the wide belt made from the same crepe knit fabric and exactly the same color as the shorts.

Keep the large rectangular buckle, with rounded corners and fully covered in the same tone as the garment.

Do not alter the width of the belt, the shape of the buckle, or its centered position.

Do not transform the fabric into rigid tailoring fabric, denim, twill, linen, or smooth knit fabric.

Preserve the characteristic visual texture of the crepe knit fabric throughout the entire video.

Do not create a visible zipper, buttons, extra pockets, drawstring, visible elastic, or any new detail.

START THE VIDEO ALREADY IN MOTION.

MICRO-SCENE 1:

She holds the waistband of the shorts with both hands, one on each side of the belt, and gently pulls it forward TWO TIMES IN A ROW, without pausing.

The camera quickly moves closer to the waistband, showing the hands, the wide belt, the rectangular covered buckle, and the texture of the crepe knit fabric.

The belt and buckle must remain perfectly firm, centered, and without deformation.

QUICK CUT.

MICRO-SCENE 2:

She gently holds the fabric on the side of one thigh and gives it TWO SHORT OUTWARD PULLS, without forcing it and without deforming the fit.

Make a small zoom EXACTLY on the area being pulled, highlighting the CREPE KNIT texture and the drape of the shorts.

CUT.

MICRO-SCENE 3:

She releases the fabric and gently runs one hand over the front of the shorts, STARTING AT THE WAISTBAND, tracing around the belt and buckle, moving down along the front panel details, the hip, the thigh, and reaching the hem.

The camera follows EXACTLY the movement of the hand.

QUICK CUT.

MICRO-SCENE 4:

Make a VERTICAL ZOOM starting at the HEM and quickly moving upward to the WAISTBAND.

Show the entire shorts, the original length, the front panel details, the side pockets, the wide belt, and the rectangular buckle.

CUT.

MICRO-SCENE 5:

She performs a LIGHT AND NATURAL SQUAT and immediately returns to the starting position.

The shorts must follow the movement naturally, without becoming tight against the body, without riding up too much, without changing the length, and without deforming the fabric, panel details, belt, or buckle.

NEVER SHOW THE FACE DURING THE SQUAT.

QUICK CUT.

MICRO-SCENE 6:

She RAISES ONE KNEE to a comfortable height, HOLDS IT FOR A MOMENT, and lowers it.

Make a small zoom on the THIGH AND HEM AREA during the movement, showing that the shorts allow mobility and maintain their original drape.

CUT.

MICRO-SCENE 7:

She places ONE HAND IN ONE OF THE SIDE POCKETS and keeps the other hand free.

The hand must enter ONLY the real existing side pocket of the garment.

Make a short zoom on the POCKET, the PANEL DETAILS, and the SIDE OF THE SHORTS.

Then, MOVE THE CAMERA BACK to show the entire garment again.

QUICK CUT.

MICRO-SCENE 8:

With ONE HAND IN THE POCKET and the other hand free, she takes TWO SHORT STEPS TOWARD THE CAMERA.

The camera follows with a smooth approach, keeping the shorts as the main focus and preserving the framing WITHOUT SHOWING THE FACE.

CUT.

MICRO-SCENE 9:

She stops and TURNS HER BODY SLIGHTLY, approximately 10° TO 15° TO ONE SIDE, only to highlight the side, the pocket, and the drape over the hip.

DO NOT show the back.

She IMMEDIATELY RETURNS to a fully front-facing position.

QUICK CUT.

MICRO-SCENE 10 — FINAL:

She quickly runs ONE HAND ALONG THE SIDE OF THE HIP DOWN TO THE HEM and finishes FACING THE CAMERA, with ONE HAND IN THE POCKET and the other relaxed.

Finish with a SHORT ZOOM STARTING AT THE HEM AND MOVING UPWARD TO THE WAISTBAND, highlighting the front panel details, the CREPE KNIT texture, the wide belt, and the rectangular covered buckle.

RHYTHM:

Fast, natural, and continuous movements.

Quick cuts between ALL 10 MICRO-SCENES.

ALL 10 MICRO-SCENES MUST APPEAR IN THE VIDEO.

DO NOT SKIP ANY MICRO-SCENE.

DO NOT MERGE TWO MICRO-SCENES INTO ONE.

DO NOT REPLACE ANY MOVEMENT.

DO NOT CHANGE THE ORDER.

DO NOT CHANGE THE MOVEMENTS.

Zooms must follow exactly the area of the product being shown.

No slow movements.

No long pauses.

The video must feel dynamic and capture attention from the very first second.

ABSOLUTE LOCKS:

Do not change the environment.

Do not change the woman.

Do not alter the body.

Do not modify the shorts.

Do not alter the COLOR of the shorts.

Do not alter the length or fit.

Do not transform the crepe knit fabric into another fabric.

Do not remove or modify the front panel details and pleats.

Do not transform the side pockets into front or back pockets.

Do not create extra pockets.

Do not deform, narrow, thicken, or reposition the belt.

Do not change the rectangular buckle into a round buckle.

Do not create a metal pin, holes, or metal parts on the buckle.

Do not create a visible zipper, buttons, drawstring, or elastic.

Do not show the back.

NEVER SHOW THE FACE.

Do not add a smartphone, handbag, watch, jewelry, tattoos, text, brands, or logos.

—----------

faceless calça

Use the provided image as a FIXED AND ABSOLUTE REFERENCE.

Keep EXACTLY the same woman and EXACTLY the same outfit from the reference image.

VERTICAL 9:16 VIDEO, ULTRA-REALISTIC FASHION UGC.

NEVER SHOW THE FACE UNDER ANY CIRCUMSTANCES.
THE FACE MUST NOT APPEAR IN ANY FRAME OF THE VIDEO.
Always keep the framing from the CHIN DOWN.

During EVERY movement, cut, camera movement, zoom, turn, walk, and leg movement, the camera MUST maintain this framing.
NEVER tilt, pan, zoom, or reframe upward enough to reveal the mouth, nose, eyes, forehead, or full face.
If the model moves vertically, THE CAMERA MUST ADJUST TO KEEP THE FACE OUT OF FRAME.

ABSOLUTE PRODUCT LOCK:
The outfit must remain 100% IDENTICAL to the reference image in EVERY FRAME.

Do not alter the fabric, color, texture, design, fit, drape, neckline, pockets, waistband, drawstring, length, seams, stitching, proportions, construction, or ANY detail of the outfit.

Do not add, remove, redesign, reinterpret, recolor, or replace ANY clothing detail.
The outfit must remain visually identical

—----------

faceless calça2

FAST, CONTINUOUS, AND NATURAL MOVEMENTS, WITHOUT LETTING THE MODEL STAND STILL:

1. START IMMEDIATELY WITH A QUICK ZOOM ON THE WAISTBAND.
The model holds BOTH SIDES OF THE WAISTBAND with both hands and pulls strongly to the sides, moving the fabric well away from the body to clearly show the high level of elasticity.
She holds it open for a very brief moment and releases it naturally.

2. QUICK CUT.

The camera frames the hip and thigh area.
With both hands at the same time, she holds the sides of the pants at thigh level and pulls the fabric outward on both sides, showing that the material stretches a lot.
She releases it immediately and continues the movement.

3. CUT.
The model lifts one of her legs, bending the knee quickly and naturally.
The pants must follow the movement perfectly without deforming, tearing, or changing their fit.

4. IMMEDIATELY AFTER, WITHOUT STANDING STILL:
She performs a natural squat and returns to the starting position.
The camera follows the movement while always keeping the framing below the waist and focused on the pants.

5. QUICK CUT TO THE LOWER PART OF THE PANTS.
Make a zoom/camera movement starting near the hem and moving quickly upward along the legs, thighs, hips, and reaching the waistband.
This movement must show the full length, the skinny fit, and the drape of the garment.

6. CUT.
The model places one hand in one of the front pockets and makes a slight hip movement.
Do not exaggerate the turn.
She must remain predominantly FACING THE CAMERA.

7. QUICK CUT.
She takes her hand out of the pocket and slowly runs the palm of her hand along the side of her hip, moving down the thigh.
Make a slight zoom following the hand to highlight the fabric tightly fitted to the body and the finish of the pants.

8. FINALIZATION.
She holds one side of the waistband again, gives it a quick pull outward, and releases it.
Then she takes two short steps toward the camera while the framing remains from the waist down.

—----------

faceless calça 3
VERTICAL 9:16 VIDEO, ULTRA-REALISTIC, DYNAMIC, WITH THE APPEARANCE OF A VIDEO RECORDED ON A SMARTPHONE.

Use EXACTLY the same woman, the same pants, the same top, the same sandals, and the same room from the reference image.

NEVER SHOW THE FACE. Keep all framing from mid-torso down, with absolute focus on the pants.

TOTAL PANTS LOCK:
Keep the pants 100% identical to the reference image. Preserve exactly the original color, original fabric, original texture, original waistband, original seams, original fit, original leg shape, original length, hem, construction, and drape.

Do not create pockets, zippers, buttons, belts, drawstrings, belt loops, labels, or any new details. Do not alter the thickness or design of the waistband.

TOTAL TEXTURE LOCK:
Keep the original texture exactly as shown in the reference image.

DO NOT alter the original texture.
DO NOT alter the original fabric.
DO NOT transform the fabric into another type of material.
DO NOT alter the texture during zooms, movements, or cuts.

MOVEMENT SEQUENCE WITH QUICK CUTS:

1. IMMEDIATE HOOK: the video

—----------

Método gringo - Faceless shop

💡
imagem sempre do pescoço pra baixo

Create an ultra-realistic vertical 9:16 UGC fashion video using the provided reference image as the exact visual reference.

SINGLE CONTINUOUS TAKE.
NO cuts.
NO transitions.
NO zoom.
NO camera movement.
NO angle changes.

The camera remains COMPLETELY FIXED throughout the entire video.

ABSOLUTE FACE EXCLUSION:

THE MODEL'S FACE MUST NEVER APPEAR.

Show her STRICTLY FROM THE NECK DOWN for 100% of the video.

The head, face, chin, mouth, nose, eyes and all facial features must remain physically OUTSIDE THE TOP EDGE OF THE FRAME.

This applies to EVERY SINGLE FRAME.

Do NOT hide the face with a hand.
Do NOT blur the face.
Do NOT crop the face after generation.

The camera composition itself must physically exclude the head and face.

Even when she:
- starts extremely close to the camera
- removes her hand from the lens
- walks backward
- adjusts the blouse
- shifts her weight
- rotates 45 degrees

THE FACE MUST NEVER ENTER THE FRAME.

No face in reflections either.

———————————————————

FRAMING LOCK

The visible body area must remain:

NECK / SHOULDERS
↓

TORSO
↓
WAIST / HIPS
↓
THIGHS

NEVER SHOW BELOW THE THIGHS.

No knees.
No lower legs.
No feet.

The model must also NEVER leave the frame.

The camera NEVER changes framing to follow her.

———————————————————

FIRST FRAME

The model already starts extremely close to the camera.

There is NO initial approach.

In the FIRST FRAME, HER OWN PALM already covers 100% of the camera lens.

The palm completely fills the image.

No background visible.
No gaps around the fingers.

Her hand is anatomically connected to her own arm.

———————————————————

REVEAL

She slowly removes her palm from the lens while simultaneously taking small, smooth steps backward.

As her hand moves away, her body and the environment are gradually revealed.

CRITICAL:

HER FACE IS NEVER REVEALED.

As she walks backward, her head remains permanently above and outside the top edge of the 9:16 frame.

She walks backward only enough to reveal the outfit FROM THE NECK TO THE THIGHS.

The camera remains completely stationary.

———————————————————

GARMENT ADJUSTMENT

She stops naturally.

Using BOTH of her own hands, she gently smooths and adjusts the blouse around the waist.

Both hands clearly belong to her and remain anatomically connected to her arms.

Natural hand-to-fabric contact.
Realistic fabric compression.
Subtle wrinkles.
Natural finger movement.

Do not stretch or deform the garment.

———————————————————

45° TURN

She pauses briefly and subtly shifts her weight.

She then smoothly rotates approximately 45° toward one side to present the side fit of the outfit.

ONLY THE MODEL MOVES.

The camera remains completely fixed.

Her head and face remain outside the frame during the ENTIRE rotation.

She NEVER turns enough for her face, chin or profile to enter the image.

She remains inside the frame from neck to thighs.

She finishes with relaxed, confident neck-down body language and subtle natural movement.

———————————————————

REFERENCE LOCK

Preserve EXACTLY the same:

model
visible body proportions
outfit

color
fabric
texture
cut
fit
seams
stitching
prints
logos
accessories
environment
lighting
perspective

No garment changes.
No color changes.
No environment changes.
No body deformation.

———————————————————

CAMERA LOCK

Vertical 9:16.
Ultra-realistic 4K smartphone UGC.

CAMERA COMPLETELY FIXED.

NO zoom.
NO digital zoom.
NO pan.
NO tilt.
NO tracking.
NO push-in.
NO pull-back.
NO reframing.
NO rotation.
NO cuts.

Only the MODEL moves.

———————————————————

CRITICAL PRIORITY

1. FACE NEVER APPEARS — NOT EVEN PARTIALLY.
2. HEAD AND CHIN NEVER APPEAR.
3. STRICTLY NECK-DOWN FOR 100% OF THE VIDEO.
4. FIRST FRAME = PALM ALREADY COVERS 100% OF THE LENS.
5. SHE STARTS ALREADY NEXT TO THE CAMERA.

6. SHE REMOVES HER HAND AND WALKS BACKWARD.
7. SHE NEVER LEAVES THE FRAME.
8. NEVER SHOW BELOW THE THIGHS.
9. CAMERA NEVER MOVES.
10. BOTH HANDS GENTLY ADJUST THE BLOUSE.
11. SHE ROTATES ONLY APPROXIMATELY 45°.
12. SINGLE CONTINUOUS TAKE.

NEGATIVE PROMPT:

visible face, partial face, face reveal, facial features, visible head, visible chin, visible mouth, visible nose, visible eyes, side profile face, face reflection, head entering frame, chin entering frame, camera reframing upward, camera following face, full body, knees visible, lower legs visible, feet visible, model leaving frame, camera movement, zoom, pan, tilt, tracking, cuts, transitions, third hand, floating hand, detached hand, extra arms, extra fingers, garment deformation, changed clothing, changed color, body deformation, CGI, AI artifacts, text, subtitles, watermark.

Método gringo - Faceless shop

Create an ultra-realistic vertical 9:16 energetic UGC-style fashion product video using the provided reference image as the EXACT starting frame.

ABSOLUTE REFERENCE LOCK:

Keep the EXACT same model, clothing, visible body proportions, environment, lighting, reflections, perspective and overall appearance from the reference.

The garment is a LOCKED physical product.

Preserve EXACTLY its:
color, design, fabric, texture, fit, cut, seams, stitching, proportions, length, prints, graphics, logos, hardware and every visible detail.

NO garment replacement.
NO redesign.
NO color change.
NO wardrobe transformation.

————————————————————

STRICT NECK-DOWN LOCK

Show the model STRICTLY FROM THE NECK DOWN for the ENTIRE video.

Head, face, chin, mouth, eyes and facial features must remain completely outside the frame, including reflections.

Never reframe upward.

Any smile, eye contact or facial expression from the original sequence must instead be represented through confident, playful BODY LANGUAGE.

———————————————————

ABSOLUTE PHONE LOCK

The model holds the recording smartphone in ONE HAND throughout 100% of the video.

The SAME HAND holds the phone from FIRST FRAME to FINAL FRAME.

She NEVER releases it.
She NEVER switches hands.
She NEVER puts it down.
The phone NEVER disappears.

The OTHER hand is her ONLY FREE HAND.

ONLY this FREE HAND may touch, pull, smooth or adjust the garment and perform the final CTA.

———————————————————

ABSOLUTE ANATOMY / HAND CONTINUITY

There are ONLY TWO hands belonging to the model.

ONE = PHONE HAND.
ONE = FREE HAND.

NO third hand.
NO external hand.
NO floating hand.
NO detached hand.
NO duplicated hand or arm.

Whenever the FREE HAND interacts with the garment, it must remain visibly and anatomically connected:

SHOULDER → UPPER ARM → ELBOW → FOREARM → WRIST → HAND → FINGERS.

The hand must NEVER suddenly appear from outside the frame or behind the camera.

———————————————————

SEQUENCE

START — BACK VIEW

She begins with her BACK toward the camera, naturally presenting the rear fit of the garment.

She makes a quick, playful side-to-side weight shift.

Natural hip movement.
Natural fabric movement.
Energetic but realistic UGC behavior.

The phone remains firmly held in the SAME hand.

SIDE PROFILE

She quickly and smoothly rotates into a SIDE / THREE-QUARTER PROFILE.

Using ONLY her FREE HAND, she naturally places that hand near her waist.

The phone-holding arm follows her body movement naturally.

PRODUCT CLOSE-UP

She physically brings the smartphone closer toward the MAIN GARMENT AREA around the waist/torso.

NO digital zoom.

The push-in is created by the PHONE-HOLDING ARM physically moving the smartphone closer.

IMPORTANT:

Keep enough of the model's FREE ARM visible during the close-up so the hand interacting with the garment is CLEARLY connected to her own body.

Do NOT crop into an isolated fabric macro during the pulling action.

Show:
fabric texture,
material thickness,
fit,
seams,
stitching,
natural wrinkles and construction.

MANDATORY FABRIC STRETCH

Using HER OWN FREE HAND, visibly connected to HER OWN arm, she reaches naturally toward the waist/belly section of the garment.

The movement clearly begins from her shoulder and arm.

Her elbow bends naturally.

Her forearm, wrist and hand remain visibly connected throughout the action.

With the SAME FREE HAND, her thumb and fingers pinch a small section of the fabric.

She clearly PULLS THE FABRIC OUTWARD once, approximately 4–6 cm, demonstrating its stretch.

CRITICAL:

The viewer must clearly see that SHE HERSELF is pulling the fabric.

NO OTHER HAND may enter the frame.

The phone hand continues holding the smartphone and does NOT participate.

She holds the stretched fabric very briefly.

Then she COMPLETELY RELEASES it.

The fabric naturally and realistically returns to its EXACT original fit and shape.

No permanent deformation.

TEXTURE DEMONSTRATION

WITHOUT changing hands, the SAME FREE HAND opens naturally.

She lightly runs her palm across the garment once.

Her arm remains visibly connected to the hand.

Realistic palm-to-fabric contact.
Natural finger separation.
Subtle fabric compression.
Realistic wrinkles and recovery.

PULL BACK

The PHONE-HOLDING ARM physically moves the smartphone farther away.

Return smoothly to the original neck-down framing.

NO digital zoom.

———————————————————

SECOND ANGLE

She makes a quick energetic side-to-side body turn, briefly presenting another angle of the garment.

Natural movement.
No exaggerated hip motion.
No full 360° spin.

She then smoothly returns to a FRONTAL position.

———————————————————

FRONT FIT

Once frontal, she performs a small energetic modeling movement.

Because ONE HAND must continuously hold the phone, she adjusts the front garment using ONLY her FREE HAND.

She lightly smooths the waist/front section once.

DO NOT use both hands on the garment.

The phone remains in the SAME other hand.

Relaxed, confident neck-down body language.

———————————————————

FINAL CTA

Immediately afterward, she leans slightly closer.

Using ONLY her FREE HAND, she extends her index finger and clearly POINTS DOWNWARD toward the bottom center of the screen.

The gesture is energetic, confident and unmistakable.

She holds the downward point briefly through the FINAL FRAME.

The smartphone remains firmly held in the SAME other hand.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

CAMERA

Vertical 9:16.
Ultra-realistic premium smartphone UGC footage.

Camera movement must come ONLY from the physical movement of the phone-holding arm and model.

Natural handheld micro-shakes.
Realistic autofocus.
Natural exposure.
Realistic perspective.

NO floating camera.
NO automatic tracking.
NO artificial push-in.
NO digital zoom.
NO cuts.
NO scene changes.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

MOVEMENT STYLE

Fast, energetic TikTok Shop UGC.
Quick but realistic movements.
Playful product demonstration.
Natural body mechanics.
Realistic fabric physics.
Natural weight shifts.
Authentic smartphone recording.

No slow robotic movements.
No exaggerated modeling.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

AUDIO

COMPLETELY SILENT.

NO speech.
NO narration.
NO voiceover.
NO music.
NO lip-sync.

━━━━━━━━━━━━━━━━━━━━━━━━━━━━

CRITICAL PRIORITY

1. STRICTLY NECK-DOWN FOR 100% OF THE VIDEO.
2. SAME HAND HOLDS THE PHONE FROM FIRST TO FINAL FRAME.
3. PHONE IS NEVER RELEASED OR SWITCHED.
4. ONLY THE MODEL'S OWN FREE HAND TOUCHES THE GARMENT.
5. FREE HAND MUST REMAIN VISIBLY CONNECTED TO HER ARM.
6. NO THIRD OR EXTERNAL HAND.
7. CLOSE-UP MUST KEEP ENOUGH ARM VISIBLE TO PROVE HAND CONTINUITY.
8. FREE HAND PULLS WAIST FABRIC OUTWARD ONCE AND RELEASES IT.
9. GARMENT NATURALLY RETURNS TO ITS ORIGINAL SHAPE.
10. GARMENT REMAINS 100% IDENTICAL THROUGHOUT.
11. FINAL ACTION = FREE HAND POINTS CLEARLY DOWNWARD.

NEGATIVE PROMPT:

third hand, extra hand, external hand, mysterious hand, off-camera hand, detached hand, floating hand, duplicated hand, duplicated arm, extra arm, hand entering from frame edge, hand appearing behind camera, invisible arm, disconnected wrist, disconnected forearm, another person touching garment, camera operator hand, hand teleportation, phone hand touching garment, phone released, phone switching hands, phone disappearing, visible face, visible head, visible chin, face reflection, changed clothing, changed color, changed fabric, changed texture, changed seams, changed stitching, altered logo, altered print, clothing morphing, permanent stretching, fabric deformation, body deformation, extra fingers, missing fingers, robotic movement, floating camera, digital zoom, artificial tracking, CGI, AI artifacts, speech, audio, subtitles, text, watermark, social media interface.

Método gringo - faceless shop 2

💡

sempre a imagem do pescoço para baixo

ABSOLUTE HAND / ARM CONTINUITY LOCK

There are ONLY TWO hands belonging to the model in the entire video.

ONE hand is permanently occupied holding the smartphone.

The OTHER hand is the model's ONLY FREE HAND.

NO third hand.
NO external hand.
NO off-camera hand.
NO detached hand.
NO floating hand.

NO duplicated arm or hand.

Whenever the FREE HAND touches the garment, the viewer must clearly see that this hand is anatomically connected to the model's own arm.

The complete physical continuity must remain obvious:

MODEL'S SHOULDER
→ MODEL'S ARM
→ ELBOW
→ FOREARM
→ WRIST
→ FREE HAND
→ FINGERS
→ GARMENT.

The hand must NEVER suddenly appear from outside the frame.

BACK GARMENT INTERACTION

After the model turns to present the back of the garment, she uses HER OWN FREE ARM to reach naturally toward the back/side section of the clothing.

IMPORTANT:

The movement begins visibly from the model's own shoulder and arm.

Her FREE ARM naturally bends at the elbow and reaches backward.

Her forearm, wrist and hand remain physically and anatomically connected throughout the entire action.

Using HER OWN FREE HAND, she places her fingers directly onto the back/side fabric.

She first slowly smooths the fabric with her palm.

Then, WITHOUT removing or replacing that hand, the SAME FREE HAND changes grip naturally.

Her thumb and fingers pinch a small amount of the garment fabric.

She gently pulls the fabric outward approximately 2–4 cm.

The pulling direction must clearly originate from HER OWN connected arm and hand.

Hold very briefly.

Then HER SAME FREE HAND releases the fabric.

The material naturally returns to its original shape.

Her FREE ARM then naturally returns toward her side/waist.

CRITICAL VISUAL REQUIREMENT:

During the entire back-fabric demonstration, maintain enough framing to clearly show the model's FREE ARM connected to the hand performing the action.

DO NOT crop the arm in a way that makes the hand appear detached.

Do NOT use an extreme close-up that removes the visual connection between arm and hand.

Use a CLOSE PRODUCT SHOT, not an isolated macro shot.

The viewer must immediately understand that THE MODEL HERSELF is touching and pulling her own garment.

The smartphone remains firmly held in her OTHER hand throughout the entire action.

HAND IDENTITY LOCK

PHONE HAND:
Always holds the smartphone.
Never touches the garment.

FREE HAND:
Always belongs to the model.
Smooths the garment.
Pinches the garment.
Pulls the garment.
Releases the garment.
Performs the final downward CTA.

These roles NEVER switch.

At no point may an additional hand enter from the left edge, right edge, bottom edge, behind the model, behind the camera, or outside the visible body.

NEGATIVE PROMPT:

third hand, extra hand, external hand, mysterious hand, off-camera hand, detached hand, floating hand, duplicated hand, duplicated arm, extra arm, hand entering from edge of frame, hand appearing from behind camera, disconnected wrist, disconnected forearm, invisible arm controlling hand, another person touching garment, assistant hand, camera operator hand, hand teleportation, hand replacement, anatomically disconnected hand, phone hand touching garment, phone changing hands.

—----------
Método gringo - faceless shop 3
Create a vertical 9:16 hyper-realistic smartphone mirror video, continuing seamlessly from the exact end of Part 1.

ABSOLUTE REFERENCE LOCK:

Preserve the exact same model, visible body proportions, hairstyle, hair color, skin tone, outfit, accessories, environment, lighting, reflections, perspective and composition from the reference.

The outfit is a LOCKED physical product.

Do NOT modify, replace, recolor, reshape, tighten, loosen, shorten, lengthen or restyle any garment.

Preserve EXACTLY:
color, print, fabric, texture, stitching, seams, folds, cut, proportions, fit, straps, waistband, hardware, graphics, logos and every visible detail.

STRICT NECK-DOWN FRAMING

The model must remain STRICTLY FROM THE NECK DOWN throughout the ENTIRE video.

The head, face, chin, mouth, eyes and all facial features remain completely outside the frame.

Never reveal the face, including in the mirror reflection.

Do NOT reframe upward at any moment.

ABSOLUTE PHONE LOCK

The model continuously holds the recording smartphone in ONE HAND.

The SAME HAND holds the phone from the FIRST FRAME until the FINAL FRAME.

She NEVER releases it.
She NEVER switches hands.
She NEVER puts it down.
The phone NEVER disappears.

The OTHER hand is the FREE HAND.

ONLY the FREE HAND interacts with the outfit and performs the final CTA.

CONTINUATION

Begin from the exact closer mirror position where Part 1 ended.

No reset in body position.
No sudden repositioning.
No continuity error.

She naturally rotates her body LESS THAN 45 DEGREES into a subtle three-quarter angle, partially revealing the side and rear fit of the outfit.

NO full turn.
NO 360° rotation.

The phone-holding arm naturally follows her body orientation while continuing to record.

The FREE HAND remains relaxed near her side.

Natural breathing.
Subtle weight movement.
Relaxed shoulders.

SIDE / REAR PRESENTATION

She settles naturally into the three-quarter position.

Using ONLY her FREE HAND, she lightly touches and smoothly runs her hand across the side/rear section of the outfit near the hip or waist.

The gesture is practical and subtle, as if naturally checking how the garment fits.

Her fingers remain relaxed and anatomically correct.

Realistic contact between hand and fabric.

No exaggerated posing.

No exaggerated hip movement.

The garment reacts naturally with tiny folds, compression and realistic fabric tension.

FIT CHECK

She gently shifts her weight onto one leg.

Using her FREE HAND, she briefly smooths the garment around the waist, hip or another appropriate existing section.

She then naturally places her FREE HAND on her waist.

The phone remains firmly held in the SAME other hand.

Her posture feels relaxed and slightly imperfect, like an authentic home mirror recording.

Natural body sway.
Natural breathing.
Tiny posture adjustments.

RETURN TOWARD FRONT

She slowly rotates slightly more toward the mirror while remaining within a frontal/three-quarter orientation.

She NEVER completes a full rotation.

The phone-holding arm moves naturally with her body.

The camera maintains authentic handheld micro-shakes caused by her arm and body movement.

STRICTLY neck-down throughout.

FINAL CTA

Using ONLY her FREE HAND, she naturally extends her index finger and gives ONE quick, clear POINT DOWNWARD toward the bottom center of the screen.

The gesture feels casual and spontaneous, not exaggerated.

She briefly holds the downward point.

Then she relaxes her FREE HAND naturally toward her waist and settles into a comfortable final posture.

The smartphone remains firmly held in the SAME HAND through the FINAL FRAME.

CAMERA BEHAVIOR

Authentic handheld smartphone mirror recording.

Vertical 9:16.

The recording perspective follows ONLY the natural movement of the phone-holding hand and body.

Subtle realistic micro-shakes.
Natural autofocus.
Natural exposure.
Natural perspective changes.

NO artificial camera tracking.
NO floating camera.
NO digital zoom.
NO cuts.
NO transitions.

REALISM

Ultra-photorealistic smartphone footage.
Natural human movement.
Realistic breathing.
Natural skin texture.
Accurate hand anatomy.
Exactly five fingers per hand.
Realistic fabric gravity.
Realistic wrinkles.
Natural fabric compression and recovery.
Authentic home mirror-video behavior.

NO beauty filters.
NO skin smoothing.
NO artificial perfection.

AUDIO

COMPLETELY SILENT.

NO speech.
NO dialogue.
NO narration.
NO voiceover.
NO lip-sync.
NO music.

CRITICAL PRIORITY

1. STRICTLY NECK-DOWN FOR 100% OF THE VIDEO.
2. PHONE REMAINS IN THE SAME HAND FROM FIRST TO FINAL FRAME.
3. NEVER RELEASE OR SWITCH THE PHONE.
4. ONLY THE FREE HAND INTERACTS WITH THE OUTFIT.
5. OUTFIT REMAINS 100% IDENTICAL TO THE REFERENCE.
6. NO COLOR, DESIGN, FIT OR TEXTURE CHANGES.
7. BODY ROTATION ALWAYS REMAINS UNDER 45 DEGREES.
8. NO 360° TURN.
9. FINAL ACTION = FREE HAND POINTS CLEARLY DOWNWARD.

10. PRESERVE PERFECT CONTINUITY WITH THE END OF PART 1.

NEGATIVE PROMPT:

visible face, visible head, visible chin, face in reflection, accidental face reveal, upward framing, phone released, phone switching hands, phone disappearing, phone put down, both hands touching garment, full rotation, 360 turn, rotation over 45 degrees, changed outfit, changed color, changed print, changed fabric, changed texture, changed stitching, changed fit, changed proportions, clothing morphing, fabric clipping, excessive stretching, object deformation, floating objects, extra fingers, missing fingers, deformed hands, body deformation, robotic movement, artificial camera tracking, floating camera, digital zoom, camera cuts, transitions, CGI, AI artifacts, beauty filter, skin smoothing, speech, lip-sync, text, subtitles, watermark.

Método gringo - Facelass shop

UNIFIED 10-SECOND UGC FASHION PROMPT
10 SCENES | PHONE LOCK | STRICT NECK-DOWN | OUTFIT LOCK

Create a 10-second ultra-realistic vertical 9:16 UGC fashion video using the provided First Frame as the ONLY visual source of truth.

TOTAL DURATION: exactly 10 seconds.
STRUCTURE: exactly 10 sequential scenes of approximately 1 second each.

Use energetic HARD CUTS / JUMP CUTS between scenes.

———————————————

GLOBAL REFERENCE LOCK

Preserve the EXACT same model, visible body proportions, outfit, accessories, environment, lighting and visual identity from the First Frame throughout the entire video.

The outfit must remain 100% IDENTICAL from first frame to final frame.

Preserve EXACTLY:

- **color**
- **cut**
- **fabric**
- **texture**
- **stitching**
- **seams**
- **construction**
- **fit**
- **proportions**
- **length**
- **waistband**
- **straps**
- **pockets**
- **buttons**
- **zippers**
- **hardware**
- **prints**
- **graphics**
- **branding**
- **logos**
- **every visible detail**

NO garment changes.
NO color changes.
NO redesign.
NO wardrobe transformation.

STRICT NECK-DOWN LOCK

Show the model STRICTLY FROM THE NECK DOWN in ALL 10 scenes.

The head, face, chin, mouth, eyes and all facial features remain completely OUTSIDE the frame.

Never reveal the face, even partially.

Never reframe upward.

Any original facial expression, eye contact, smile, nod or head movement must be communicated instead through confident neck-down body language, posture, shoulders and hand gestures.

ABSOLUTE PHONE LOCK

The model holds the smartphone in ONE HAND throughout ALL 10 scenes.

The SAME HAND holds the phone from Scene 1 through Scene 10.

NEVER releases it.
NEVER switches hands.
NEVER puts it down.
The phone NEVER disappears.

The OTHER hand is the FREE HAND.

ONLY the FREE HAND may:

touch the garment,
pull the fabric,
pinch the fabric,
smooth the garment,
rest on the waist,
demonstrate elasticity,
or perform the final CTA.

The phone-holding hand NEVER interacts with the clothing.

SCENE 1 — 0.0–1.0s
INTRODUCTION

The model stands naturally in a frontal position.

The phone remains firmly held in the SAME hand.

The FREE HAND rests confidently on the waist.

Relaxed shoulders.
Subtle weight shift.
Natural breathing.

Purpose: establish the complete outfit and fit.

HARD CUT.

SCENE 2 — 1.0–2.0s
LOWER HEM

Neutral frontal stance.

Using ONLY the FREE HAND, the model gently grips the bottom hem of the upper garment.

She pulls it slightly downward approximately 2–4 cm.

Hold briefly, then release.

The fabric naturally returns to its original position.

Purpose: demonstrate length and fit.

HARD CUT.

SCENE 3 — 2.0–3.0s
SIDE ELASTICITY

Using ONLY the FREE HAND, she pinches the garment at one side of the waist.

She gently pulls the fabric horizontally outward approximately 3–5 cm.

She releases it naturally.

The material immediately returns to its original shape.

Purpose: demonstrate flexibility and fabric recovery.

HARD CUT.

SCENE 4 — 3.0–4.0s
FRONT FABRIC RECOVERY

Using ONLY her FREE HAND, she pinches an appropriate section of the front garment.

She gently pulls the fabric forward from the body.

Small controlled movement.

She releases it and the fabric naturally returns to its exact original position.

Purpose: demonstrate fabric structure and recovery.

HARD CUT.

SCENE 5 — 4.0–5.0s
TEXTURE

Using her FREE HAND, she slowly runs her palm across the lower front section of the garment.

Her palm remains physically in contact with the fabric.

Natural finger movement.
Realistic fabric compression.
Subtle wrinkles react to her touch.

Purpose: demonstrate texture and material quality.

HARD CUT.

SCENE 6 — 5.0–6.0s
MOVEMENT FIT

The model subtly changes posture to demonstrate how the outfit fits during natural movement.

The phone remains firmly held in the SAME hand.

She bends her FREE ARM naturally at approximately 90 degrees and briefly creates a confident athletic pose.

Natural shoulder and torso tension.

No exaggerated bodybuilding pose.

Purpose: demonstrate garment fit during movement.

JUMP CUT.

SCENE 7 — 6.0–7.0s
3/4 FIT + STRETCH

The model rotates her torso only approximately 15–20 degrees into a subtle 3/4 angle.

NO complete body rotation.

Using ONLY the FREE HAND, she grips an appropriate side section of the garment and gently pulls it outward.

Small controlled stretch.

Then releases it.

The garment returns naturally to its original shape.

Purpose: show side fit and elasticity.

HARD CUT.

SCENE 8 — 7.0–8.0s
WAIST DETAIL

She returns to a frontal position.

Using ONLY the FREE HAND, she gently pinches another existing section near the waist or lower garment area.

She pulls it slightly outward and releases.

If that area is not appropriate for stretching, she simply smooths the fabric instead.

DO NOT invent garment features.

Purpose: provide one final material/fit demonstration.

JUMP CUT.

SCENE 9 — 8.0–9.0s
CTA PREPARATION

The model adopts a confident frontal stance.

The smartphone remains in the SAME hand.

Her FREE HAND briefly rests on her waist.

She then raises her FREE index finger slightly as a visual attention gesture, but keeps it STRICTLY below neck level.

Subtle forward body lean.

Purpose: clearly prepare the viewer for the final CTA.

HARD CUT.

SCENE 10 — 9.0–10.0s
FINAL DOWNWARD CTA

The model physically leans slightly closer toward the camera.

STRICTLY neck-down.

Using ONLY her FREE HAND, she immediately extends her index finger and POINTS CLEARLY AND FIRMLY DOWNWARD toward the bottom center of the frame.

The gesture clearly indicates the product link/cart below.

She holds the downward point through the FINAL FRAME.

The smartphone remains firmly held in the SAME other hand.

Confident relaxed posture.

END.

EDITING

Exactly 10 scenes.
Approximately 1 second each.
Total duration: 10 seconds.

ONLY direct HARD CUTS and fast JUMP CUTS.

NO fades.
NO dissolves.
NO opacity transitions.
NO zoom transitions.
NO cinematic transition effects.
NO morph transitions.

NO transition motion blur.

Maintain perfect visual continuity between cuts.

OUTFIT PHYSICS

The outfit is a LOCKED physical product.

Pulling, pinching or smoothing the fabric must NEVER permanently modify the garment.

After every interaction, the fabric naturally returns to its original appearance.

Maintain realistic:

fabric tension,
elastic recovery,
material thickness,
gravity,
wrinkles,
seam behavior,
body contact,
shadows.

CRITICAL PRIORITY

1. SAME PHONE HAND FOR ALL 10 SCENES.
2. NEVER RELEASE OR SWITCH THE PHONE.
3. STRICTLY NECK-DOWN IN EVERY FRAME.
4. ONLY THE FREE HAND INTERACTS WITH THE GARMENT.
5. EXACT SAME GARMENT THROUGHOUT ALL 10 SCENES.
6. ZERO COLOR CHANGES.
7. ZERO DESIGN CHANGES.
8. ZERO WARDROBE TRANSFORMATIONS.
9. ONLY THE MODEL'S POSES AND MOVEMENTS CHANGE.
10. SCENE 10 MUST END WITH THE FREE INDEX FINGER POINTING DOWNWARD.

NEGATIVE PROMPT

visible face, visible head, visible chin, partial face, accidental face reveal, phone released, phone switching hands, phone disappearing, phone put down, both hands touching garment, changed garment, changed color, changed fabric, changed texture, changed stitching, changed seams, altered logo, altered print, altered fit, altered proportions, invented garment details, garment replacement, wardrobe transformation, clothing morphing, permanent fabric deformation, full body rotation, 360 turn, exaggerated posing, robotic movement, body deformation, extra fingers, deformed hands, floating camera, CGI, plastic skin, AI artifacts, fade, dissolve, zoom transition, text, subtitles, watermark.

—----------

Método gringo - faceless shop 5
Create an ultra-realistic vertical 9:16 UGC product-detail fashion video using the provided reference image as the ONLY visual source of truth.

The purpose of the video is to showcase the PREMIUM QUALITY and construction of the garment through progressively closer views.

ABSOLUTE REFERENCE LOCK:

Preserve the EXACT garment from the reference image throughout the entire video.

DO NOT modify, redesign, improve or reinterpret anything.

Preserve EXACTLY:

- **color**
- **fabric**
- **texture**
- **cut**
- **shape**
- **fit**

• proportions
• length
• stitching
• seams
• finishing
• construction
• thickness
• straps
• waistband
• pockets
• buttons
• zippers
• hardware
• prints
• graphics
• logos
• labels
• every visible product detail

Never invent a detail that does not exist in the reference.

STRICT NECK-DOWN FRAMING

Show the model STRICTLY FROM THE NECK DOWN throughout the ENTIRE video.

Head, face and chin remain completely outside the frame.

Never reveal the face, even during close-ups or changes in framing.

ABSOLUTE PHONE LOCK

The model continuously holds the recording smartphone in ONE HAND.

The SAME HAND holds the phone from the FIRST FRAME until the FINAL FRAME.

She NEVER releases it.

She NEVER switches hands.
She NEVER puts it down.
The phone NEVER disappears.

The OTHER hand is the FREE HAND.

ONLY the FREE HAND may touch, smooth, pinch or demonstrate the garment.

START — COMPLETE PRODUCT VIEW

Begin with a natural medium neck-down shot showing the garment clearly on the model.

She maintains a relaxed posture with subtle natural breathing and a small weight shift.

The FREE HAND rests naturally near the waist.

Allow the viewer to clearly understand the complete design and fit before showing details.

PROGRESSIVE PRODUCT CLOSE-UP

The model physically brings the recording phone closer to the garment.

NO digital zoom.

The framing progressively becomes tighter:

MEDIUM PRODUCT VIEW
→ CLOSE-UP
→ MACRO DETAIL
→ EXTREME MACRO DETAIL.

The phone-holding hand physically controls these changes in distance and angle.

Natural handheld micro-movement.

FABRIC TEXTURE

Create an extreme close-up of the REAL fabric.

Show authentic material depth, density, weave or knit structure, subtle wrinkles and natural surface texture.

Using ONLY her FREE HAND, she gently smooths the fabric.

Her fingers physically interact with the material, creating realistic compression, tension and small wrinkles.

STITCHING + SEAMS

Move naturally to an extreme close-up of an EXISTING seam or stitched section.

Show realistic thread, stitch spacing, seam construction, fabric layers and subtle shadows between materials.

The FREE HAND gently touches the area to emphasize construction quality.

Do not create decorative stitching that is not present in the reference.

MATERIAL THICKNESS

Using her FREE HAND, she gently pinches an appropriate existing section of fabric and pulls it only slightly outward.

Show realistic material thickness, structure, flexibility and fabric density.

The material bends naturally between her fingers.

She releases it and the garment naturally returns to its original position.

Do NOT excessively stretch or deform the garment.

PRINT / LOGO / GRAPHIC DETAIL

IF the reference garment contains a visible print, logo, embroidery, graphic or label:

Move the camera physically closer to that EXACT existing detail.

Show its authentic texture, edges, integration with the fabric and construction.

The FREE HAND may gently pass beside the detail without covering it.

CRITICAL:

Reproduce the graphic/logo EXACTLY as shown in the reference.

DO NOT modify text.
DO NOT redesign logos.
DO NOT invent graphics.

If the garment has NO print, logo or graphic, SKIP this action and show another REAL construction detail instead.

FINISHING + CONSTRUCTION

Show another close-up of an EXISTING finishing detail such as:

hem, edge, waistband, strap, zipper, button, pocket, seam, hardware or fabric junction.

ONLY show features that actually exist in the reference.

The FREE HAND gently traces beside the detail.

Realistic finger contact.

Realistic fabric compression.
Natural material response.

FINAL PRODUCT VIEW + CTA

The model physically moves the smartphone slightly farther away again.

Return to a wider neck-down view of the garment.

She naturally smooths the garment once with her FREE HAND.

She pauses briefly to clearly show the complete product.

Then, using ONLY her FREE HAND, she extends her index finger and clearly POINTS DOWNWARD toward the bottom center of the frame.

Hold the downward CTA briefly until the final frame.

The smartphone remains firmly held in the SAME HAND.

CAMERA & FOCUS

Authentic handheld smartphone product photography.

Vertical 9:16.

Use realistic optical close-up behavior and shallow depth of field during detail shots.

Natural progressive focus transitions:

fabric surface in focus → seam in focus → construction detail in focus → complete garment in focus.

Realistic autofocus breathing.

NO artificial floating camera.
NO impossible macro movement.

NO digital zoom.

All framing changes are physically motivated by the smartphone moving closer to or farther from the garment.

LIGHTING

Premium but realistic UGC lighting.

Soft natural window light combined with subtle soft interior/studio illumination.

Lighting reveals:

fabric texture,
material density,
thread structure,
seam depth,
subtle wrinkles,
natural highlights,
realistic shadows,
three-dimensional construction.

Do NOT change the garment color.

Maintain accurate color reproduction throughout.

STYLE

Ultra-realistic.
Premium UGC fashion advertisement.
TikTok Shop product showcase.
Authentic smartphone footage.
Photorealistic 4K detail.
Realistic fabric physics.
Realistic human anatomy.
Natural skin texture.
Premium e-commerce presentation.

The product itself is always the visual priority.

CRITICAL PRIORITY

1. PHONE REMAINS IN THE SAME HAND FOR 100% OF THE VIDEO.
2. PHONE IS NEVER RELEASED OR SWITCHED.
3. FACE AND HEAD NEVER ENTER THE FRAME.
4. ONLY THE FREE HAND INTERACTS WITH THE GARMENT.
5. GARMENT REMAINS 100% IDENTICAL TO THE REFERENCE.
6. NO COLOR CHANGE.
7. NO DESIGN CHANGE.
8. CLOSE-UPS MUST SHOW ONLY DETAILS THAT ACTUALLY EXIST.
9. NEVER INVENT LOGOS, PRINTS, STITCHING OR CONSTRUCTION.
10. FINAL ACTION = FREE HAND POINTS DOWNWARD.

NEGATIVE PROMPT:

phone released, phone switching hands, phone disappearing, visible face, visible head, visible chin, partial face, accidental face reveal, garment redesign, changed color, changed fabric, altered texture, altered stitching, invented stitching, fake seams, invented logo, altered logo, invented print, altered print, invented hardware, changed fit, changed proportions, excessive fabric stretching, fabric deformation, floating camera, impossible camera movement, digital zoom, unrealistic macro, CGI fabric, plastic skin, body deformation, extra fingers, deformed hands, AI artifacts, text, subtitles, watermark.

—----------

Método gringo Faceless shop 6
Create a complete 8-second ultra-realistic vertical 9:16 UGC fashion video structured as a storyboard of EXACTLY 8 sequential scenes, approximately 1 second each.

The 8 scenes must tell ONE continuous fashion showcase story from beginning to end, finishing with a clear downward CTA.

REFERENCE IMAGE = ONLY SOURCE OF TRUTH.

Preserve exactly the same model, visible body proportions, outfit, environment, lighting and every visible detail.

GLOBAL RULES — APPLY TO ALL 8 SCENES

STRICTLY NECK-DOWN:

The model is shown STRICTLY FROM THE NECK DOWN in EVERY scene.

Head, face, chin, mouth, eyes and all facial features remain completely outside the frame from first to final frame.

Never reveal the face, even partially.

ABSOLUTE PHONE LOCK:

The model holds the smartphone in ONE HAND throughout ALL 8 scenes.

SAME HAND from Scene 1 through Scene 8.

She NEVER releases it.
She NEVER switches hands.
She NEVER puts it down.
The phone NEVER disappears.

The OTHER hand is the FREE HAND.

ONLY the FREE HAND touches the outfit, adjusts fabric, demonstrates details and performs the final CTA.

OUTFIT LOCK:

The outfit must remain 100% IDENTICAL to the reference in ALL 8 scenes.

Preserve EXACTLY:
color, design, cut, length, fabric, texture, stitching, seams, hardware, buckles, zippers, buttons, straps, waistband, pockets, prints, logos, accessories, fit and proportions.

NO color changes.
NO wardrobe transformation.
NO added or removed details.

If it is a single-piece garment, showcase the entire garment.

If it contains multiple pieces and no specific focus is provided, showcase the complete look naturally and evenly.

CONTINUITY:

Same model.
Same outfit.
Same environment.
Same lighting.
Same body proportions.

No 360° turn.
No complete body rotation.

Only frontal and subtle 3/4 body angles are allowed.

Each scene uses a HARD CUT.

NO fades.
NO dissolves.
NO opacity transitions.
NO zoom transitions.
NO cinematic transition effects.
NO transition motion blur.

SCENE 1 — 0:00–0:01
INTRODUCTION

Same neck-down framing.

The model stands naturally facing the camera.

Relaxed shoulders, subtle weight resting on one leg, natural breathing.

The smartphone is firmly held in ONE hand.

Her FREE HAND rests naturally near her waist.

Purpose: clearly establish the complete outfit.

HARD CUT.

SCENE 2 — 0:01–0:02
FABRIC DETAIL

Same framing and perspective.

Using ONLY her FREE HAND, she gently pinches an appropriate section of the garment and pulls it slightly outward.

Only 2–4 cm.

This naturally demonstrates fabric thickness, flexibility and construction.

She releases it naturally.

Purpose: demonstrate the material without deforming the garment.

HARD CUT.

SCENE 3 — 0:02–0:03
FIT

Same framing.

She uses her FREE HAND to slowly smooth the garment across the waist, hip or appropriate central section.

Her palm physically follows the fabric.

Tiny natural finger movement.

Purpose: highlight how the garment fits the body.

HARD CUT.

SCENE 4 — 0:03–0:04
3/4 VIEW

Same camera perspective.

She subtly rotates her BODY approximately 30–40 degrees into a 3/4 angle.

NO full rotation.

The phone remains firmly in the SAME hand.

Her FREE HAND rests naturally at her waist or upper hip.

Purpose: reveal the garment silhouette from another angle.

HARD CUT.

SCENE 5 — 0:04–0:05
SIDE/REAR DETAIL

Same framing.

Without turning fully around, she slightly increases the 3/4 angle just enough to reveal more of the side and partial rear fit.

Using ONLY her FREE HAND, she briefly smooths the side or rear section of the garment.

No exaggerated hip movement.

Purpose: show additional garment construction and fit while maintaining a mostly camera-facing orientation.

HARD CUT.

SCENE 6 — 0:05–0:06
PRODUCT DETAIL

Same framing.

She returns naturally toward a frontal position.

Using her FREE HAND, she briefly touches or highlights ONE real existing garment feature visible in the reference.

For example: waistband, strap, seam, zipper, button, pocket, edge or fabric panel.

ONLY interact with a feature that ACTUALLY EXISTS in the reference.

DO NOT invent garment details.

Purpose: provide a close visual product demonstration.

HARD CUT.

SCENE 7 — 0:06–0:07
APPROACH

The model physically moves closer to the camera.

The camera does NOT digitally zoom.

She takes one short natural step forward and slightly leans toward the lens.

The outfit naturally occupies more of the frame.

Her FREE HAND briefly smooths the garment one final time.

The phone remains firmly held in the SAME hand.

The neck and face remain completely outside the frame.

Purpose: build visual emphasis immediately before the CTA.

HARD CUT.

SCENE 8 — 0:07–0:08
FINAL CTA

The model remains physically closer to the camera.

She slightly leans forward while maintaining natural posture.

Using ONLY her FREE HAND, she extends her index finger and POINTS CLEARLY AND FIRMLY DOWNWARD toward the bottom center of the frame.

The gesture clearly indicates the product link/cart below.

She holds the downward point until the final frame.

The smartphone remains firmly in the SAME other hand.

Confident body language.

STRICTLY neck-down.

End naturally.

CAMERA & REALISM

Vertical 9:16.
Ultra-realistic UGC.
Authentic smartphone recording.
Consistent framing.
Natural human anatomy.
Natural body movement.
Tiny unconscious micro-movements.
Natural breathing.
Realistic skin texture.
Realistic fabric tension.
Realistic folds and gravity.
Natural lighting.
Photorealistic 4K detail.

No artificial camera tracking.
No digital zoom.
No cinematic camera movement.

AUDIO

COMPLETELY SILENT.

NO speech.
NO dialogue.
NO narration.
NO voiceover.
NO music.

CRITICAL PRIORITY

1. EXACTLY 8 scenes, approximately 1 second each.
2. ONLY hard cuts between scenes.
3. STRICTLY neck-down in ALL 8 scenes.
4. PHONE REMAINS IN THE SAME HAND THROUGH ALL 8 SCENES.
5. NEVER release, switch or put down the phone.
6. ONLY the FREE HAND interacts with the outfit.

7. EXACT same outfit in every scene.
8. NO color or garment changes.
9. NO 360° rotation.
10. Every scene uses a DIFFERENT garment-showcase movement.
11. Scene 8 MUST end with the FREE HAND pointing clearly DOWNWARD.

NEGATIVE PROMPT:

visible face, visible head, visible chin, partial face, accidental face reveal, phone released, phone changing hands, phone disappearing, phone put down, both hands touching garment, changed outfit, changed color, changed fabric, changed design, changed logo, changed hardware, invented garment details, missing details, 360-degree turn, full body rotation, repeated movements, exaggerated posing, exaggerated hip movement, garment deformation, body deformation, extra fingers, deformed hands, robotic movement, floating camera, artificial tracking, digital zoom, fade, dissolve, opacity transition, zoom transition, transition motion blur, CGI, plastic skin, AI artifacts, speech, lip-sync, text, subtitles, watermark.

—----------

Método gringo Faceless shop 7
Create an ultra-realistic vertical 9:16 UGC fashion showcase video using the provided reference image as the ONLY visual source of truth.

ABSOLUTE REFERENCE LOCK:

Preserve exactly the model, visible body proportions, outfit, environment, lighting, colors, fabric, texture, stitching, seams, fit, design, prints, logos, accessories and every visible detail.

DO NOT modify the garment in any way.

ABSOLUTE NECK-DOWN FRAMING:

Show the model STRICTLY FROM THE NECK DOWN throughout the ENTIRE video.

The head, face and chin must remain completely outside the frame at all times, including when she approaches the camera and during the 360° turn.

ABSOLUTE PHONE LOCK:

The model holds the smartphone in ONE HAND throughout 100% of the video.

She NEVER releases the phone.
She NEVER switches hands.
She NEVER puts the phone down.
The phone NEVER disappears.

The SAME hand holds the smartphone from the FIRST FRAME until the FINAL FRAME.

She is continuously recording herself.

The OTHER hand is the FREE HAND.

ONLY the FREE HAND may touch the garment, rest on the waist, pull the strap and perform the final downward CTA.

MOVEMENT:

The model begins naturally standing a short distance away.

She walks slowly toward the camera with 2–3 natural steps.

She comes VERY CLOSE to the camera to show the garment in detail.

The garment occupies most of the frame while her face remains completely outside the frame.

She pauses close to the camera.

Using ONLY her FREE HAND, she slowly smooths the garment, clearly showing the fabric texture, stitching, seams, construction and fit.

The phone remains firmly held in the SAME other hand.

WAIST POSE:

She naturally places her FREE HAND on her waist.

She holds this pose briefly with a subtle weight shift and natural breathing.

The smartphone remains continuously held in the SAME hand.

360° TURN:

She takes a small step backward to create enough space.

Keeping the smartphone firmly in the SAME hand, she performs ONE smooth complete 360-degree rotation:

FRONT
→ SIDE
→ BACK
→ OPPOSITE SIDE
→ FRONT.

Her phone-holding arm naturally rotates together with her body.

The phone NEVER leaves her hand.

The FREE HAND may remain naturally on her waist during the rotation.

The turn is smooth, relaxed and continuous.

No runway walk.
No exaggerated hip movement.
No stopping halfway.
Exactly ONE complete 360° rotation.

The garment remains perfectly consistent throughout the rotation with realistic fabric movement, gravity, folds and tension.

STRAP DETAIL:

After completing the full rotation, she faces forward again and moves slightly closer.

IF the reference garment has a visible strap:

Using ONLY her FREE HAND, she gently grips the EXISTING strap.

She pulls the strap slightly outward approximately 2–4 cm to demonstrate its elasticity and construction.

She holds it briefly.

Then she naturally RELEASES the strap.

The strap returns smoothly to its original position with realistic fabric tension.

The garment must NOT deform or change.

If the garment does NOT have a strap, DO NOT invent one. Instead, she gently pinches and releases an appropriate existing edge of the garment.

Throughout this entire action, the smartphone remains firmly held in the SAME other hand.

FINAL CTA:

After releasing the strap, she takes a small natural step backward.

Using ONLY her FREE HAND, she clearly extends her index finger and POINTS DOWNWARD toward the bottom center of the screen.

She holds the downward pointing gesture briefly.

The OTHER HAND continues holding the smartphone.

She finishes with a subtle weight shift and relaxed confident posture.

The smartphone remains in the SAME HAND until the FINAL FRAME.

STRICTLY neck-down until the video ends.

CAMERA BEHAVIOR:

The video has an authentic handheld smartphone UGC appearance.

Because the model is physically holding the recording smartphone, camera movement must naturally correspond to the movement of her PHONE-HOLDING ARM and body.

Natural handheld micro-shake.
Natural perspective changes.
Realistic autofocus.
Natural exposure.

NO artificial tracking.
NO floating camera.
NO digital zoom.
NO cuts.
NO scene changes.

GARMENT LOCK:

The garment remains IDENTICAL to the reference throughout the entire video.

Preserve EXACTLY:

- **color**
- **design**
- **cut**
- **fabric**
- **texture**
- **stitching**
- **seams**
- **prints**

• graphics
• logos
• straps
• waistband
• pockets
• length
• proportions
• fit
• every visible detail

DO NOT redesign the garment.
DO NOT change its color.
DO NOT add or remove details.

CRITICAL PRIORITY:

1. SMARTPHONE REMAINS IN THE SAME HAND FOR 100% OF THE VIDEO.
2. NEVER RELEASE THE PHONE.
3. NEVER SWITCH THE PHONE TO THE OTHER HAND.
4. ONLY THE FREE HAND INTERACTS WITH THE GARMENT.
5. FACE AND HEAD NEVER ENTER THE FRAME.
6. MODEL APPROACHES VERY CLOSE TO SHOW GARMENT DETAILS.
7. FREE HAND GOES TO WAIST.
8. MODEL COMPLETES ONE FULL 360° TURN.
9. FREE HAND PULLS AND RELEASES THE EXISTING STRAP.
10. FREE HAND POINTS DOWNWARD AT THE END.
11. GARMENT NEVER CHANGES.

STYLE:

Ultra-realistic UGC.
Vertical 9:16.
Authentic smartphone recording.
Natural human movement.
Realistic anatomy.
Natural body language.
Realistic skin texture.
Realistic fabric physics.
Natural lighting.

Photorealistic 4K detail.

NEGATIVE PROMPT:

phone released, phone changing hands, phone disappearing, phone put down, both hands touching garment, visible face, visible head, visible chin, partial face, accidental face reveal, garment redesign, changed color, changed fabric, changed logo, invented strap, missing strap, altered fit, excessive stretching, fabric deformation, incomplete 360 turn, multiple spins, exaggerated hip movement, robotic movement, floating camera, automatic tracking, CGI, plastic skin, AI artifacts, digital zoom, cuts, transitions, text, subtitles, watermark.

Método gringo TRANSIÇÃO Faceless shop
💡
sempre no angulo de foto do pescoço para baixo ja com a peça de referencia que ela vai fazer a transição nas maos

VIDEO PROMPT — ULTRA REALISTIC | CLOTHING TRANSITION | STRICT NECK-DOWN | NO PHONE | 9:16

Create a hyper-realistic vertical 9:16 UGC fashion transformation video using the provided reference image as the absolute visual source.

Preserve exactly the same visible model, body proportions, clothing pieces, environment, lighting, colors, fabric, texture, stitching, design and every visible detail.

ABSOLUTE NECK-DOWN FRAMING:

Show the model STRICTLY FROM THE NECK DOWN throughout the ENTIRE video.

The head, face, chin and all facial features must remain completely OUTSIDE the frame.

Never reveal the face before, during or after the transition.

NO PHONE:

The model does NOT hold a smartphone.

No phone is visible anywhere in the scene.

Both hands are completely free to interact with the clothing.

START:

The model stands naturally approximately two meters away from the camera.

Relaxed posture.

Natural breathing.

Subtle weight shift.

Natural body micro-movements.

She holds TWO matching clothing pieces:

ONE clothing piece in her LEFT hand.

ONE clothing piece in her RIGHT hand.

She gently grips each piece by its upper corners.

Both garments hang naturally with realistic fabric weight, wrinkles and gravity.

She subtly raises both pieces approximately 5–10 cm, naturally presenting them to the camera.

APPROACH:

She begins walking naturally toward the camera with approximately three short relaxed steps.

Both arms remain naturally positioned while holding the garments.

The clothing swings gently with each step.

Realistic fabric gravity.

Natural wrinkles.

Natural cloth movement.

As she approaches, she gradually raises BOTH clothing pieces higher.

The garments progressively occupy more of the frame.

TRANSITION — CRITICAL:

She simultaneously extends BOTH arms toward the camera.

The two clothing pieces move directly toward the lens TOGETHER.

The garments progressively fill the frame:

50% → 75% → 90% → 100%.

BOTH pieces reach the lens and physically cover the camera view.

CRITICAL:

THE CLOTHING MUST COVER 100% OF THE ENTIRE FRAME.

No body visible.

No background visible.

No gaps around the fabric.

Only the physical clothing fabric is visible.

NO digital transition.

NO fade.

NO flash.

NO visual effects.

MANDATORY WARDROBE TRANSFORMATION:

AT THE EXACT MOMENT THE CLOTHING COVERS 100% OF THE CAMERA LENS:

Perform an INSTANT hidden wardrobe transformation.

The EXACT TWO clothing pieces previously held in her hands are now worn naturally on her body as the COMPLETE OUTFIT.

THE CLOTHING TRANSFORMATION IS MANDATORY.

The sequence must be:

MODEL HOLDING BOTH PIECES

→ walks toward camera

→ raises both garments

→ BOTH garments physically cover 100% of lens

→ INSTANT HIDDEN WARDROBE CHANGE

→ fabric moves away

→ MODEL IS ALREADY WEARING BOTH PIECES AS THE COMPLETE OUTFIT.

After the reveal, her hands are EMPTY because the clothing pieces are now being worn.

Do NOT leave clothing in her hands.

Do NOT duplicate the garments.

Do NOT create additional clothing.

NO visible morphing.

NO gradual dressing.

NO floating clothes.

NO clothing flying onto the body.

NO transformation before full lens coverage.

REVEAL:

When the fabric clears the lens, the model is already wearing the COMPLETE outfit.

Both pieces must be correctly worn in their intended positions.

The final clothing must be an EXACT visual reproduction of the pieces shown before the transition.

Preserve exactly:

• colors

• design

• fabric

• texture

• stitching

• seams

• prints

• graphics

• logos

• waistband

• straps

• pockets

• hems

• length

• proportions

• construction

• every visible detail

Only adapt the fit naturally to the model's body.

OUTFIT PRESENTATION:

After the reveal, she takes one small natural step toward the camera.

Using one hand, she smoothly runs her palm across the garment around the waist or appropriate section.

Using the other hand, she makes a small natural adjustment to another section of the outfit.

She subtly shifts her weight between her legs.

Natural body sway.

Natural breathing.

Realistic fabric movement.

ENDING — CTA:

She takes one small natural step backward.

She places ONE hand naturally on her waist.

With the OTHER hand, she clearly extends her index finger and POINTS DOWNWARD toward the bottom center of the screen.

The CTA gesture is clear, confident and natural.

She holds the downward pointing gesture briefly.

She finishes in a relaxed fashion pose.

STRICTLY NECK-DOWN until the final frame.

CAMERA:

Vertical 9:16.

Stationary camera.

Authentic smartphone-video appearance.

Realistic autofocus.

Natural exposure.

Realistic lighting.

Natural perspective.

No digital zoom.

No cuts.

No camera movement.

No transitions except the physical fabric-cover wardrobe transition.

REALISM:

Ultra-realistic human movement.

Natural walking.

Realistic hand anatomy.

Natural body weight.

Realistic fabric physics.

Natural gravity.

Realistic folds and wrinkles.

Natural imperfect human timing.

Photorealistic 4K appearance.

CRITICAL PRIORITY:

1. NO PHONE.

2. FACE AND HEAD NEVER ENTER THE FRAME.

3. ONE CLOTHING PIECE IN EACH HAND BEFORE TRANSITION.

4. BOTH PIECES MOVE TOWARD THE CAMERA TOGETHER.

5. FABRIC COVERS 100% OF THE LENS.

6. WARDROBE CHANGE HAPPENS ONLY WHILE THE LENS IS COMPLETELY COVERED.

7. AFTER REVEAL, BOTH PIECES MUST BE WORN BY THE MODEL.

8. HER HANDS MUST BE EMPTY AFTER THE TRANSITION.

9. FINAL OUTFIT MUST EXACTLY MATCH THE ORIGINAL PIECES.

NEGATIVE PROMPT:

phone, smartphone in hand, visible face, partial face, visible head, visible chin, accidental face reveal, upward framing, incomplete lens coverage, failed wardrobe transformation, clothing remaining in hands after transition, duplicate clothing, extra garments, incomplete outfit, mixed outfits, transformation before full lens coverage, visible morphing, gradual dressing, floating clothes, flying clothes, altered garment, changed color, changed design, changed logo, changed print, body deformation, extra fingers, deformed hands, robotic movement, CGI appearance, AI artifacts, digital transition, fade, flash transition, digital zoom, text, subtitles, watermark.

Método gringo TRANSIÇÃO Faceless shop 2
💡
sempre no angulo do pescoço para baixo (adicione a roupa que você quer que faça a transição na manequim)

VIDEO PROMPT — ULTRA REALISTIC | MANNEQUIN OUTFIT DUPLICATION | HAND-COVER TRANSITION | STRICT NECK-DOWN | 9:16 | 10 SECONDS | SILENT

Create a 10-second ultra-realistic vertical 9:16 continuous UGC fashion transformation video using the provided reference image as the ONLY source of truth.

This prompt must work with ANY model, ANY mannequin, ANY outfit and ANY environment.

REFERENCE LOCK:
Preserve exactly the visible model, mannequin, mannequin outfit, initial model outfit, environment, lighting, camera perspective, body proportions, colors, textures, accessories and every visible detail from the reference.

Do not redesign or reinterpret anything.

ABSOLUTE NECK-DOWN FRAMING

Show the model STRICTLY FROM THE NECK DOWN throughout the ENTIRE video.

The head, face, chin, mouth, nose, eyes and all facial features must remain completely OUTSIDE the frame.

Never reveal the face, even partially or in reflections.

During approaching, transition and stepping backward, continuously maintain framing below the neck.

ABSOLUTE PHONE LOCK

The model holds the recording smartphone in ONE HAND throughout the ENTIRE video.

She NEVER releases the phone.
She NEVER switches hands.
She NEVER puts the phone down.

The SAME hand remains occupied holding the smartphone from the first frame until the final frame.

The OTHER hand is the FREE HAND.

ONLY the FREE HAND points, covers the lens and interacts with the clothing.

[0–2 SECONDS — MANNEQUIN PRESENTATION]

The model begins naturally standing beside the mannequin.

The mannequin is already wearing the complete target outfit.

The model subtly turns her upper body toward the mannequin.

Using ONLY her FREE HAND, she naturally points toward the outfit displayed on the mannequin.

The gesture clearly indicates that THIS EXACT OUTFIT is the target clothing.

The phone remains firmly held in the SAME hand.

[2–4 SECONDS — APPROACH + HAND COVER]

She turns slightly toward the mirror/camera and naturally walks closer.

The phone remains continuously held in the SAME hand.

As she approaches, she raises ONLY her FREE HAND directly toward the smartphone camera lens.

Her palm progressively becomes larger in the frame:

hand approaches → palm fills most of frame → palm physically covers 100% OF THE CAMERA VIEW.

CRITICAL:

Her FREE HAND must completely cover the ENTIRE lens.

100% frame coverage.

NO visible body.
NO mannequin.
NO clothing.
NO background.
NO gaps around the hand.

For a brief moment, the entire frame is physically blocked by her palm.

[4 SECONDS — MANDATORY HIDDEN OUTFIT DUPLICATION]

AT THE EXACT MOMENT THE FREE HAND COVERS 100% OF THE LENS:

Perform an INSTANT hidden wardrobe transformation.

COPY the complete outfit currently displayed on the mannequin and visually DUPLICATE that exact outfit onto the model.

CRITICAL:

DO NOT TRANSFER THE PHYSICAL OUTFIT FROM THE MANNEQUIN.

DO NOT REMOVE THE OUTFIT FROM THE MANNEQUIN.

DO NOT MAKE THE MANNEQUIN'S CLOTHING DISAPPEAR.

THE MANNEQUIN MUST REMAIN FULLY DRESSED IN ITS ORIGINAL OUTFIT.

The transition creates an IDENTICAL VISUAL DUPLICATE of the mannequin outfit on the model.

After the transformation:

MODEL = wearing an identical duplicate of the mannequin outfit.

MANNEQUIN = STILL wearing the original exact outfit.

BOTH MUST HAVE THE SAME OUTFIT SIMULTANEOUSLY.

The model's initial clothing must be completely replaced by the duplicated target outfit.

The complete target outfit must appear on the model.

If the mannequin outfit contains multiple pieces, EVERY piece must be duplicated simultaneously.

NO partial transformation.
NO missing pieces.
NO mixing initial and final clothing.

[4–6 SECONDS — REVEAL]

The wardrobe duplication happens ONLY while the camera is 100% covered.

NO visible morphing.
NO gradual clothing change.
NO clothes flying through the scene.
NO clothing moving from mannequin to model.
NO magical visual effects.

The exact sequence MUST be:

MODEL IN ORIGINAL OUTFIT
→ free hand covers 100% of lens
→ COMPLETE HIDDEN OUTFIT DUPLICATION
→ free hand moves away
→ MODEL IS ALREADY WEARING THE COMPLETE DUPLICATED OUTFIT
→ MANNEQUIN STILL WEARS THE ORIGINAL OUTFIT.

As her free hand moves away from the lens, the transformation is already completely finished.

She naturally takes a few steps backward.

The framing remains STRICTLY below the neck.

[6–10 SECONDS — MATCHING OUTFIT PRESENTATION]

The model naturally returns beside the mannequin.

The mannequin remains completely stationary.

The model uses her FREE HAND to briefly smooth or touch the duplicated outfit, naturally presenting its fabric, fit and details.

She makes a subtle weight shift and relaxed fashion pose beside the mannequin.

The final composition must CLEARLY show:

MODEL wearing the duplicated outfit
+
MANNEQUIN still wearing the original identical outfit.

Both matching outfits must be clearly visible simultaneously.

The model's phone remains in the SAME hand until the final frame.

ABSOLUTE MANNEQUIN LOCK

The mannequin is completely LOCKED throughout the video.

Its position NEVER changes.

Its clothing NEVER changes.

Its clothing NEVER disappears.

Its clothing NEVER moves onto the model.

Preserve exactly the mannequin's outfit:

- **design**
- **colors**
- **fabric**
- **texture**
- **pattern**
- **stitching**

• seams
• graphics
• logos
• accessories
• proportions
• length
• every visible detail

The mannequin must remain wearing its COMPLETE ORIGINAL OUTFIT from the first frame through the final frame.

DUPLICATED OUTFIT LOCK

The outfit appearing on the model after the transition must be a faithful visual duplicate of the mannequin's outfit.

Same design.
Same colors.
Same fabric.
Same texture.
Same pattern.
Same stitching.
Same construction.
Same accessories.
Same graphics.
Same logos.
Same visible details.

Only adapt the physical fit naturally to the model's existing body proportions.

Do NOT redesign the outfit.

CAMERA

Vertical 9:16.
Authentic smartphone UGC footage.
Single continuous take.

Natural handheld micro-movement caused by the phone-holding hand.
Realistic autofocus.
Natural exposure.
Realistic lighting.
No digital zoom.
No cuts.
No scene changes.

The phone remains in the SAME HAND throughout.

The FREE HAND performs the lens-cover transition.

STRICT neck-down framing throughout.

AUDIO

COMPLETELY SILENT.

NO speech.
NO dialogue.
NO narration.
NO voiceover.
NO music.
NO lip-sync.

CRITICAL PRIORITY

1. PHONE NEVER LEAVES THE SAME HAND.
2. FACE AND HEAD NEVER ENTER THE FRAME.
3. FREE HAND COVERS 100% OF THE CAMERA LENS.
4. OUTFIT DUPLICATION HAPPENS ONLY DURING COMPLETE LENS COVERAGE.
5. MODEL MUST EMERGE WEARING THE COMPLETE MANNEQUIN OUTFIT.
6. MANNEQUIN MUST KEEP ITS ORIGINAL OUTFIT.
7. BOTH WEAR IDENTICAL OUTFITS AFTER THE TRANSITION.
8. FINAL FRAME MUST CLEARLY SHOW MODEL + MANNEQUIN TOGETHER WEARING THE MATCHING OUTFITS.

NEGATIVE PROMPT:

visible face, partial face, visible head, visible chin, face reflection, accidental face reveal, phone released, phone changing hands, phone disappearing, incomplete lens coverage, transformation before full lens coverage, failed wardrobe change, model keeping original outfit, partial outfit duplication, missing clothing pieces, mixed outfits, mannequin becoming undressed, mannequin clothing disappearing, clothing physically transferring from mannequin to model, altered mannequin outfit, altered duplicated outfit, visible morphing, gradual transformation, floating clothes, flying clothes, teleportation, changed environment, extra objects, body deformation, extra fingers, deformed hands, AI artifacts, CGI appearance, digital zoom, cuts, transitions, text, subtitles, watermark.

Método gringo TRANSIÇÃO - Faceless shop 3

💡
use sempre a foto da modelo no angulo um pescoço para baixo + a foto das cores da peça de referencia

VIDEO PROMPT — ULTRA REALISTIC | COLOR CHANGE | STRICT NECK-DOWN | FITNESS FASHION | 9:16 | PORTUGUESE VOICEOVER

Create an ultra-realistic vertical 9:16 TikTok Shop UGC fashion video using the provided reference images as the ONLY source of truth.

ABSOLUTE GARMENT LOCK:

Preserve the EXACT garment throughout the entire video.

The ONLY element allowed to change is the GARMENT COLOR, following EXACTLY the provided color references.

DO NOT change:
• design
• cut
• shape
• fabric
• fabric texture

• stitching
• seams
• waistband
• pockets
• straps
• neckline
• length
• proportions
• fit
• logos
• graphics
• labels
• construction
• any product detail

Every color version must look like THE EXACT SAME PHYSICAL GARMENT in a different referenced color.

Never invent colors.
Use ONLY colors clearly shown in the provided references.

ABSOLUTE NECK-DOWN FRAMING:

Show the model STRICTLY FROM THE NECK DOWN during the ENTIRE video.

The head, face, chin, mouth, nose, eyes and all facial features remain completely OUTSIDE the frame.

NEVER reveal the face, even partially.

PHONE LOCK:

The model continuously holds the smartphone in ONE HAND throughout the ENTIRE video.

She NEVER releases it.
She NEVER switches hands.
She NEVER puts it down.

The phone remains in the SAME hand from the first frame until the final frame.

The other hand is the FREE HAND and performs all garment interactions.

MOVEMENT:

The model naturally presents the fitness outfit with authentic TikTok Shop UGC body movements.

She performs subtle weight shifts, small natural steps, gentle hip and leg movements and relaxed body rotations.

Using ONLY her FREE HAND, she naturally runs her hand across the garment, briefly touches the waistband and smooths the fabric to demonstrate its fit, texture and construction.

The smartphone remains continuously held in the SAME hand.

COLOR TRANSITIONS:

As the model naturally moves, the garment changes through the EXACT referenced colors ONE BY ONE.

Each color change must be quick, clean and visually clear.

COLOR 1 → COLOR 2 → COLOR 3 → COLOR 4, continuing only for the number of colors actually provided in the references.

CRITICAL:

ONLY THE COLOR CHANGES.

During every transition, the garment's geometry and construction remain completely locked.

The waistband stays identical.
The seams stay identical.
The stitching stays identical.
The logo stays identical.
The fabric texture stays identical.
The fit stays identical.
The garment length stays identical.
Every detail remains in exactly the same position.

The model's body, proportions, skin tone, accessories and environment also remain unchanged.

There must be ZERO garment morphing between colors.

MOVEMENT DURING COLOR CHANGES:

Synchronize each color change with a small natural body movement, such as:

subtle weight shift → color change

small hip rotation → color change

free hand smoothly passing across garment → color change

small natural step → color change

The transitions feel dynamic and engaging while preserving realistic continuous human movement.

FINAL:

After the final referenced color appears, she briefly runs her FREE HAND across the garment.

She takes one subtle step backward and naturally places her free hand near the waist.

She then clearly POINTS DOWNWARD toward the bottom of the screen with her FREE index finger, naturally indicating the TikTok Shop product link/cart below.

The smartphone remains in the SAME hand.

Hold the final CTA pose briefly.

CAMERA:

Authentic smartphone UGC footage.
Vertical 9:16.
Strictly neck-down framing.
Natural handheld micro-movement.
Realistic autofocus.
Natural exposure.
Realistic lighting and shadows.
Realistic fabric physics.
No digital zoom.
No cuts.
No scene changes.
No artificial camera movement.

PORTUGUESE FEMALE VOICEOVER:

Use a natural, confident adult female Brazilian Portuguese voice.

Say exactly:

“Não usa esse conjunto se você não quer que perguntem se você usou anabolizante para ficar com essa bunda GG. Além de modelar o corpo, vai te deixar uma grande gostosa. Confere no carrinho.”

The voice is voiceover only.

The model's face remains outside the frame throughout the entire video.

No visible lip-sync is required.

VISUAL STYLE:

Ultra-realistic.
Authentic TikTok Shop UGC.
Premium fitness fashion presentation.
Real smartphone appearance.
Highly detailed fabric.
Realistic body movement.
Realistic garment physics.
Natural lighting.
No AI-generated appearance.

NEGATIVE PROMPT:

visible face, visible head, visible chin, partial face, accidental face reveal, camera framing above neck, phone released, phone changing hands, phone disappearing, both hands interacting with garment, garment redesign, garment shape change, changed stitching, changed seams, changed waistband, changed logo, changed print, changed fit, changed length, changed fabric texture, invented colors, wrong colors, mixed colors, gradient color transition, garment morphing, clothing transformation, body morphing, environment change, extra fingers, deformed hands, unrealistic anatomy, floating fabric, CGI appearance, AI artifacts, digital zoom, cuts, scene transitions, subtitles, text, watermark.

—----------

Método gringo - Faceless shop 4

💡
deixe sempre do angulo do pescoço para baixo

VIDEO PROMPT — ULTRA REALISTIC | MIRROR SELFIE | STRICT NECK-DOWN | GARMENT DETAIL | 9:16

Create an ultra-realistic vertical 9:16 mirror-selfie UGC fashion video using the provided reference image as the ONLY visual source.

REFERENCE LOCK:
Preserve exactly the same visible model, body proportions, garment, accessories, environment, lighting, reflections, colors, fabric, texture, stitching, seams, fit, silhouette, length and every visible detail.

Do not redesign, reinterpret or modify the garment.

ABSOLUTE NECK-DOWN FRAMING:
The model must remain STRICTLY framed FROM THE NECK DOWN throughout the ENTIRE video.

The head, face, chin, mouth, nose, eyes and all facial features must remain completely OUTSIDE the top edge of the frame.

The face must NEVER appear, even partially or in the mirror reflection.

This applies during every step, close-up, turn and final pose.

PHONE LOCK:
The smartphone remains in the SAME HAND throughout the entire video.

She NEVER releases it.
She NEVER switches hands.
She NEVER puts it down.

The other hand is the FREE HAND used for all garment interactions.

START:
Begin from the same body position and orientation as the reference, but maintain STRICT neck-down framing.

She stands naturally in front of the mirror while continuously holding the smartphone in one hand.

Natural breathing, relaxed shoulders and subtle body micro-movements.

APPROACH:
After a brief pause, she calmly walks toward the mirror with three to four slow, natural steps.

As she approaches, the hand holding the phone naturally moves higher and closer to the mirror to show the garment details.

The framing becomes progressively tighter ONLY through her physical movement and phone positioning.

NO digital zoom.

CRITICAL:
As she approaches, the camera remains aimed BELOW THE NECK.

The camera must NEVER continue upward toward the face.

CLOSE-UP:
Once close to the mirror, create a tight garment close-up centered on the UPPER SECTION OF THE CLOTHING while still remaining strictly below the neck.

Show the neckline, straps, upper construction, seams, texture, print, embroidery or other existing details when applicable.

NEVER invent details that are not present.

She makes subtle shoulder and upper-body movements so the fabric naturally catches the light.

Clearly showcase the fabric texture, weave, finish, construction and fit.

The garment remains completely unchanged.

STEP BACK:
She naturally lowers the phone-holding arm slightly while taking two slow steps backward.

The framing smoothly widens through physical movement only.

The phone remains in the SAME hand.

The face remains outside the frame.

SIDE PRESENTATION:
She gently rotates approximately 40 degrees toward one side.

The phone-holding arm naturally follows her body rotation, maintaining realistic handheld selfie camera physics.

Using ONLY her FREE HAND, she reaches toward the lower side of the garment.

If the garment has loose or flowing fabric, she gently lifts a SMALL section and gives it ONE soft natural sway to demonstrate its drape and weight.

If the garment is fitted or has no loose section, she instead gently moves her free hand across the lower fabric without lifting it.

The fabric responds naturally to gravity and settles back into its original position.

THREE-QUARTER POSE:
She releases the fabric and naturally settles into an elegant three-quarter pose.

Using her FREE HAND, she performs one smooth natural gesture across the shoulder, strap or upper side of the garment, keeping the hand and entire action below the neck.

Do not raise the hand toward the face or hair.

FINAL CTA:
After a brief pause, she naturally extends the index finger of her FREE HAND and clearly POINTS DOWNWARD toward the bottom center of the frame.

The gesture is relaxed, subtle and authentic, like indicating a product link below the video.

She holds the downward pointing gesture for approximately three seconds.

The smartphone remains in the SAME hand throughout.

The garment remains clearly visible.

The face and head remain completely outside the frame until the final frame.

CAMERA PHYSICS:
Authentic handheld smartphone mirror-selfie recording.

Every framing change comes from the physical movement of the model and the arm holding the phone.

Subtle natural micro-shake.
Smooth autofocus.
Natural exposure.
Realistic mirror reflections.
Natural smartphone perspective.

NO digital zoom.
NO lens switching.
NO cuts.
NO transitions.
NO floating camera.
NO automatic tracking.
NO robotic camera movement.

MOTION:
Natural breathing.
Relaxed shoulders.
Realistic body micro-adjustments.
Subtle hip movement.
Smooth weight transitions.
Natural imperfect human timing.

No dancing.
No runway walking.
No exaggerated posing.
No robotic movement.

FABRIC PHYSICS:
Realistic weight, gravity, folds, tension, drape and secondary movement.

No floating fabric.
No exaggerated stretching.
No clothing transformation.
No permanent deformation.

CRITICAL RULES:
STRICTLY NECK-DOWN DURING THE ENTIRE VIDEO.
FACE NEVER APPEARS.
HEAD NEVER APPEARS.
NO FACE IN MIRROR REFLECTION.
PHONE ALWAYS REMAINS IN THE SAME HAND.
NEVER RELEASE OR SWITCH THE PHONE.
ONLY THE FREE HAND INTERACTS WITH THE GARMENT.
PRESERVE THE EXACT ORIGINAL GARMENT.

NO dialogue.
NO narration.
NO music.
NO lip-sync.
NO text.
NO subtitles.
NO watermark.

NEGATIVE:
visible face, partial face, visible head, visible chin, facial reflection, accidental face reveal, camera framing above neck, camera tilting toward face, phone changing hands, phone released, phone disappearing, both hands touching garment, altered garment, changed color, changed print, changed logo, invented garment details, exaggerated fabric lifting, floating fabric, clothing morphing, body deformation, extra fingers, distorted hands, fixed camera, floating camera, automatic tracking, digital zoom, lens switching, cuts, transitions, flickering, exposure shifts, AI artifacts, CGI appearance.

—----------

Método gringo - Faceless Shop 6
VIDEO PROMPT — ULTRA REALISTIC | MIRROR SELFIE | STRICT NECK-DOWN | GARMENT SHOWCASE | 9:16 | 10 SECONDS

Create an ultra-realistic 10-second vertical 9:16 mirror-selfie UGC fashion video using the uploaded reference image as the ONLY source of truth.

Preserve exactly the same visible model, body proportions, garment, colors, fabric, texture, stitching, seams, fit, silhouette, waistband, pockets, prints, logos, accessories, environment and lighting.

Do not redesign, modify or reinterpret the garment.

ABSOLUTE NECK-DOWN FRAMING:

The model must be shown STRICTLY FROM THE NECK DOWN during the ENTIRE 10-second video.

The head, face, chin, mouth and all facial features must remain completely OUTSIDE the top edge of the frame.

The face must NEVER appear, not even partially or in the mirror reflection.

During steps, approaches, turns and body movements, continuously maintain the framing below the neck.

Never tilt upward toward the face.

PHONE LOCK:

The model holds the smartphone in ONE HAND throughout the ENTIRE video.

The phone ALWAYS remains in the SAME hand.

She NEVER releases it.
She NEVER switches hands.
She NEVER puts it down.

All interactions with the garment are performed ONLY with the FREE HAND.

FRAME 1 — 0–2.5s

The model stands naturally facing the mirror, strictly framed from the neck down.

One hand continuously holds the smartphone.

Her FREE HAND rests naturally inside the garment pocket, if a pocket is present.

If the garment has no pocket, the free hand rests naturally beside the hip.

She gently shifts her weight from one leg to the other.

She naturally crosses one leg slightly in front of the other.

The garment softly sways with realistic gravity and natural fabric physics.

The phone remains firmly in the SAME hand.

FRAME 2 — 2.5–5s

She slowly takes a few natural steps toward the mirror.

The framing naturally becomes closer ONLY because her body and the phone physically move closer to the mirror.

NO digital zoom.

IMPORTANT:
As she approaches, the camera remains aimed at the CLOTHING and strictly below the neck.

The face must NEVER enter the frame.

Using ONLY her FREE HAND, she gently slides her hand across the waistband and upper hip area of the garment.

She lightly touches the waistband or corresponding upper section of the garment, naturally emphasizing its fit and construction.

She briefly pauses while keeping the clothing clearly visible.

FRAME 3 — 5–7.5s

She slowly rotates her body approximately 30 degrees toward one side.

The hand and arm HOLDING THE PHONE naturally move together with her body rotation, maintaining a physically realistic mirror-selfie perspective.

The camera must NOT remain artificially fixed while she turns.

Using ONLY her FREE HAND, she naturally slides her hand from the waist toward the upper thigh.

The angled side view naturally highlights the garment's silhouette, fit and construction.

The fabric forms soft realistic folds and responds naturally to the body movement.

The face and head remain completely outside the frame throughout the rotation.

FRAME 4 — 7.5–10s

She smoothly rotates back to face the mirror.

The phone-holding arm naturally returns together with her body.

She takes ONE small natural step backward.

Her FREE HAND returns inside the pocket, if the garment has one.

If no pocket exists, the hand rests naturally beside the hip.

She subtly shifts her weight once more.

The fabric gently settles under its own weight with realistic cloth physics.

She finishes in a relaxed natural influencer-style pose and remains still for the final moment.

CAMERA PHYSICS

Authentic handheld smartphone mirror-selfie recording.

The phone is physically held by the model throughout the entire take.

Every camera movement must result naturally from the movement of the hand, arm and body holding the phone.

Natural handheld micro-shake.
Small realistic framing corrections.
Smooth autofocus.
Natural exposure.
Realistic mirror reflections.
Authentic smartphone perspective.

NO digital zoom.
NO fixed floating camera.
NO automatic tracking.
NO robotic camera.
NO cuts.
NO transitions.

CRITICAL RULES

STRICTLY NECK-DOWN FOR ALL 10 SECONDS.

FACE NEVER APPEARS.

HEAD NEVER APPEARS.

NO FACIAL REFLECTION.

PHONE ALWAYS REMAINS IN THE SAME HAND.

NEVER RELEASE OR SWITCH THE PHONE.

ONLY THE FREE HAND INTERACTS WITH THE GARMENT.

PRESERVE THE EXACT ORIGINAL GARMENT.

NO invented pockets or garment details.

NEGATIVE PROMPT

visible face, partial face, visible head, visible chin, visible mouth, facial features, accidental face reveal, face in mirror reflection, camera tilting upward, framing above neck, phone changing hands, phone released, phone disappearing, both hands touching garment, invented pocket, invented garment details, altered clothing, changed colors, changed prints, changed logos, stretched fabric, deformed fabric, unrealistic anatomy, extra fingers, deformed hands, floating camera, fixed camera, automatic tracking, robotic movement, digital zoom, cuts, transitions, AI artifacts, CGI appearance, text, subtitles, watermark.

—----------

Método gringo - Faceless shop 8
VIDEO PROMPT — ULTRA REALISTIC | MIRROR SELFIE | STRICT NECK-DOWN | GARMENT SHOWCASE | 9:16 | 4K | NO NARRATION

Create an ultra-realistic vertical 9:16 mirror-selfie UGC fashion video.

The uploaded reference image is the ONLY source of truth.

Authentic modern smartphone footage.
Natural TikTok / Reels UGC aesthetic.
No artificial, cinematic or AI-generated appearance.

ABSOLUTE GARMENT LOCK

The garment must remain EXACTLY identical throughout the entire video.

Preserve exactly:
• colors
• fabric
• texture
• finish
• stitching
• seams
• fit
• proportions
• silhouette
• length
• waistband
• drawstrings
• zippers
• pockets
• side details
• cuffs
• hems
• logos
• prints
• embroidery
• graphics
• labels
• accessories
• every visible product detail

Do not redesign, reinterpret, replace or modify the garment.

ABSOLUTE NECK-DOWN FRAMING

THE MODEL MUST BE SHOWN STRICTLY FROM THE NECK DOWN DURING THE ENTIRE VIDEO.

The head and face must remain completely OUTSIDE the top edge of the frame at ALL TIMES.

Never show:
• head
• chin
• mouth
• nose
• cheeks
• eyes
• any facial feature
• face in reflections

The face must NOT simply be covered or obscured.
THE FACE MUST PHYSICALLY REMAIN OUTSIDE THE VIDEO FRAME.

This rule applies during EVERY movement, including walking closer, stepping backward, touching the garment and changing body position.

If the model moves closer to the mirror, the framing must naturally remain BELOW THE NECK.

NEVER tilt or raise the camera enough to reveal the face.

PHONE LOCK

The model holds the smartphone in ONE HAND throughout the ENTIRE video.

The smartphone ALWAYS remains in the SAME hand.

She NEVER releases it.
She NEVER switches hands.
She NEVER places it down.

The other hand remains the FREE HAND and performs all garment interactions.

MODEL & ENVIRONMENT LOCK

Preserve the same visible model, body proportions, skin tone, accessories and overall appearance from the reference.

Preserve exactly the original environment, lighting, furniture, objects, decorations, perspective, camera angle and shadows.

OPENING

The model begins naturally standing in front of the mirror.

The framing starts STRICTLY FROM THE NECK DOWN.

One hand continuously holds the smartphone.

The free hand rests naturally beside the body or near the garment.

Autofocus naturally locks onto the clothing.

MOVEMENT 1 — NATURAL PRESENTATION

She naturally presents the outfit with:

- **subtle weight shift**
- **relaxed posture**
- **slight leg movement**
- **gentle body sway**
- **natural fabric movement**

The phone remains in the SAME hand.

The face remains completely outside the frame.

MOVEMENT 2 — GARMENT DETAILS

She slowly takes a few natural steps toward the mirror.

As she approaches, the smartphone naturally moves closer with her body, creating an authentic handheld push-in.

IMPORTANT:
Even while approaching the mirror, the camera remains aimed at the GARMENT and strictly below the neck.

DO NOT allow the face or head to enter the frame.

Using ONLY her FREE HAND, she gently touches the garment and naturally highlights its construction and finishing without deforming it.

MOVEMENT 3 — FABRIC SHOWCASE

Using the FREE HAND, she slowly glides her hand across the garment.

The movement naturally highlights:

- **texture**
- **drape**
- **construction**
- **craftsmanship**
- **natural fit**

The garment reacts with completely realistic fabric physics.

MOVEMENT 4 — NATURAL FABRIC MOTION

She takes one or two small natural steps while continuously holding the smartphone in the SAME hand.

She subtly shifts her weight between both legs.

The garment moves naturally with realistic folds, draping and material behavior.

MOVEMENT 5 — FIT DEMONSTRATION

Using ONLY the FREE HAND, she gently pinches one small appropriate section of the garment.

She pulls the fabric outward only a few centimeters to demonstrate its natural flexibility.

She briefly holds it and releases.

The garment immediately returns to its exact original shape.

No distortion.
No exaggerated stretching.

FINAL

She takes one small natural step backward.

The smartphone remains firmly in the SAME hand.

The framing naturally widens while remaining STRICTLY BELOW THE NECK.

She subtly shifts her weight and returns to a relaxed pose.

The garment remains clearly visible.

She holds the final position for approximately one second.

CAMERA

Authentic handheld mirror-selfie smartphone recording.

• subtle handheld micro-shake
• natural hand imperfections
• smooth autofocus
• realistic mirror reflections
• natural exposure
• realistic smartphone HDR
• natural push-in created by physical movement
• no digital zoom
• no cuts
• no transitions

The camera NEVER reframes upward toward the face.

The top edge of the video must continuously remain below the model's face.

HUMAN MOVEMENT

• natural breathing
• subtle posture changes
• realistic hand movements
• relaxed stance
• authentic influencer behavior
• natural imperfect timing
• no dancing
• no exaggerated posing
• no robotic movement

CRITICAL RULES

STRICTLY NECK-DOWN FOR THE ENTIRE VIDEO.

FACE NEVER ENTERS THE FRAME.

HEAD NEVER ENTERS THE FRAME.

PHONE ALWAYS REMAINS IN THE SAME HAND.

NEVER RELEASE OR SWITCH THE PHONE.

ONLY THE FREE HAND INTERACTS WITH THE GARMENT.

ALL ORIGINAL GARMENT DETAILS REMAIN UNCHANGED.

———————————————————————

NEGATIVE PROMPT

visible face, visible head, visible chin, visible mouth, facial features, partial face, accidental face reveal, face reflection, camera tilting upward, framing above neck, phone changing hands, phone released, phone placed down, phone disappearing, both hands interacting with garment, extra fingers, missing fingers, deformed hands, unrealistic anatomy, stretched garment, melted fabric, altered garment details, modified colors, modified logos, modified prints, invented details, missing details, AI artifacts, CGI appearance, unrealistic reflections, abrupt movements, digital zoom, cuts, transitions, text, subtitles, watermark.

—----------

Método gringo - faceless shop 9
Create an ultra-realistic vertical 9:16 UGC fashion video that looks genuinely recorded with the FRONT-FACING CAMERA of an iPhone 15 Pro Max.

The uploaded reference image is the ONLY source of truth.

REFERENCE LOCK:
Preserve exactly the same person, visible body proportions, clothing, accessories, environment, lighting, colors, fabric, fit, texture, seams, prints, logos and every visible garment detail.

Do not redesign, replace or modify anything.

ABSOLUTE FRAMING:
The person records herself continuously while holding the iPhone in ONE HAND.

The recording phone ALWAYS stays in the SAME hand.
She NEVER releases it and NEVER switches hands.

The phone itself NEVER appears inside the recorded frame.

Show the person STRICTLY FROM THE NECK DOWN.
The face, head and facial features NEVER enter the frame.

All clothing interaction is performed ONLY with the FREE HAND.

CAMERA POSITION:
The phone is physically held by the person slightly above her body and naturally angled downward toward the outfit.

The camera is NOT fixed and NOT externally operated.

Every camera movement MUST be physically caused by the natural movement of the hand and arm holding the iPhone.

MOVEMENT 1 — FRONT:
She begins naturally showing the FRONT of the outfit.

The handheld framing has subtle realistic micro-shake and small imperfect adjustments caused by her arm.

MOVEMENT 2 — TURN:
She naturally rotates her body toward one side.

She does NOT turn completely backward.

At the same time, the arm holding the iPhone physically rotates WITH her body.

The camera viewpoint therefore naturally follows the turn while continuously keeping the garment framed.

This must look exactly like someone filming herself with a front-facing smartphone camera while turning her body.

No floating camera.
No automatic tracking.

MOVEMENT 3 — SIDE / BACK DETAIL:
She turns only enough to naturally reveal the SIDE and visible REAR portion of the garment without fully presenting her back to the camera.

While holding this angled position, she uses her FREE HAND to smoothly run her hand ONCE across the rear/side fabric.

The gesture naturally demonstrates the garment's fabric, details, fit and drape.

Do not invent garment details that are not present in the reference.

MOVEMENT 4 — RETURN FRONT:
She naturally rotates back toward the original front-facing position.

The hand and arm holding the phone rotate back together with her body, causing the camera viewpoint to naturally return to the front.

MOVEMENT 5 — FRONT DETAIL:
Once facing forward again, she uses her FREE HAND to smoothly run her hand ONCE across the front fabric.

She then makes ONE small, natural adjustment to the lower section of the garment.

The adjustment must be subtle and appropriate for whatever garment is present.

The clothing immediately maintains its original shape and fit.

MOVEMENT STYLE:
Continuous, quick and natural real-time movements.
Authentic everyday UGC behavior.

Natural body rotation.
Natural arm movement.
Subtle body sway.
Realistic breathing.
Small handheld imperfections.

NO slow motion.
NO exaggerated posing.
NO robotic movement.

CRITICAL CAMERA PHYSICS:
The camera MUST behave like a real iPhone physically held in the person's hand.

When her body turns, her phone-holding arm turns with her and the camera perspective changes accordingly.

When she returns to the front, the camera naturally returns with her arm.

The camera must NEVER remain stationary while the body rotates.

NEVER simulate a tripod, ceiling camera, floating camera, drone, gimbal, external operator or automatic subject tracking.

CAMERA:
iPhone 15 Pro Max front-facing camera look.
Authentic smartphone UGC quality.
Natural autofocus.
Natural exposure.
Realistic smartphone HDR.
Natural handheld micro-shake.
Small framing imperfections.
No digital zoom.
One continuous take.

ABSOLUTE RULES:
Phone ALWAYS in the SAME hand.
Phone NEVER visible in the footage.
Only the FREE HAND interacts with the garment.
Face and head NEVER visible.

Never turn completely backward.
Preserve the exact garment.
Preserve the original environment.

NO dialogue.
NO narration.
NO audio.
NO music.
NO lip sync.
NO cuts.
NO transitions.
NO scene changes.

NEGATIVE:
visible face, visible head, visible chin, facial features, accidental face reveal, phone visible, phone changing hands, phone released, two phones, fully turned back, full back-facing pose, fixed camera, floating camera, ceiling camera, third-person camera, external camera operator, automatic tracking, robotic tracking, gimbal movement, cinematic orbit, digital zoom, slow motion, altered garment, changed colors, changed print, changed logo, invented garment details, stretched fabric, deformed fabric, unrealistic anatomy, extra fingers, deformed hands, AI artifacts, CGI appearance, cuts, transitions, text, subtitles, watermark.

—----------

Método gringo - faceless shop 11

Create an ultra-realistic vertical 9:16 UGC-style fashion video that looks genuinely recorded with the FRONT-FACING CAMERA of an iPhone 15 Pro Max.

The uploaded reference image is the ONLY source of truth.

REFERENCE LOCK:
Preserve exactly the same person, visible body proportions, clothing, accessories, environment, lighting, colors, fabric, fit, prints, logos, seams, texture and every visible detail from the reference.

Do not redesign, modify or reinterpret the clothing.

ABSOLUTE FRAMING:
Start EXACTLY from the pose, position and framing shown in the reference image.

The video must show the person ONLY FROM THE NECK DOWN.

The face and head NEVER enter the frame at any moment.

The person is holding the iPhone in ONE HAND and recording herself continuously with its FRONT-FACING CAMERA.

She NEVER releases the phone.
She NEVER switches the phone to the other hand.
The recording phone itself NEVER appears inside the captured image.

All interaction with the clothing is performed with the FREE HAND.

MOVEMENT:

Starting from the exact reference framing, she naturally and gradually LOWERS the hand holding the phone.

Because she is physically lowering the phone while continuously filming herself with the front-facing camera, the camera viewpoint naturally travels downward over her outfit.

This must look like authentic handheld selfie recording, NOT an artificial camera pan.

The framing gradually moves downward until the outfit is visible to approximately the LOWER THIGH area.

NEVER frame the body below the thighs.

She briefly shows this lower framing and then naturally raises the phone again, returning to a slightly higher and closer view of the clothing.

Immediately after returning upward, she uses her FREE HAND to gently PRESS the lower garment once, lightly pushing the fabric to demonstrate its fit and natural structure.

She then naturally runs the same free hand across the garment ONCE, smoothly flattening the fabric and showing its texture, fit and construction.

The fabric reacts naturally to her hand and immediately maintains its original shape.

MOVEMENT STYLE:
All movements are quick, spontaneous, smooth and natural, like a real everyday UGC fashion video.

Natural handheld micro-shake.
Small imperfect hand adjustments.
Natural body sway.
Realistic breathing.
Authentic smartphone movement.

Do NOT make the camera movement look cinematic, robotic, stabilized or professionally operated.

CAMERA:
iPhone 15 Pro Max front-facing camera look.
Authentic smartphone image quality.
Natural autofocus.
Natural exposure.
Realistic smartphone HDR.
Subtle sensor noise.
Natural handheld imperfections.
No digital zoom.
No artificial camera movement.
One continuous take.

IMPORTANT:
The phone stays in the SAME HAND throughout the entire video.
She is ALWAYS recording herself using the FRONT-FACING CAMERA.
The recording phone NEVER becomes visible in the footage.

Only the FREE HAND touches the clothing.
The face NEVER appears.
Never show below the thighs.

NO dialogue.
NO narration.
NO words.
NO music.
NO audio.
NO lip sync.
NO cuts.
NO transitions.
NO scene changes.

NEGATIVE:
visible face, visible head, visible chin, facial features, accidental face reveal, phone visible in footage, phone changing hands, releasing phone, two phones, third-person camera, external camera operator, camera below thighs, legs below thighs visible, feet visible, digital zoom, cinematic camera movement, robotic movement, gimbal movement, altered clothing, changed colors, changed print, changed logo, invented garment details, stretched fabric, deformed fabric, extra fingers, deformed hands, unrealistic anatomy, AI artifacts, CGI appearance, cuts, transitions, text, subtitles, watermark.

—----------

Método gringo - faceless shop 14
VIDEO PROMPT — ULTRA REALISTIC | MIRROR SELFIE | NECK-DOWN | FABRIC & DETAIL SHOWCASE | 9:16 | 4K

Create an ultra-realistic vertical 9:16 mirror-selfie UGC fashion video using the uploaded reference image as the ONLY source of truth.

ABSOLUTE REFERENCE LOCK:
Preserve exactly the model's visible body proportions, garment, colors, fabric, texture, stitching, seams, fit, silhouette, length, graphics, prints, logos, embroidery, labels and every visible clothing detail.

Do not redesign, replace, reinterpret or modify the garment.

ABSOLUTE NECK-DOWN FRAMING:
The model is shown STRICTLY FROM THE NECK DOWN throughout the ENTIRE video.

The head, face and facial features must NEVER enter the frame, including during closer movements.

PHONE LOCK:
The smartphone remains clearly visible in the SAME HAND throughout the entire video.

Never switch hands.
Never put the phone away.
Never let it disappear.

ALL garment interactions are performed ONLY with the FREE HAND.

OPENING:
The model begins standing naturally in front of the mirror with the garment clearly visible.

She smoothly takes a small step closer to the mirror while naturally bringing the smartphone closer.

This creates an organic close-up of the upper garment while keeping the framing strictly below the neck.

MOVEMENT 1 — TOUCHING THE GARMENT:
With her FREE HAND, she slowly runs her palm across the front of the upper garment.

She gently presses and smooths the fabric with her hand, naturally demonstrating its texture, fit and softness.

MOVEMENT 2 — FABRIC DEMONSTRATION:
She naturally pinches a small section of the fabric between her fingers.

She gently pulls the fabric outward a few centimeters to clearly demonstrate its thickness, flexibility, texture and construction.

She briefly holds it, then releases it.

The fabric naturally returns to its original shape without stretching or deformation.

MOVEMENT 3 — DETAILS:
Remaining close to the mirror, she uses her FREE HAND to naturally draw attention to any important visible garment details.

If the garment contains a print, graphic, logo, embroidery, stitching, texture, buttons, zipper, seams or other distinctive details, she gently touches, traces or points toward them.

The camera naturally captures these details clearly.

If no special detail exists, she simply continues smoothing and lightly touching the fabric.

NEVER invent details that are not present in the reference image.

ENDING:
After showing the garment details, she takes one small natural step backward, creating a slightly wider view of the outfit.

The smartphone remains visible in the SAME hand.

With her FREE HAND, she clearly extends her index finger and POINTS DOWNWARD toward the bottom center of the frame.

She holds the downward pointing gesture briefly in a natural TikTok Shop CTA pose.

The face remains completely outside the frame until the final frame.

CAMERA:
Authentic handheld mirror-selfie smartphone footage.
Natural micro-shake.

Smooth autofocus.
Organic movement.
No digital zoom.
No cuts.
No transitions.
No sudden camera movement.
Never tilt upward toward the face.

HUMAN MOVEMENT:
Natural breathing.
Realistic posture.
Subtle body sway.
Smooth hand movements.
Natural influencer-style product demonstration.
No dancing.
No exaggerated posing.

VISUAL QUALITY:
Ultra realistic.
Authentic smartphone footage.
4K detail.
Realistic skin texture.
Highly detailed fabric.
Realistic fabric physics.
Natural lighting.
Realistic shadows.
No CGI or AI-generated appearance.

AUDIO:
Natural fabric sounds.
Subtle movement sounds.
Quiet ambient sound.
No narration.
No music.

NEGATIVE PROMPT:
visible face, visible head, visible chin, facial features, accidental face reveal, facial reflection, framing above neck, camera tilting upward, phone disappearing, phone changing hands, phone leaving frame, two phones, invented garment details, invented print, altered print, altered

logo, changed colors, modified garment, stretched fabric, permanently deformed fabric, melted fabric, extra fingers, missing fingers, deformed hands, unrealistic anatomy, AI artifacts, CGI appearance, abrupt movements, digital zoom, cuts, transitions, text, subtitles, watermark.

—----------

modelo calça

Extreme close-up on the waistband and hip area of the pants. The model grabs both sides of the waistband and aggressively stretches the fabric outward, demonstrating flexibility and fit. Fast camera push-in, dynamic movement, detailed fabric tension, studio lighting, commercial fashion ad, strong visual hook in the first second.

—----------

gancho transição pov isqueiro
💡
sempre coloque a imagem da blusa ja no pacote + a blusa aberta

Create an ultra-realistic vertical 9:16 UGC-style product video, exactly 10 seconds long, using the provided reference images.

IMPORTANT:

This prompt must work with ANY T-SHIRT shown in the reference images.

Do NOT describe, invent, replace or modify the shirt’s color, print, artwork, text, design, fabric or packaging.

REFERENCE IMAGE 1 = the packaged shirt.

REFERENCE IMAGE 2 = the exact unpackaged shirt that must appear after the transition.

Preserve BOTH references exactly.

CAMERA:

Fixed top-down POV camera looking at the packaged shirt lying on a bed.

Maintain the same environment, lighting and perspective.

Only ONE feminine hand appears.

No face or body visible.

0–3 SECONDS — LIGHTER + FIRE TRANSITION:

The packaged shirt is lying naturally on the bed exactly as shown in reference image 1.

One feminine hand enters holding a small lighter.

She activates the lighter directly beside the plastic package.

At the moment the flame visually touches the plastic, an intense CINEMATIC VFX FIRE TRANSITION begins.

The fire rapidly spreads visually across the entire plastic package.

The flames become dramatically larger and rise upward toward the camera lens.

The fire grows until BRIGHT FLAMES COMPLETELY COVER THE ENTIRE CAMERA FRAME.

For a brief instant, the entire screen is filled with moving flames.

IMPORTANT:

This is a cinematic VFX transition only, not a depiction of a real-world burning procedure.

3–4 SECONDS — TRANSFORMATION:

While the flames completely cover the camera, perform a seamless hidden transition.

As the flames rapidly disappear from the frame, the plastic package has completely vanished.

The EXACT T-SHIRT FROM REFERENCE IMAGE 2 is now revealed lying fully opened and neatly displayed on the bed.

The entire shirt must be visible.

It must appear instantly through the fire transition, as if the flames transformed the packaged shirt into the opened shirt.

The shirt is completely clean, perfect and undamaged.

NO burned areas.

NO ash.

NO smoke.

NO melted plastic.

NO scorch marks.

Most importantly:

DO NOT invent a new shirt.

DO NOT recreate the design differently.

DO NOT modify the print.

DO NOT modify any text.

DO NOT modify the colors.

The revealed shirt must match REFERENCE IMAGE 2 EXACTLY.

4–6 SECONDS — HAND REVEALS FABRIC:

The SAME feminine hand gently slides across the opened shirt from top to bottom.

She softly smooths the fabric with her palm.

The fabric reacts naturally underneath her hand with realistic folds and movement.

6–8 SECONDS — PRINT CLOSE-UP:

The camera performs ONE smooth, quick zoom toward the main printed/design area of the shirt.

Show an ultra-detailed close-up of the ORIGINAL print and fabric texture.

Do NOT regenerate or alter the artwork.

After the close-up, smoothly zoom back out until the entire shirt is visible again.

8–10 SECONDS — CTA:

The same hand enters clearly into the lower portion of the frame.

She extends ONLY her index finger and points clearly DOWNWARD.

Hold the downward pointing gesture for approximately 2 seconds until the video ends.

ABSOLUTE REFERENCE LOCK:

REFERENCE IMAGE 1 determines exactly how the packaged shirt looks BEFORE the transition.

REFERENCE IMAGE 2 determines exactly how the opened shirt looks AFTER the transition.

Never invent missing details.

Never change the shirt.

Never change its color.

Never change its print.

Never change lettering.

Never change artwork.

Never replace it with another garment.

STYLE:

Ultra-realistic smartphone UGC.

Vertical 9:16.

Exactly 10 seconds.

Realistic feminine hand.

Natural hand movements.

Realistic fabric physics.

Natural bedroom lighting.

Seamless fire-to-shirt transformation.

Dramatic flames covering the entire lens during the transition.

Single continuous visual sequence.

NO person visible.

NO face.

NO extra hands.

NO dialogue.

NO music.

NO subtitles.

NO added text.

NO watermark.

NO additional products.

NO shirt deformation.

NO print deformation.

NO invented print.

NO color changes.

NO burned shirt.

NO fire remaining after the transition.

—----------

POV cropped/blusa

💡

neutro qualquer blusa ou cropped

UNIVERSAL VIDEO PROMPT — ANY CLOTHING ITEM / COMPLETELY NEUTRAL ENVIRONMENT / B-ROLL / MAX FIDELITY / REAL SCALE

Use the attached clothing reference image as the ABSOLUTE VISUAL SOURCE OF TRUTH.

Create an ultra-photorealistic vertical POV product video (9:16) showing ONLY the exact clothing item or items visible in the reference image.

PRODUCT IDENTITY LOCK — HIGHEST PRIORITY:

Automatically identify the exact type and quantity of clothing items visible in the reference.

Preserve exactly the original:

*** type**

*** shape**

*** proportions**

*** real-world scale**

*** color**

*** print or pattern**

*** fabric**

*** texture**

*** stitching**

*** seams**

*** edges**

*** trims**

*** folds**

*** structural elements**

*** all visible details**

Do NOT assume any specific clothing category.

Do NOT add, remove, redesign, simplify, duplicate or reinterpret any element.

The exact same product must remain visually consistent in every shot.

SCENE — COMPLETELY NEUTRAL:

Place the product on a simple, clean, neutral surface.

Use a soft matte surface in beige, off-white, cream or light neutral gray.

The background must remain minimal, uncluttered and visually anonymous.

No identifiable room type.

No bedroom context.

No kids bedroom.

No nursery.

No living room.

No closet.

No dressing room.

No boutique.

No store.

No showroom.

No hotel.

No furniture that suggests a specific location.

No toys.

No books.

No decorations.

No plants.

No wall art.

No personal belongings.

No lifestyle props.

The environment must NOT suggest age, gender, social class, country or specific lifestyle.

Only a subtle neutral background with realistic natural depth.

The PRODUCT is always the dominant visual element.

VIDEO STRUCTURE — 8 SECONDS:

0.0–1.5s — HERO SHOT:

Show the exact product naturally resting on the neutral surface.

The complete product is clearly visible with correct real-world proportions and natural fabric gravity.

1.5–3.0s — B-ROLL DETAIL 1:

Cut naturally to a closer view of ONE real detail that actually exists on the reference product.

Show fabric texture, stitching, seam, print, edge, trim or another genuine detail.

Never invent details.

3.0–4.5s — ONE-HAND INTERACTION:

Cut to ONLY ONE adult feminine hand gently interacting with the product.

The movement automatically adapts to the actual type of garment.

The hand performs ONE subtle natural action: gently touching, smoothing or slightly lifting an appropriate outer section of the fabric.

Do not require a collar, sleeve, waistband, strap or other specific structure unless it actually exists in the reference.

Do NOT pull, stretch or deform the product.

Only one hand is visible.

4.5–6.0s — B-ROLL DETAIL 2:

Cut to another authentic detail of the product.

Show textile fibers, folds, thickness, seams, print clarity, stitching or another detail that genuinely exists.

The product identity remains completely unchanged.

6.0–8.0s — FINAL HERO SHOT:

Return to a clean product-focused composition.

Show the exact garment naturally arranged on the same neutral surface.

Keep the product sharp, correctly scaled and completely recognizable.

Hold naturally until the end.

CAMERA:

Vertical 9:16.

Realistic modern iPhone rear-camera appearance.

Natural top-down or slightly angled POV depending on the product.

Camera perspective automatically adapts to show the garment clearly.

Camera position may change between intentional B-roll cuts.

Within each shot, maintain only extremely subtle realistic handheld micro-movements.

No dramatic zoom.

No camera orbit.

No rotation.

No excessive movement.

LIGHTING:

Soft natural daylight from one side.

Neutral white balance.

Stable exposure.

Realistic soft shadows.

Natural highlights revealing fabric texture.

No colored lighting.

No dramatic cinematic lighting.

No artificial glow.

No excessive contrast.

FABRIC PHYSICS:

Realistic gravity and material behavior.

The fabric must react according to its apparent weight, thickness and structure.

No morphing.

No stretching.

No melting.

No breathing fabric.

No autonomous movement.

No changing shape.

HAND:

ONLY ONE adult feminine hand during interaction.

Natural anatomy.

Five fingers.

Realistic joints.

Natural nails.

Realistic skin texture.

No second hand.

No extra fingers.

No duplicated hand.

No deformed anatomy.

AUDIO:

No dialogue.

No speech.

No voiceover.

No music.

Only extremely subtle natural room ambience and realistic fabric-contact sounds.

STYLE:

Ultra-realistic premium UGC.

Authentic smartphone recording.

Realistic textile micro-details.

Natural imperfections.

No studio-perfect appearance.

No CGI appearance.

STRICT RULES:

Use ONLY the pieces actually visible in the reference.

Automatically adapt to ANY clothing item.

Maintain EXACT product identity in every shot.

Maintain exact quantity.

Maintain real-world scale.

Do not change colors.

Do not change prints.

Do not change fabric.

Do not change proportions.

Do not invent structural elements.

Do not remove existing details.

Do not transform the garment into another type.

Do not duplicate products.

Only ONE adult hand when interaction occurs.

Keep the environment COMPLETELY NEUTRAL throughout the entire video.

TECHNICAL PARAMETERS:

model: veo-3

length: 8 seconds

resolution: 1080x1920

framerate: 24fps

aspect_ratio: 9:16

NEGATIVE PROMPT:

bedroom, kids bedroom, nursery, living room, closet, dressing room, boutique, store, showroom, hotel, crib, bed, sofa, chair, wardrobe, clothing rack, shelves, toys, plush toys, books, plants, wall art, decorations, personal belongings, lifestyle props, identifiable location, busy background, colorful background, altered garment, redesigned garment, wrong garment type, changed print, changed color, color shift, wrong scale, altered proportions, invented details, missing details, duplicated garment, disappearing garment, garment morphing, melting fabric, stretched garment, warped fabric, fake folds, floating garment, two hands, multiple hands, extra fingers, missing fingers, fused fingers, deformed hand, mannequin, unnecessary people, CGI, 3D render, plastic fabric, synthetic texture, AI artifacts, excessive blur, blurry product, dramatic zoom, camera orbit, excessive camera shake, oversaturated colors, artificial glow, text, subtitles, logo, watermark

—----------

POV conjunto

💡

neutro qualquer conjunto

A cena acontece em um único plano-sequência contínuo, sem cortes, sem transições, sem zoom e com a câmera completamente fixa em visão superior/primeira pessoa, preservando exatamente o enquadramento da imagem de referência.

A IMAGEM DE REFERÊNCIA É A ÚNICA FONTE PARA DETERMINAR AS PEÇAS.

Antes da ação, identifique visualmente quantas peças de roupa distintas existem na imagem de referência. Durante o vídeo, utilize EXATAMENTE essas peças, uma única vez cada.

NÃO existe quantidade pré-definida.

Se a referência possuir 1 peça, utilize somente 1.
Se possuir 2 peças, utilize somente 2.
Se possuir 3 peças, utilize somente 3.
Se possuir mais peças, repita o processo somente até completar exatamente todas as peças visíveis na referência.

NUNCA invente peças adicionais e NUNCA duplique uma peça para aumentar a quantidade.

Preserve exatamente cada peça da referência: tipo de roupa, formato, cor, estampa, tecido, detalhes, gola, mangas, costuras, proporções e características visuais.

NO PRIMEIRO FRAME, A CAMA ESTÁ COMPLETAMENTE VAZIA.

Nenhuma das peças da imagem de referência está inicialmente sobre a cama. A superfície encontra-se totalmente livre.

A influenciadora aparece somente através de UMA mão feminina e parte do antebraço. A segunda mão nunca aparece em nenhum momento.

AÇÃO PARA CADA PEÇA:

A mesma mão traz UMA das peças da referência para dentro do enquadramento, segurando-a naturalmente pela região superior apropriada da própria peça.

Ela aproxima rapidamente a peça da câmera por aproximadamente 1 segundo, permitindo visualizar seus detalhes.

Em seguida, afasta a peça da câmera e a coloca cuidadosamente sobre a cama.

Com a MESMA mão, realiza pequenos movimentos rápidos e naturais para alisar e organizar o tecido.

Depois disso, a mão traz a próxima peça existente na imagem de referência e repete exatamente o mesmo processo:

• segura a peça com uma única mão;
• aproxima rapidamente da câmera;

• mostra seus detalhes;
• afasta;
• coloca sobre a cama;
• alisa o tecido;
• realiza pequenos ajustes naturais.

Esse processo é repetido SOMENTE pela quantidade de peças realmente existentes na imagem de referência.

Cada peça entra na cena apenas no momento em que é apresentada pela mão. Nenhuma peça pode surgir espontaneamente, aparecer antecipadamente ou materializar-se sobre a cama.

Durante a organização, mantenha espaço suficiente entre as peças para permitir movimentos naturais sem sobreposição excessiva.

À medida que a sequência avança, a mesma mão pode realizar pequenos ajustes de posicionamento para construir progressivamente a composição final.

NO FINAL, todas e somente as peças presentes na imagem de referência devem estar sobre a cama.

A disposição final deve reproduzir o mais fielmente possível a imagem de referência, preservando posição, orientação, ordem, alinhamento, espaçamento e eventuais sobreposições existentes na composição original.

Se a referência mostrar peças sobrepostas, a sobreposição acontece somente durante os ajustes finais.

Se a referência mostrar peças separadas, elas permanecem separadas.

MOVIMENTO:

Os movimentos devem ser rápidos, simples, naturais e humanos, como uma pessoa real organizando roupas para um vídeo UGC.

Adicionar pequenas imperfeições naturais nos movimentos da mão e dos dedos. Nada deve parecer robótico, coreografado ou artificial.

A câmera permanece 100% imóvel durante toda a sequência.

IMPORTANTE:

A cama começa COMPLETAMENTE VAZIA.

Use SOMENTE as peças realmente visíveis na imagem de referência.

A quantidade de peças é determinada automaticamente pela referência.

NÃO adicionar peças extras.

NÃO duplicar peças.

NÃO remover nenhuma peça existente na referência.

Cada peça aparece UMA ÚNICA VEZ.

Cada peça entra individualmente através da mesma mão.

Somente UMA mão e parte do antebraço podem aparecer.

A segunda mão NUNCA aparece.

Nenhuma peça surge magicamente sobre a cama.

Nenhuma peça pode estar presente antes de ser trazida pela mão.

Cada peça é rapidamente apresentada à câmera antes de ser colocada.

Preservar rigorosamente identidade, cor, formato e detalhes de cada peça.

A composição final deve corresponder à disposição mostrada na referência.

Plano-sequência único.

SEM cortes.

SEM transições.

SEM zoom.

SEM movimento de câmera.

SEM troca de enquadramento.

SEM texto.

SEM interface.

SEM elementos adicionados.

Estilo UGC ultra-realista, gravado com celular, movimentos espontâneos, física realista dos tecidos, gravidade natural e nenhuma aparência de IA.

Pov cabide qualquer roupa

{

"prompt": "ULTRA-PHOTOREALISTIC iPhone POV VIDEO. Use the provided reference image as the ABSOLUTE SOURCE OF TRUTH for the lingerie product. The exact same product must remain visually consistent from the first frame to the last frame. Do not redesign, reinterpret, reconstruct, beautify or modify the garment in any way.\n\nPRODUCT IDENTITY LOCK — HIGHEST PRIORITY:\nPreserve the exact original lingerie design, silhouette, proportions, dimensions, color, material, lace pattern, embroidery, stitching, seams, trims, straps, bow, elastic bands, edges, transparency and fabric texture exactly as shown in the reference. Every product detail must remain consistent throughout the entire video. No new details may appear and no existing details may disappear.\n\nSCENE — NEUTRAL ENVIRONMENT:\nA clean, simple and completely neutral real-world interior. Soft off-white, beige and light neutral tones. Plain walls and an uncluttered background with only subtle natural depth. No identifiable location, no boutique elements, no clothing racks, no shelves filled with products, no bedroom furniture, no showroom appearance and no decorative elements competing with the product. The environment must feel realistic, calm and naturally lived-in while

remaining visually neutral. The product is always the dominant visual element.\n\nPRODUCT PRESENTATION:\nThe exact reference lingerie is hanging naturally from a simple light wooden hanger with NO text, NO branding and NO logo. The garment hangs vertically in a natural position. Preserve the exact original orientation, proportions and structure. Straps remain correctly positioned. The garment must never stretch, shrink, twist, fold unnaturally or change shape.\n\nHAND INTERACTION:\nONLY ONE ADULT FEMALE HAND is visible. The hand enters naturally from the lower side of the frame and gently holds the wooden hanger near the hook or lower bar. The hand remains relaxed and anatomically correct.\n\nThe hand performs ONLY ONE subtle gesture: the fingertips briefly and gently touch the outer edge of the garment for approximately one second, then return to a relaxed position on the hanger.\n\nDo NOT pull, stretch, pinch, squeeze or lift the fabric. Do NOT move the hand across the center of the garment or cover important product details.\n\nHAND ANATOMY:\nRealistic adult feminine hand, natural skin texture, anatomically correct wrist and fingers, five clearly separated fingers, realistic joints and natural proportions. Relaxed finger positioning. No extra, missing, fused, twisted or elongated fingers and no deformed wrist.\n\nNAILS AND JEWELRY:\nNeatly manicured feminine nails with a subtle glossy finish. One or two delicate minimal rings may be visible. No bracelets and no watch.\n\nCAMERA MOVEMENT:\nRealistic handheld iPhone POV recording. Start with medium-wide framing where the entire garment and hanger are clearly visible. The camera makes ONE extremely slow and subtle forward movement toward the product, similar to a real person naturally bringing the phone slightly closer to inspect the fabric.\n\nThe camera movement is smooth, continuous and physically realistic with extremely subtle handheld micro-movements. No dramatic movement. THE CAMERA MOVES CLOSER — THE PRODUCT DOES NOT MOVE.\n\nTIMELINE — 8 SECONDS:\n0.0–2.0s: Entire garment and hanger

visible against the neutral background. Camera stable with tiny natural handheld movement. One female hand holds the hanger.\n\n2.0–4.0s: Camera begins one very slow forward movement. Hand remains relaxed and garment remains stable.\n\n4.0–5.5s: Fingertips gently touch the outer edge of the garment once, briefly highlighting the fabric texture without pulling or repositioning it.\n\n5.5–7.0s: Hand returns to its relaxed position. Camera continues its subtle approach, naturally revealing more lace, stitching and fabric detail.\n\n7.0–8.0s: Camera stops naturally. Garment remains centered and recognizable. Hold the final composition briefly.\n\nFOCUS:\nThe entire product remains the primary subject. Gradually reveal textile detail through natural camera proximity. No independent close-up shots, aggressive cropping or reconstruction of the product.\n\nFABRIC PHYSICS:\nMaintain realistic weight, gravity, folds, lace structure and natural drape. Only minimal secondary movement caused by the hand is permitted. The garment must NOT wave, ripple, breathe, morph, stretch or deform.\n\nLIGHTING:\nSoft natural daylight entering from one side. Neutral white balance, stable exposure, physically realistic soft shadows and subtle highlights on the material. No dramatic cinematic lighting, colored lighting, artificial glow or beauty lighting.\n\nTEXTURE FIDELITY:\nPreserve visible lace fibers, embroidery, stitching threads, fabric grain, elastic texture and natural material response. Realistic skin pores and nail texture. No smoothing, plastic appearance or synthetic CGI texture.\n\nVISUAL STYLE:\nNatural premium UGC product content with authentic smartphone realism. Simple, clean, spontaneous and believable. The neutral environment must never compete visually with the product.\n\nAUDIO:\nNo voice, speech, dialogue or lip-sync. Only extremely subtle natural room ambience. No music.\n\nCAMERA:\nModern iPhone camera aesthetic, approximately 26–28mm equivalent lens, realistic smartphone depth of field, natural sharpness, subtle sensor noise, realistic exposure, slight handheld

imperfections and authentic smartphone image processing.\n\nABSOLUTE RULES:\nSame product, design, color, material, straps, lace, embroidery and proportions from first frame to last frame. No redesign. No deformation. No stretching. No morphing. No added or removed garment elements. No duplicated garment. No disappearing details. No face visible. No body visible. No person wearing the product. No mannequin. No text or branding on the hanger. Neutral background throughout the entire sequence.\n\nFINAL GENERATION PRIORITY:\n1. Product identity and visual consistency.\n2. Realistic hand anatomy.\n3. Natural physical fabric behavior.\n4. Smooth human camera movement.\n5. Clean neutral environment.\n6. High-detail smartphone realism.",

"negative_prompt": "face, head, body, model wearing lingerie, person wearing product, mannequin, multiple hands, two hands, extra hand, duplicated hand, extra fingers, missing fingers, fused fingers, twisted fingers, elongated fingers, malformed hand, deformed wrist, floating hand, hand covering product, hand pulling fabric, hand stretching fabric, hand pinching lace, excessive jewelry, bracelets, watch, product deformation, garment morphing, garment stretching, garment shrinking, warped fabric, changing silhouette, altered lace, altered embroidery, changed straps, missing straps, extra straps, color shift, material change, redesign, invented details, missing details, duplicated garment, floating garment, boutique, store, retail shop, clothing racks, product shelves, showroom, bedroom, bed, luxury hotel, busy background, colorful background, excessive decoration, independent close-up, aggressive crop, camera orbit, camera rotation, dramatic zoom, fast zoom, sudden camera movement, excessive camera shake, robotic movement, unrealistic fabric physics, CGI, 3D render, plastic texture, artificial glow, beauty filter, excessive smoothing, dramatic shadows, overexposure, underexposure, excessive blur, low resolution, AI artifacts, text overlay, subtitles, watermark"

METODO CHINES

Fabrica VIDEO 1

adicione apenas a foto da modelo + o print do produto que deseja divulgar

PROMPT UNIVERSAL — FÁBRICA VIRAL TIKTOK SHOP / CAIXAS + MUITOS PRODUTOS / 10S

Crie um vídeo vertical 9:16 ultrarrealista, frenético e espontâneo, estilo fábrica viral TikTok Shop, usando a PRIMEIRA IMAGEM como referência absoluta do produto.

PRODUTO:
Reproduza EXATAMENTE o produto da imagem 1. Preserve formato, embalagem, cores, rótulo, logo, tipografia, materiais, proporções e tamanho real. Todas as unidades devem ser EXATAMENTE o mesmo produto. Nunca alterar o produto entre frames.

MODELO:
Se houver uma SEGUNDA IMAGEM contendo uma pessoa, use essa pessoa como protagonista, preservando sua aparência com máxima fidelidade.

Se NÃO houver segunda imagem, crie automaticamente uma pessoa adulta realista, homem ou mulher, como protagonista.

UNIFORME — REGRA ABSOLUTA:

TODAS as pessoas da fábrica, incluindo protagonista, homens, mulheres e trabalhadores ao fundo, devem vestir CAMISETA PRETA LISA.

Nenhuma pessoa pode usar camiseta de outra cor. Manter as camisetas pretas durante TODO o vídeo e em TODOS os frames.

CENÁRIO:
Grande fábrica real e extremamente movimentada, cheia de caixas de papelão, pallets, bancadas, esteiras, máquinas e GRANDE QUANTIDADE do produto de referência.

Vários homens e mulheres trabalham simultaneamente com o mesmo produto: retirando unidades das caixas, organizando, embalando, empilhando e movimentando produtos.

AÇÃO:
A cena JÁ COMEÇA em plena ação. Desde o primeiro frame existem muitos produtos visíveis, trabalhadores movimentando-se e várias pessoas com produtos nas mãos.

A protagonista está diante de uma grande caixa completamente cheia do produto.

Ela abre e RASGA rapidamente a parte superior da caixa, coloca as mãos dentro e puxa uma GRANDE QUANTIDADE de unidades.

Extremamente animada, lança várias unidades LEVEMENTE PARA CIMA, criando uma grande explosão VISUAL DE QUANTIDADE.

IMPORTANTE: não é uma explosão física. Os produtos permanecem intactos. Eles sobem naturalmente, descem pela gravidade e se acumulam uns sobre os outros. Nada quebra, abre, amassa, queima, vaza ou deforma.

Imediatamente, a protagonista pega UMA unidade perfeita, segura corretamente e aproxima da câmera para mostrar claramente o produto.

SIMULTANEAMENTE:
A fábrica NUNCA PARA.

Pessoas caminham, caixas são movimentadas, produtos passam continuamente pela esteira, trabalhadores retiram unidades, embalam, organizam e mostram produtos.

TODOS — homens e mulheres — falam AO MESMO TEMPO exatamente a MESMA FALA.

Eles falam em português brasileiro, MUITO RÁPIDO, extremamente animados e praticamente GRITANDO EM CORO, como uma fábrica inteira anunciando uma oferta.

Mesmo gritando, todos continuam trabalhando. Ninguém fica parado apenas olhando para a câmera.

FOCO ABSOLUTO:
O PRODUTO É O PROTAGONISTA. Sempre existir grande quantidade de produtos visíveis: nas mãos, caixas, esteiras e bancadas. Pessoas são elementos secundários.

CÂMERA:
Smartphone premium, handheld energético, TikTok Shop viral, aproximações rápidas, movimento contínuo, espontâneo e ultrarrealista.

ÁUDIO:
Sem música. Sons reais da fábrica + caixas + esteira + produtos + todas as pessoas gritando a mesma fala simultaneamente.

NEGATIVE PROMPT:
camiseta branca, camiseta colorida, uniformes de cores diferentes, pessoas sem camiseta preta, fábrica vazia, pessoas paradas, poucos produtos, produto diferente, embalagem alterada, product morphing, produto gigante, produto quebrando, queimando, explodindo, vazando, amassando, produto flutuando, física impossível, mãos deformadas, dedos extras, pessoas duplicadas, CGI, 3D, cartoon, slow motion.

DURAÇÃO: 10 segundos
FORMATO: 9:16

FALA — PREENCHER SOMENTE AQUI:
"[ESCREVA A FALA AQUI — TODOS OS HOMENS E MULHERES DEVEM GRITAR EXATAMENTE ESTA MESMA FALA JUNTOS, MUITO RÁPIDO, SUPER ANIMADOS E EM CORO.]"

—----------

fabrica video 2
💡

coloque a foto ja pronta + o prompt abaixo com a fala que desejar

PROMPT VIDEO — FÁBRICA EM MOVIMENTO / TODOS GRITANDO JUNTOS

A cena acontece dentro de uma fábrica têxtil real, extremamente movimentada e em produção intensa.

REGRA PRINCIPAL DE ÁUDIO:

TODAS as pessoas visíveis na fábrica devem falar EXATAMENTE A MESMA FALA, AO MESMO TEMPO, EM CORO.

Não existe apenas uma pessoa falando. Não existem falas diferentes ou conversas aleatórias.

Desde a PRIMEIRA PALAVRA, todos os trabalhadores — homens e mulheres — começam juntos e GRITAM A MESMA FRASE simultaneamente, com energia extremamente alta, entusiasmo, urgência e animação.

O resultado deve soar como um grupo inteiro de funcionários gritando uma oferta juntos dentro da fábrica.

Todos pronunciam as MESMAS PALAVRAS e seguem aproximadamente o mesmo ritmo. As vozes podem apresentar pequenas diferenças humanas naturais de timbre e sincronização para manter o realismo, mas a frase deve ser exatamente a mesma.

AÇÃO:

Enquanto gritam, NINGUÉM PARA DE TRABALHAR.

Todos continuam se movimentando e produzindo: pegando camisas, dobrando peças, conferindo tecidos, organizando produtos, embalando e movimentando mercadorias.

Alguns trabalhadores seguram e mostram as camisas enquanto gritam. Outros continuam trabalhando e gritando ao mesmo tempo.

PRODUTO:

As camisas da imagem de referência permanecem em MOVIMENTO CONTÍNUO pela esteira durante TODO o vídeo.

A ESTEIRA NUNCA PARA.

Mostrar grande quantidade de camisas avançando pela linha de produção enquanto trabalhadores retiram algumas unidades, organizam, dobram, inspecionam e mostram peças para a câmera.

O produto deve permanecer fiel à referência, com tecido, cor, formato e detalhes consistentes.

MOVIMENTO:

Toda a cena permanece viva simultaneamente: esteira andando + camisas avançando + máquinas funcionando + trabalhadores andando + pessoas

produzindo + pessoas mostrando produtos + TODOS GRITANDO A MESMA FRASE.

Nada no fundo deve parecer congelado.

CÂMERA:

Vertical 9:16, smartphone premium, TikTok Shop viral, movimento handheld realista e energético. Priorizar as camisas e a produção, sem deixar rostos dominarem o enquadramento.

ÁUDIO:

Sem música. Sons naturais da fábrica e máquinas funcionando, porém as vozes do grupo ficam claramente audíveis.

CRÍTICO:

TODOS GRITAM A MESMA FALA.

TODOS COMEÇAM JUNTOS.

TODOS FALAM EM PORTUGUÊS BRASILEIRO.

ENERGIA MÁXIMA.

FALA MUITO RÁPIDA.

NÃO transformar em várias frases diferentes.

NEGATIVE:

uma única pessoa falando, voz principal isolada, pessoas caladas, pessoas conversando frases diferentes, fala calma, fala lenta, trabalhadores parados, esteira parada, fundo congelado, movimentos robóticos, lip sync aleatório, CGI, cartoon.

sem alterar nada nas peças

FALA DE TODOS — REPETIR EXATAMENTE EM CORO fala do começo ao fim do video:

"o tiktok pirou e está dando esse kit de camisas quase de graça, confere a promoção pro mozão no carrinho."

—----------

Fabrica video 3

💡

adicione a foto pronta + o prompt

Use the uploaded first frame as an immutable visual anchor.

Create an 8-second ultra-photorealistic vertical factory video as a direct continuation of the uploaded image.

FORMAT:

Vertical 9:16.

8 seconds.

24 fps.

One continuous take.

No cuts.

No transitions.

No scene changes.

PRODUCT LOCK:

Preserve every visible product unit exactly as shown in the first frame:

same product,

same packaging,

same shape,

same dimensions,

same colors,

same branding,

same label,

same printed artwork,

and same visible details.

Do not reinterpret or regenerate the product.

The product must not morph, change model, change packaging, change label, lose details, gain details, deform, open, shrink, stretch, or transform.

CONVEYOR ACTION:

The conveyor moves slowly toward the collection box.

The products maintain stable orientation and realistic spacing.

Only one identical product unit falls a short controlled distance into the box.

Use realistic gravity, weight, friction, and impact.

No spinning.

No rapid tumbling.

No violent collision.

WORKERS:

Preserve exactly four adult workers, two on each side of the conveyor.

All four remain visible during the dialogue.

They smile, point toward the products, and speak with strong excitement and urgent sales energy.

DIALOGUE PERFORMANCE — CRITICAL:

All four workers speak at the exact same time.

All four mouths begin on the same first word and finish on the same final word.

They speak normally and emphatically in unison.

This is spoken dialogue, not singing.

Use natural excited human speech with strong projection, fast commercial energy, and enthusiastic emphasis.

Do not use melody.

Do not use musical rhythm.

Do not use chanting.

Do not use a jingle.

Do not elongate syllables.

Do not harmonize voices.

Do not create a choir sound.

Do not add pitch patterns.

Do not make the sentence sound rehearsed as a song.

All four voices must sound like excited factory workers urgently shouting the same sales phrase together.

No solo voice.

No lead speaker.

No delayed worker.

No call-and-response.

No alternating dialogue.

No silent worker.

CAMERA:

Maintain the exact frontal angle from the first frame.

Use only a subtle handheld push-in.

Keep the conveyor centered and the collection box visible.

Do not orbit.

Do not change lenses.

Do not use aggressive zoom.

AUDIO:

Natural conveyor motor.

Subtle factory ambience.

Soft product impact inside the box.

Four distinct human voices speaking simultaneously in excited unison.

The speech must remain dry, natural, and non-musical.

No background music.

No melody.

No singing.

No chant.

No jingle.

No vocal harmony.

No voice-over.

No extra dialogue.

NEGATIVE CONSTRAINTS:

no product morphing,

no altered packaging,

no changed branding,

no label drift,

no random product variations,

no singing,

no melodic speech,

no rhythmic chanting,

no choir effect,

no harmonized voices,

no jingle,

no elongated syllables,

no solo speaker,

no lead voice,

no delayed dialogue,

no alternating speakers,

no silent workers,

no unsynchronized mouths,

no robotic voices,

no scene change,

no CGI,

no 3D render,

no subtitles,

no captions,

no text overlays,

no watermark,

no interface elements.

FINAL OUTPUT:

One continuous 8-second ultra-realistic vertical factory video where the exact product remains unchanged on the conveyor, one unit falls naturally into the collection box, and all four workers loudly speak the same Portuguese sentence at the exact same time with intense excitement, natural commercial urgency, and absolutely no singing, melody, chanting, or musical rhythm.

SPOKEN TEXT (Portuguese - BR):

All four workers say together, loudly and excitedly:

[ESCREVA A FALA AQUI]

—----------

Fabrica caminhão

💡

adicione a imagem ou print do produto + a fala que deseja

PROMPT UNIVERSAL — CAMINHÃO DE FÁBRICA / DESCARGA IMEDIATA / MUITAS PESSOAS / 10S

Crie um vídeo vertical 9:16, ultrarrealista, extremamente dinâmico, estilo TikTok Shop viral, mostrando EXATAMENTE o produto da primeira imagem de referência em um grande estacionamento/pátio de fábrica.

PRIORIDADE ABSOLUTA:
O PRODUTO É O PROTAGONISTA. Desde o PRIMEIRO FRAME devem existir MUITOS produtos claramente visíveis.

A cena JÁ COMEÇA EM PLENA AÇÃO: várias pessoas, homens e mulheres, já estão segurando unidades do produto nas mãos e mostrando-as para a câmera. SIMULTANEAMENTE, atrás delas, um enorme caminhão de carga já está aberto e uma quantidade MUITO GRANDE do mesmo produto já está deslizando continuamente para fora.

NÃO criar introdução. NÃO mostrar primeiro pessoas, fábrica ou caminhão para depois revelar o produto. Tudo acontece imediatamente desde 0,0s.

REFERÊNCIAS:

A primeira imagem é a referência absoluta do produto. Preserve exatamente embalagem, formato, tamanho, cores, rótulo, logo, tipografia, tampa e materiais.

Se houver SEGUNDA imagem com pessoas, use essas pessoas como referência principal. Caso contrário, crie vários homens e mulheres adultos realistas.

AÇÃO — 0 A 10 SEGUNDOS:
Durante TODO o vídeo, o caminhão continua descarregando GRANDE VOLUME de unidades idênticas do produto.

Os produtos deslizam suavemente pela traseira aberta, uns sobre os outros, formando uma grande pilha. A descarga nunca para.

CRÍTICO: produtos NÃO despencam violentamente, não quebram, não queimam, não explodem, não amassam e não vazam. Eles deslizam, encostam e se acomodam naturalmente uns sobre os outros, permanecendo perfeitos e intactos.

Ao mesmo tempo, VÁRIAS pessoas permanecem na cena segurando produtos. Algumas aproximam suas unidades da câmera, outras apontam para o caminhão e outras pegam novas unidades da pilha para mostrar.

Sempre manter várias unidades visíveis nas mãos + enorme quantidade sendo descarregada ao fundo.

ENQUADRAMENTO:

Produto sempre dominante. Pessoas são secundárias. Evitar corpo inteiro ocupando a tela. Priorizar produtos nas mãos em primeiro plano e a enorme descarga acontecendo claramente atrás.

A câmera se movimenta pelo grupo sem perder o caminhão e os produtos. Smartphone premium, handheld energético, ultrarrealista.

PÁTIO:
Grande estacionamento de fábrica brasileira, docas, vários caminhões, pallets, empilhadeiras e movimentação logística realista.

ÁUDIO:
TODAS as pessoas começam falando imediatamente. Vozes extremamente rápidas, animadas, espontâneas e parcialmente sobrepostas, como várias pessoas tentando mostrar a oferta ao mesmo tempo. Energia máxima do primeiro ao último segundo.

FIDELIDADE:
Todas as unidades são EXATAMENTE o produto da referência. Mesmo tamanho, variante, embalagem, cor, tampa e rótulo. Produto em escala real de varejo. Nenhuma alteração entre frames.

NEGATIVE PROMPT:
introdução vazia, pessoa sem produto, foco somente no rosto, caminhão vazio, demora para iniciar descarga, poucos produtos, descarga interrompida, produto quebrando, queimando, explodindo, amassando, vazando, queda violenta, embalagem deformada, product morphing, produto diferente, logo falso, escala irreal, produto gigante,

mãos deformadas, dedos extras, pessoas duplicadas, CGI, cartoon, física impossível.

DURAÇÃO: 10 segundos
FORMATO: 9:16

FALA — SUBSTITUIR SOMENTE ESTA PARTE:
"[ESCREVA AQUI A FALA. VÁRIAS PESSOAS COMEÇAM A FALAR JÁ NO PRIMEIRO FRAME, MUITO RÁPIDO, EXTREMAMENTE ANIMADAS E COM VOZES SE SOBREPONDO.]"

—----------

Método chines caixa correio

NEUTRO PARA QUALQUER PRODUTO Use a imagem da caixa de correio + a imagem do produto + a imagem da sua modelo. coloque a fala que quiser.

Create an ultra-realistic, extremely dynamic vertical 9:16 UGC promotional video using the uploaded reference images.

REFERENCE 1 = EXACT MAILBOX AND MAILBOX ENVIRONMENT.
REFERENCE 2 = EXACT PRODUCT AND ITS ORIGINAL PACKAGING, when visible.
REFERENCE 3 = EXACT MODEL IDENTITY, when provided.

==========
ABSOLUTE PRODUCT + PACKAGING LOCK
==========

REFERENCE 2 IS THE ABSOLUTE AND ONLY SOURCE OF TRUTH.

Treat the referenced product and its original packaging as FIXED, REAL PHYSICAL OBJECTS.

The product MUST remain 100% IDENTICAL to Reference 2 in EVERY FRAME.

Preserve EXACTLY:
shape, proportions, dimensions, colors, materials, texture, finish, design, graphics, print, logos, labels, typography, buttons, openings, components, accessories, packaging and every visible detail.

NEVER redesign, reinterpret, replace, simplify or regenerate the product differently.

The product shown during unboxing, close-ups, demonstration and real-world use MUST ALWAYS be the EXACT SAME PHYSICAL PRODUCT.

If a detail is not visible in the reference, DO NOT INVENT IT.

==========
SCENE 1 — MAILBOX — SIMPLE PHYSICAL ACTION
==========

FIRST-PERSON POV.

Camera is directly facing the EXACT mailbox from Reference 1.

The mailbox is initially CLOSED.

NO MODEL.
NO FACE.
NO BODY.

ONLY ONE realistic hand and forearm are visible.

IMPORTANT:
Inside the mailbox there is ONLY ONE CLOSED TIKTOK SHOP SHIPPING PARCEL.

THE PRODUCT ITSELF IS NOT VISIBLE INSIDE THE MAILBOX.

Perform the action in this EXACT physical order:

1. The hand reaches toward the mailbox.
2. The hand opens the mailbox normally.
3. The mailbox remains fully open.
4. Briefly reveal the ONE intact shipping parcel sitting naturally inside.
5. The hand reaches inside.
6. The hand firmly grabs the SHIPPING PARCEL — NOT the product.
7. The hand pulls the COMPLETE parcel straight out.
8. The entire parcel clears the mailbox opening.
9. The hand holds the parcel securely in front of the camera.

Do NOT open the parcel here.
Do NOT reveal the product here.
Do NOT make the product emerge directly from the mailbox.

Do NOT merge the hand, parcel and mailbox.
Do NOT make objects appear or disappear.

Keep this action physically simple and anatomically correct.

HARD CUT.

==========
SCENE 2 — PACKAGE BEAUTY SHOTS
==========

Cut to a living-room table.

ONLY TWO HANDS are visible.
NO MODEL YET.

The SAME shipping parcel is placed on the table.

BEFORE OPENING IT, clearly show the parcel.

Create several VERY FAST close-up shots:
hands rotating the package,
front of the package,
visible physical packaging details,
material,
seams,
edges,
labels or printed elements already physically present.

DO NOT add new writing, labels or graphics.

The camera moves CLOSE to the package.

The package must be clearly recognizable before it is opened.

==========

SCENE 3 — UNBOXING — HANDS ONLY

==========

Overhead POV directly above the table.

ONLY TWO HANDS.

The hands naturally and quickly open the SAME package.

The camera clearly sees the opening process.

The EXACT referenced product becomes visible INSIDE the opened package.

Pause briefly enough for the viewer to recognize it.

The hands then grab THE PRODUCT and completely remove it from the package.

CRITICAL:

The product must already be 100% IDENTICAL to Reference 2 from the FIRST FRAME in which it becomes visible.

NO generic placeholder product.
NO transformation.
NO morphing.
NO product substitution.

The hands completely remove it and hold it toward the camera.

Only now is the unboxing complete.

HARD CUT.

==========
SCENE 4 — PRODUCT DETAIL BLITZ
==========

Before showing the model, create several extremely fast PRODUCT-ONLY detail shots.

0.4–1.0 second per shot.

Show multiple VERIFIED areas of the exact product.

Use:
extreme close-ups,
macro details,
texture shots,

material details,

construction details,

visible controls,

surface details,

graphics,

prints,

components,

packaging details,

and other visually verified characteristics appropriate to the referenced product.

Hands may point, touch, rotate or demonstrate visible physical details.

THE PRODUCT FILLS MOST OF THE FRAME.

Every shot must reveal a DIFFERENT useful product detail.

Do NOT invent unseen details.

==========

SCENE 5 — MODEL APPEARS AND ACTUALLY USES PRODUCT

==========

ONLY NOW may the reference model appear.

THIS SECTION IS MANDATORY:

THE MODEL MUST ACTUALLY USE THE PRODUCT FOR ITS REAL, OBVIOUS INTENDED PURPOSE.

Do NOT merely show her holding it.
Do NOT merely show her pointing at it.
Do NOT create only beauty shots.

SHOW REAL USAGE.

Automatically identify the product category and create a clear visual demonstration of WHAT IT DOES and HOW IT IS USED.

If it is clothing:
show the model ALREADY WEARING the EXACT referenced garment. Show its fit, fabric, movement and visible details on her body. She naturally touches the fabric, adjusts it and demonstrates how it looks while worn.

If it is footwear:
show the exact footwear being worn and naturally used while walking or moving.

If it is a camera:
show the model holding the EXACT camera correctly and ACTUALLY taking photographs or recording, followed by close-ups of the camera itself.

If it is an electronic device:
show the model ACTUALLY operating it for its obvious intended purpose, followed by verified close-ups.

If it is a kitchen product:
show it ACTUALLY being used for its obvious food-preparation purpose.

If it is a cleaning product:
show it ACTUALLY being used on an appropriate surface.

If it is a beauty product:
show a realistic application or normal use when its purpose is visually obvious.

If it is fitness equipment:
show the model ACTUALLY performing its obvious exercise or function.

For ANY OTHER PRODUCT:
automatically determine its most obvious real-world purpose and SHOW THE MODEL ACTUALLY USING IT.

These examples are behavioral guidance, NOT fixed categories.

DO NOT invent unsupported capabilities.

==========
PRODUCT → USE → DETAIL RHYTHM
==========

After the model appears, alternate extremely quickly between:

MODEL ACTUALLY USING PRODUCT
→ CLOSE-UP OF PRODUCT

→ ANOTHER REAL USAGE ANGLE

→ MACRO PRODUCT DETAIL

→ MODEL INTERACTING WITH PRODUCT

→ PRODUCT PERFORMING ITS PURPOSE

→ FINAL STRONG PRODUCT CLOSE-UP.

Every 0.5–1.2 seconds provide NEW visual information.

The viewer must clearly understand:
WHAT THE PRODUCT LOOKS LIKE,
ITS IMPORTANT VISIBLE DETAILS,
AND WHAT THE PRODUCT IS USED FOR.

==========

VOICE — EXTREME EXCITEMENT

==========

Brazilian Portuguese voice throughout the ENTIRE video.

During the mailbox and hands-only scenes, the woman's voice is OFF-CAMERA.

When the model appears, the SAME voice continues naturally.

REGARDLESS OF THE WRITTEN DIALOGUE, she speaks with MAXIMUM ENERGY.

She sounds genuinely SHOCKED by an unbelievable promotion.

VERY LOUD.

VERY FAST.

EXPLOSIVE.

URGENT.

EXTREMELY EXCITED.

ALMOST SHOUTING.

She NEVER becomes calm, soft, neutral or conversational.

MAXIMUM ENERGY FROM THE FIRST WORD TO THE LAST WORD.

The voice must remain continuous and energetic across ALL cuts.

==========

VISUAL PRIORITY

==========

THE PRODUCT IS ALWAYS THE HERO.

Approximately 70–80% of the visual attention should remain on:

the package,

the product,

product details,

or the product actively being used.

The model exists to demonstrate the product.

Do not turn this into a model-focused lifestyle video.

==========

STYLE

==========

Ultra-realistic vertical 9:16.

Viral Brazilian UGC.

Premium smartphone realism.

Extremely fast editing.

Hard cuts.

0.4–1.2 second micro-scenes.

Handheld energy.

POV.

Overhead shots.

Macro product shots.

Dynamic close-ups.

Realistic hands.

Realistic physics.

NO product mutation.

NO package mutation.

NO product substitution.

NO alternative variant.

NO invented product details.

NO disappearing objects.

NO hands merging with objects.

NO morphing.

NO added text.

NO subtitles.

NO captions.

NO overlays.

NO UI.

NO watermark.

When dynamic action conflicts with product consistency:

ALWAYS PRESERVE THE EXACT PRODUCT and simplify the action.

DIALOGUE / SPOKEN TEXT:

[INSERT ANY DIALOGUE HERE]

—----------

Método chines VIDEO roupa

💡

adicione foto do produto + a modelo e escolha a fala

Create an ultra-realistic vertical 9:16 high-energy UGC promotional video using the uploaded reference image(s) as the ABSOLUTE AND ONLY SOURCE OF TRUTH.

ABSOLUTE GARMENT LOCK — HIGHEST PRIORITY:

Automatically identify the clothing item shown in the reference.

The garment MUST remain 100% IDENTICAL to the reference in EVERY FRAME.

Preserve EXACTLY its garment type, design, cut, shape, proportions, length, fit, fabric, texture, stitching, seams, collar, sleeves, waistband,

pockets, buttons, zippers, prints, artwork, graphics, typography, logos, labels, colors, patterns and EVERY visible detail.

NEVER redesign, reinterpret, simplify, replace or regenerate the garment differently.

The garment she grabs, holds, displays, throws toward the camera and later wears MUST be THE EXACT SAME PHYSICAL GARMENT.

Only natural fabric folds, perspective and realistic fitting to the body may change.

FIRST HALF OF VIDEO:

The scene begins during an extremely chaotic, exciting clothing promotion.

Several customers simultaneously and urgently grab garments from the promotional display. Multiple realistic hands enter from different directions, quickly taking pieces, creating an authentic feeling that the promotion is selling out.

The protagonist urgently grabs ONE unit of the EXACT referenced garment using BOTH HANDS.

She immediately lifts it and enthusiastically shows it toward the camera while speaking continuously.

She quickly positions the garment so its main design and details are clearly visible, then runs one hand across the fabric, showing its texture, print, construction or other visible characteristics.

Her movements are extremely energetic, spontaneous and fast.

The garment NEVER changes appearance.

MIDPOINT TRANSITION — EXACTLY HALFWAY THROUGH THE VIDEO:

At approximately 50% of the total video duration, while STILL SPEAKING with maximum excitement, she throws THE SAME garment directly toward the camera.

The garment physically approaches and COMPLETELY COVERS 100% OF THE CAMERA LENS.

The fabric fills the entire frame.

This full lens obstruction creates the transition.

NO morphing, magical transformation, flash or artificial transition.

SECOND HALF OF VIDEO:

Immediately when the garment clears the lens, the protagonist is ALREADY WEARING THE EXACT SAME REFERENCED GARMENT.

The product must match PERFECTLY before and after the transition.

She NEVER stops speaking.

Now wearing it, she continues presenting the promotion with MAXIMUM ENERGY while actively showing the garment's details on her body.

She naturally uses her hands to point at, touch, smooth and briefly demonstrate different visible areas of the garment.

She may bring specific areas slightly closer to the camera when appropriate to show fabric, texture, print, stitching, fit or construction.

Automatically adapt these demonstrations to whatever garment is provided.

Do NOT invent features that do not exist on the reference garment.

Her movements remain dynamic and excited throughout the entire second half.

VOICE & ENERGY LOCK — ABSOLUTE:

REGARDLESS OF WHAT DIALOGUE IS PROVIDED BELOW, the protagonist MUST deliver ALL dialogue with EXTREMELY HIGH ENERGY FROM THE FIRST WORD TO THE LAST WORD.

The written dialogue NEVER determines her energy level.

Even if the provided words appear calm, simple or neutral, she MUST perform them as an explosive, extremely excited promotion.

She sounds shocked by the deal, almost unable to believe it.

Her voice is loud, fast-paced, urgent, enthusiastic, explosive and almost shouting with excitement, like a spontaneous Brazilian viral UGC creator during an unbelievable promotion.

She NEVER becomes calm, soft, neutral, relaxed, slow or conversational.

MAXIMUM ENERGY THROUGHOUT THE ENTIRE VIDEO.

Her speech continues seamlessly while grabbing the garment, showing it, touching it, throwing it toward the lens, during the transition and after appearing already dressed.

VISUAL STYLE:

Ultra-realistic smartphone UGC, vertical 9:16, spontaneous handheld energy, realistic anatomy, realistic hands, realistic fabric physics, authentic crowd movement and natural lighting.

NO garment mutation.

NO product replacement.

NO color changes.

NO print changes.

NO altered typography.

NO invented details.

NO subtitles.

NO captions.

NO UI.

NO watermark.

DIALOGUE / SPOKEN TEXT EM PORTUGUES:

[FALA AQUI]

—----------

metodo chines (ilha de promo de loja)

💡

adicione sempre a foto do produto + a foto da modelo. troque a fala e crie a imagem do produto no cenario antes. (sempre escreva pro gpt o valor da promo caso queira ou tire o preço)

Create an ultra-realistic vertical 9:16 UGC-style promotional video using the uploaded product reference image.

ABSOLUTE PRODUCT REFERENCE:

The uploaded reference image is the ONLY and ABSOLUTE source of truth for the product.

Automatically identify the exact product visible in the reference image.

Whenever the protagonist grabs, picks up, holds, carries, shows, points at, presents or interacts with a product, it MUST be the EXACT PRODUCT FROM THE REFERENCE IMAGE.

Preserve exactly its shape, proportions, physical scale, colors, packaging, container, box, bottle, bag, label, logo, typography, graphics, materials, textures, cap, accessories and every visible characteristic.

DO NOT invent another product.

DO NOT replace it with a generic product.

DO NOT change its packaging.

DO NOT change its colors.

DO NOT create alternative versions.

DO NOT mix it with similar products.

PRODUCT PICKUP LOCK:

Whenever the protagonist reaches toward a shelf, promotional island, pile, table, counter, box or retail display, she MUST specifically reach toward the location containing the exact referenced product and physically PICK UP THAT PRODUCT.

The selected unit must visibly leave its original position and remain naturally secured in her hand with realistic grip, weight, scale, perspective and physics.

Once picked up, it remains the SAME product across subsequent shots.

No morphing, swapping, disappearing, recoloring or packaging changes.

EXTREME VOICE ENERGY — CRITICAL:

The protagonist is NOT simply happy or enthusiastic.

She is COMPLETELY SHOCKED, EUPHORIC AND IN DISBELIEF about what she has discovered.

From the VERY FIRST WORD until the VERY LAST WORD, she speaks VERY LOUDLY, PRACTICALLY SHOUTING WITH EXCITEMENT.

Imagine

fala: (ESCREVA A FALA AQUI)

—----------

CATEGORIA - movimentos neutros

Movimento costas

💡

Coloque a foto da modelo de frente e caso a peça tenha algum detalhe adicione a foto de costas também para ficar identico a peça.

She turns around naturally, showing her back to the camera. She then gently pulls her hair forward over her shoulders, completely clearing the back of the blouse so the entire back of the garment is clearly visible with no hair covering it.

The movement must be smooth, natural, and continuous. The blouse has NO logo, NO symbol, NO print, and NO graphic on the back. Preserve the blouse exactly as shown in the reference, without adding or changing any details.

—----------

----

feminino agachamento

💡

ideal para mostrar looks de academia

A modelo começa já afastada da câmera, mostrando o conjunto completo. Ela permanece com postura relaxada e caminha um pequeno passo para trás. Em seguida, gira lentamente até ficar completamente de costas para a câmera, mantendo movimentos suaves e naturais.

Já de costas, realiza 3 agachamentos curtos, lento e controlado, como um movimento real de academia, evidenciando o caimento, elasticidade e ajuste da legging. Não exagerar na profundidade do agachamento e não criar movimentos sensuais ou robóticos.
ela esta usando uma cinta modeladora na barriga conforme na imagem
Ao levantar, ela permanece de costas por um instante, faz um leve deslocamento de peso entre as pernas e então gira naturalmente de volta para a frente. Finalizando, passa delicadamente a mão pelos cabelos, jogando-os para trás dos ombros, faz um pequeno ajuste no top e mantém um leve sorriso enquanto olha para a câmera.

Todos os movimentos devem ser contínuos, humanos e naturais, com velocidade calma, sem poses exageradas, sem movimentos bruscos, sem aceleração, sem comportamento robótico e sem qualquer aparência artificial. O foco é destacar o conjunto em movimento de forma realista, como uma pessoa comum mostrando seu look antes do treino.
—----------

movimento zoom (shorts legging)

💡

use a imagem de referencia para deixar sua modelo no mesmo angulo clonando a imagem no troca de imagem aqui do aurora na barra lateral, ou peça ao gpt)

Use the provided reference image as the exact starting frame.

Create an ultra-realistic vertical 9:16 energetic UGC-style fashion product video.

Keep the same model, clothing, environment, lighting, and overall appearance shown in the reference image.

The clothing is the main product. Preserve its original design, color, texture, fit, seams, and details throughout the entire video.

SEQUENCE:

The model begins naturally facing slightly sideways.

She quickly and smoothly turns her whole body around to present the BACK of the garment to the camera.

As soon as she turns, she makes a small playful modeling movement from side to side, naturally showing how the garment fits and moves.

The camera then performs a SMOOTH PUSH-IN toward the BACK AREA OF THE GARMENT, creating a detailed product close-up.

IMPORTANT: The zoom is focused on the garment and its fabric, not on the model's body.

During the close-up, she slowly runs one open hand across the BACK SURFACE OF THE GARMENT, gently smoothing the material to clearly demonstrate its texture, softness, construction, and fit.

She passes her hand across the fabric once, then lightly presses and smooths another section of the garment.

She briefly pinches a small amount of fabric between her fingers and gently pulls it outward to demonstrate the material's flexibility.

She immediately releases it and allows the fabric to naturally return to its original shape.

The camera holds the close-up briefly so the fabric texture and product details are clearly visible.

The camera then smoothly pulls back to the original framing.

She makes a quick, energetic turn into a SIDE PROFILE, briefly showing another angle of the garment.

She then turns to FACE THE CAMERA with a natural, cheerful smile.

To finish, she makes a playful UGC-style pose and clearly POINTS DOWNWARD with one index finger toward the bottom of the screen while smiling.

MOVEMENT STYLE:

Energetic TikTok Shop-style product demonstration.
Quick and engaging movements.
Playful but natural modeling.
Smooth body turns.
Natural hand movements.
Realistic hair movement.
Realistic fabric physics.
No robotic or excessively slow movements.

CAMERA:

Vertical 9:16.
Ultra-realistic smartphone footage.
Mostly stable camera.
Smooth push-in toward the back of the garment.
Detailed close-up of the fabric.
Smooth pull-back to the original framing.
No dramatic camera shake.
No scene changes.

IMPORTANT:

Keep the garment visually consistent.
Do not redesign or replace the clothing.
Do not change the environment.
Do not distort the garment or body.
No speech.
No audio.
No subtitles.
No added text.
No watermarks.
No social media interface.

The final result should feel like a fast, engaging TikTok Shop fashion demonstration with strong visual emphasis on the garment's fabric, texture, flexibility, and fit.

Flow

💡

coloque a modelo neste anguro e use o prompt neutro para qualquer peça

Use the provided reference image as the exact starting frame.

Create an ultra-realistic vertical 9:16 energetic UGC-style fashion product video.

Keep the same model, clothing, environment, lighting, and overall visual appearance from the reference.

The model enthusiastically demonstrates the clothing with quick, natural TikTok Shop-style movements.

SEQUENCE:

She begins with her BACK toward the camera, naturally showing the rear fit of the garment. She makes a small playful body shift from one side to the other while briefly looking back toward the camera.

She quickly rotates into a SIDE PROFILE and places one hand naturally near the waist.

The camera smoothly MOVES CLOSER for a brief close-up of the main garment/product area, clearly showing the fabric, texture, fit, seams, and material.

While the product is closer in frame, she gently grabs the fabric around the waist/belly area and PULLS IT OUTWARD once, clearly demonstrating how much the material stretches.

She releases it completely and lets the elastic fabric naturally snap back into its original shape.

She lightly runs one hand over the fabric to highlight its texture and fit.

The camera smoothly returns to the original framing.

She makes another quick side-to-side body turn, briefly showing the garment from another angle.

She then quickly and naturally rotates to FACE THE CAMERA.

Once facing forward, she lightly adjusts the garment with both hands and makes a small energetic modeling movement to clearly show the front fit.

She looks directly at the camera and gives a bright, natural smile.

Immediately afterward, she makes a playful confident expression and clearly POINTS DOWNWARD with one index finger toward the bottom of the screen.

She finishes smiling while holding the downward-pointing gesture for a brief moment.

MOVEMENT STYLE:

Energetic and engaging TikTok Shop UGC.
Quick but realistic movements.

Playful product demonstration.
Natural body movement.
Smooth transitions between poses.
Realistic fabric physics.
Natural hair movement.
No slow or robotic movements.

CAMERA:

Vertical 9:16.
Realistic premium smartphone footage.
Mostly stable camera.
Brief smooth push-in/zoom toward the garment for the product close-up.
Smooth return to the original framing.
No cuts.
No scene changes.
No dramatic camera movement.

IMPORTANT:

Keep the original clothing design exactly consistent.
Keep the same environment throughout.
Do not replace or redesign the garment.
No speech.
No audio.
No subtitles.
No added text.
No watermarks.
No social media interface.

The result should feel like a fast, energetic and natural TikTok Shop clothing demonstration, with special visual emphasis on the product, fabric, stretch and fit.

Modelo foco no look
Framing subtly shifts focus over time. Subject shifts stance gently.

Fabric reacts realistically to body motion. 8 seconds, 9:16. Silent video.

—----------

modelo corpo inteiro
Animate the subject as a REAL person presenting clothing in a POV-style video.

———

🔥 START OF ANIMATION (UPDATED):
– The subject starts at a natural distance from the camera
– She calmly takes two small, natural steps forward toward the camera
– While approaching, she gently touches and lightly holds the bow/lace detail on the chest area
– The gesture is delicate, subtle and realistic, like naturally showing a clothing detail
– No emphasis, no posing, no exaggeration
– The movement feels spontaneous and casual
– After briefly touching the bow, she naturally releases it
– She takes a small step back to her original position
– Smooth transition into the rest of the animation

———

GENERAL MOTION STYLE:
– Natural, confident, fluid movements
– Not static
– Not exaggerated
– Not robotic
– Real human timing

———

BODY MOVEMENTS:
– One hand naturally rests on the waist
– Gentle hip movement (side-to-side, very subtle)
– One foot forward, the other relaxed behind
– Natural posture, relaxed shoulders

———

CLOTHING PRESENTATION:
– Small, natural movements to highlight the outfit
– Slight torso rotation to show fit and fabric
– No aggressive posing
– No fashion runway exaggeration
– Movements feel spontaneous and casual

ADDITIONAL NATURAL GESTURE (VERY SUBTLE):
– After the main body movement sequence:
- **The subject briefly raises one hand**
- **Lightly brushes her hair backward near the side of the head**
- **The gesture lasts approximately one second**
- **The motion is casual and unintentional, like a natural self-adjustment**
- **No emphasis, no posing**
- **The hand immediately returns to a relaxed neutral position**

FACIAL EXPRESSION (VERY IMPORTANT – REAL HUMAN TIMING):
– The subject does NOT smile continuously
– Facial expression alternates naturally throughout the video
– While approaching the camera:
- **Neutral, relaxed expression**
- **Lips softly closed**
- **Calm, confident look**

– During the bow/lace touch:
- **A brief, subtle smile appears**
- **Smile is soft and natural, not exaggerated**
- **Slight cheek movement only**

– After releasing the bow:
- **Expression returns to neutral**
- **Relaxed face, natural breathing**

– Later in the animation:
- **She gently turns her head slightly to one side**
- **A short, warm smile appears again**
- **Smile lasts briefly, then fades naturally**

– Smile behavior:
- **Appears and disappears naturally**
- **No frozen smile**
- **No constant grin**
- **No exaggerated facial tension**

PERSONALITY:
– Sympathetic
– Approachable
– Comfortable
– Feels like a real person casually recording a video

CAMERA & POV:
– POV perspective, as if the phone is held by a person
– Very subtle handheld micro-movements
– No camera shake
– No zoom
– Camera remains at chest/face height

———

TIMING:
– Movements are continuous
– No freezing
– No looping poses
– Smooth transitions between gestures

———

REALISM RULES:
– Preserve original facial identity
– Preserve skin texture
– Preserve hair movement (slight natural motion)
– Natural fabric physics
– No beauty filters
– No smoothing
– No stylization

———

RESTRICTIONS:
– No talking
– No text
– No UI
– No effects
– No exaggerated dance
– No influencer posing clichés

———

FINAL RESULT:
A hyper-realistic POV fashion video where the subject feels alive and human, with natural facial expression changes, occasional soft smiles, neutral moments in between, and subtle head turns — indistinguishable from a real casual phone recording.

6-7s: olha para baixo, ajusta barra novamente.

7-8s: vira completamente de costas, fica 1s.

8-9s: vira de frente, ajusta peça.

9-10s: meche no cabelo e manda beijo

—----------

Espelho 1
GEMINI 2.5 VIDEO PROMPT (UNIVERSAL MIRROR SELFIE TRANSFORMATION)

Use the uploaded image as the ONLY identity reference.

The uploaded image can be ANY portrait, selfie, full-body photo, studio photo, outdoor photo, or casual image.

Your FIRST task is to naturally adapt that image into a realistic mirror selfie before the motion begins.

Never copy the framing literally if the uploaded photo is not already a mirror selfie.

Instead, recreate the same person in a believable mirror selfie composition while preserving her exact identity.

IDENTITY PRESERVATION (HIGHEST PRIORITY)

Preserve EXACTLY:

• facial identity
• facial proportions
• eyes
• eyebrows
• nose
• lips
• jawline
• ears
• skin tone
• skin texture
• hairstyle
• hair color
• hair length
• hair density
• body proportions
• hands
• fingernails
• clothing
• accessories
• jewelry
• phone (if visible)
• tattoos (if present)
• age
• ethnicity

Never change her identity.

Never beautify.

Never stylize.

Never generate another woman.

She must look exactly like the uploaded person.

VIDEO STYLE

Ultra-photorealistic.

Looks filmed using a real smartphone.

Native iPhone HDR.

8K.

60 FPS.

Vertical 9:16.

Professional smartphone quality.

Visible skin pores.

Natural skin texture.

Natural imperfections.

Natural shadows.

Realistic reflections.

Accurate depth of field.

No AI appearance.

SCENE

Luxury modern bedroom.

Large premium full-length mirror.

Luxury interior design.

Soft natural daylight entering through large windows.

Neutral colors.

Warm wood details.

Elegant furniture.

Large bed.

Minimal decoration.

Luxury apartment atmosphere.

No logos.

No text.

No clutter.

VERY IMPORTANT — AUTOMATIC START ADAPTATION

Regardless of what the uploaded image looks like...

The FIRST FRAME must ALWAYS be recreated as if the person has naturally walked up to the mirror to start recording herself.

Automatically transform any uploaded image into a believable real mirror selfie composition before motion begins.

Do not recreate the original camera framing.

Do not preserve the original camera angle.

The subject must already be standing naturally in front of the mirror.

Her upper body dominates the frame.

The phone naturally covers part of her face exactly like a real mirror selfie.

The framing must look exactly like someone casually recording themselves in a mirror.

The transition from the uploaded image into the first frame must feel completely seamless and physically believable.

CAMERA

Real handheld smartphone.

Front camera.

Tiny natural hand movements.

Tiny breathing-induced motion.

No stabilization.

No cinematic camera.

No dolly.

No crane.

No drone.

No zoom.

No cuts.

No transitions.

One continuous take.

Real smartphone perspective.

ACTION

For the first 0.5 seconds she remains almost completely still.

She naturally looks at her phone screen.

Soft relaxed smile.

Natural breathing.

Natural blinking.

After 0.5 seconds she slowly lowers the phone just slightly while maintaining the selfie framing.

She slowly walks backward approximately 3–5 relaxed steps.

While walking backward, the framing naturally widens.

The entire outfit gradually becomes visible from head to toe.

She stops naturally.

She gently places one hand on her waist.

She shifts her weight naturally onto one leg.

She rotates her hips approximately 15–20 degrees.

She then slowly walks back toward the mirror.

She returns to her original close mirror-selfie position.

She gives a soft natural smile.

She remains almost perfectly still during the final second.

BODY LANGUAGE

Relaxed.

Natural confidence.

Tiny breathing.

Tiny head movement.

Natural blinking.

Natural posture.

No exaggerated posing.

No influencer acting.

No dancing.

No robotic movement.

HAIR

Maintain the exact hairstyle.

Maintain the exact hair length.

Maintain the exact hair color.

Maintain the exact hair density.

Maintain the exact curl pattern.

Hair must obey real-world gravity at all times.

There is absolutely NO wind.

The hair must never float.

The hair must never lift by itself.

The hair must never move independently.

Hair movement must occur ONLY as a natural consequence of walking, body movement, head movement, or physical inertia.

When she is standing still, the hair remains almost completely still.

Only extremely subtle secondary motion caused by realistic physics is allowed.

No cinematic hair movement.

No beauty-commercial hair.

Natural hair physics only.

FACE

Maintain the exact facial identity.

No morphing.

No beauty filters.

No skin smoothing.

No face enhancement.

No age change.

No expression distortion.

Maintain natural facial proportions.

LIGHTING

Soft natural daylight.

Natural HDR.

Physically accurate reflections.

Consistent exposure.

No flickering.

No lighting changes.

No overexposure.

No underexposure.

PHYSICS

All movement must obey realistic human biomechanics.

Body weight must shift naturally.

Feet must remain firmly planted on the floor.

No sliding.

No floating.

No teleportation.

No impossible body motion.

Clothing must react naturally to movement and gravity.

Hair must obey gravity at all times.

Mirror reflections must remain physically accurate.

QUALITY

Looks filmed on a real smartphone.

Ultra-photorealistic.

No CGI.

No AI artifacts.

No frame interpolation artifacts.

Professional social media quality.

The first frame must convincingly look like the uploaded person naturally standing close to a mirror before recording.

NEGATIVE PROMPT

low quality, blurry, soft focus, AI face, CGI, cartoon, anime, illustration, beauty filter, skin smoothing, plastic skin, face morphing, different woman, identity change, different hairstyle, different hair color, different clothes, changing outfit, changing accessories, changing jewelry, changing phone, incorrect tattoos, extra fingers, missing fingers, deformed hands, bad anatomy, warped body, duplicated limbs, floating objects, unrealistic reflections, distorted mirror, shaky camera, cinematic camera, drone shot, dolly shot, crane shot, zoom, cuts, transitions, jump cuts, robotic movement, stiff walking, exaggerated posing, influencer overacting, unrealistic lighting, flickering, overexposed, underexposed, low FPS, motion blur, compression artifacts, watermark, logo, subtitles, text overlay, floating hair, invisible wind, hair blowing, hair moving by itself, anti-gravity hair, cinematic hair, beauty commercial hair, floating strands, exaggerated hair physics, unrealistic hair motion

---

Camiseta Careta
CRITICAL T-SHIRT PRINT LOCK

The graphic printed on the T-shirt is a flat, static printed image.

Treat the print exactly like ink permanently printed on fabric.

The printed face is NOT a real person.

It is NOT alive.

It is NOT animated.

It must NEVER move.

It must NEVER blink.

It must NEVER smile.

It must NEVER change expression.

It must NEVER move the eyes.

It must NEVER move the mouth.

It must NEVER move the eyebrows.

It must NEVER rotate.

It must NEVER deform.

It must NEVER morph.

It must NEVER warp.

It must NEVER stretch.

It must NEVER change color.

It must NEVER change sharpness.

It must NEVER gain depth.

It must always remain a perfectly flat printed graphic attached to the fabric.

The print must move ONLY because the fabric naturally moves with the woman's body.

The artwork itself must remain pixel-identical from the first frame to the last.

No part of the print may animate under any circumstance.

—----------

Virada de costas
Ultra-realistic vertical Shorts fashion video in diagonal back view.

The woman keeps the same diagonal back-facing angle during the entire clip.
She naturally raises both hands toward the back of her head and softly gathers the hair as if casually tying a ponytail.
Her fingers gently collect and hold the hair with relaxed feminine movement, then softly release it slightly.
The motion feels natural, calm and real-time, never exaggerated or robotic.

Hair movement follows realistic weight and gravity only from hand contact and subtle head motion.
Loose strands remain natural around the neck and shoulders.
Minimal torso movement with subtle shoulder and hip balance shifts.

Fixed tripod camera with no zoom, reframing or camera movement.
No body rotation, no front-facing frames or eye contact.
Preserve realistic lighting, skin texture, fabric and identity.
No text, logos or talking.

—----------

Virada de costas 2w
Ultra-realistic vertical Shorts fashion video in diagonal back view.
The woman keeps the same diagonal back-facing angle during the entire clip.
She naturally raises both hands together toward her hair with soft symmetrical motion.
Her fingers gently pass through both sides of the hair as if casually adjusting it.
The hair moves softly across the upper back, then falls naturally over the opposite front shoulder while keeping most of the back outfit visible.

Natural weighted hair physics only. No wind, floating hair or dramatic flips.
Minimal torso movement with subtle shoulder and hip shifts.
Fixed tripod camera with no zoom, reframing or camera movement.
No body rotation, no front-facing frames and no eye contact.
Preserve realistic skin texture, lighting, fabric and identity.
No text, logos or talking.

—----------

-=-==========

Movimentos 2
Realistic vertical Shorts fashion video.
The woman stays near the same spot while moving naturally in real-time with slightly energetic pacing.
She makes small side and forward shifts, subtle posture changes and continuous natural body motion.

One hand naturally moves to the waist while the other lightly touches the clothing.
Soft hip and shoulder movement adds realistic fashion presentation energy without dancing or posing too hard.
Her expression stays relaxed and confident with a brief subtle smile.
Natural hair movement follows the body motion.

Fixed camera with continuous focus and realistic depth of field.
No zoom, no camera movement, no spin, no rotation, no stiff posing and no slow motion.
No talking, text, logos or watermarks.

—----------

Movimentos realistas

Realistic vertical Shorts fashion video.
Use the uploaded image as the exact identity reference, preserving the same face, skin tone, hair and proportions.

The woman stays in the same position inside a warm indoor environment with natural lighting and a softly blurred background.
She performs natural real-time body movements while presenting the outfit.
Her pacing feels like a real influencer recording a casual fashion video.
She makes subtle side turns and posture adjustments with slightly energetic motion, never frozen or slow motion.
Natural hair movement follows her body naturally.

Fixed camera with realistic depth of field and continuous focus.
No camera movement, no zoom, no fast spinning or exaggerated posing.
No talking, lip sync, text, logos or watermarks.

—----------

Gancho 22
Ultra-realistic POV-style vertical Shorts fashion video with a completely static camera.
The camera must stay fully locked in the exact same position during the entire clip.
No camera movement, no tracking, no follow effect, no zoom, no reframing and no perspective shift.
Only the woman moves naturally inside the frame.

She starts slightly farther from the camera, walks one or two small natural steps forward, then stops.
After stopping, she stays near the same spot making subtle natural fashion movements only.

One hand softly touches the outfit near the waist or chest detail while the other rests naturally.
She makes soft hip shifts, slight posture adjustments, small torso movement and natural weight changes between the legs.
Expression stays relaxed and confident with lips closed.
Brief soft smiles appear naturally and fade quickly.

No talking, lip-sync, text, filters or effects.

—----------

Camisa 123
SCENE 1 — VIDEO (0s–3s)

She gently pulls the front of the garment forward a few centimeters, naturally demonstrating the fabric texture, flexibility, and overall fit. She then smoothly releases the fabric, allowing it to return naturally to its original position while maintaining a soft smile and direct eye contact with the camera.

HARD CUT

SCENE 2 — VIDEO (3s–7s)

She slowly rotates her torso slightly to the left and then to the right using short, smooth, natural movements, allowing the garment to be viewed from different angles. Her posture remains relaxed, and the body movement feels fluid, natural, and spontaneous throughout.

HARD CUT

SCENE 3 — VIDEO (7s–10s)

She gives a small, friendly wave with one hand while smiling naturally. Immediately afterward, she calmly points downward with her index finger and maintains the gesture until the end of the video while looking directly into the camera with a warm, confident expression.

No speech. No human audio. No lip sync. No subtitles. No text on screen. No logos. No watermarks. No visual distortions. No inconsistent objects.

IMPORTANT — GARMENT CONSISTENCY (REQUIRED)

The garment shown in the reference image must remain 100% identical throughout the entire video without any modification.

Preserve exactly:
- color
- print, artwork, logo or text (if present)

- stitching
- seams
- fabric texture
- folds
- proportions
- fit
- shape
- collar
- sleeves
- cuffs
- waistband
- pockets
- zippers
- buttons
- drawstrings
- every visible detail

Never replace, recreate, redesign, recolor, or deform the garment.

IMPORTANT — TATTOO CONSISTENCY (REQUIRED)

The character must preserve exactly the same arm tattoo shown in the reference image throughout the entire video, with absolutely no changes between frames.

The tattoo must remain 100% consistent in:
- artwork
- composition
- anatomical position
- orientation
- scale
- line thickness
- pattern density
- contrast
- ink tone
- continuity across the shoulder, upper arm, elbow, forearm, wrist, and back of the hand.

Treat the entire arm as a single continuous full-sleeve tattoo. Any portions not visible in the reference image should be inferred only as a natural continuation of the same artwork, maintaining exactly the same artistic style, density, and visual patterns without introducing new styles or empty areas.

During any arm movement:
- never recreate the tattoo;
- never modify the artwork;
- never rearrange tattoo elements;
- never change scale or proportions;
- never allow parts of the tattoo to disappear;
- never generate blank skin where tattoo should exist;

- never create new flowers, mandalas, ornaments, or different designs;
- never break the continuity between different sections of the arm.

The tattoo must deform only according to the natural movement of the skin and the camera perspective, remaining rigidly anchored to the arm surface in every frame like a real tattoo.

Apply absolute temporal tattoo consistency throughout the entire video, ensuring identical visual identity from the first frame to the last.

—----------

Movimento 321
Criar um vídeo UGC ultrarrealista vertical 9:16, estilo TikTok fashion, com câmera fixa de celular em ambiente interno realista, iluminação natural, aparência espontânea e orgânica.

Usar a influencer da imagem de referência como identidade principal. Preservar rosto, cabelo, corpo, pele, expressão, proporções e estilo geral. A personagem deve parecer uma criadora real gravando conteúdo para TikTok, com movimentos naturais, femininos, suaves e confiantes.

O vídeo deve ter ritmo rápido, mas sem movimentos bruscos. Cada pose deve acontecer com cortes secos limpos, sem transições, sem morphing, sem efeito de troca artificial, sem câmera girando e sem zoom exagerado.

Movimentos e ritmo do vídeo:

0–1s: a influencer aparece próxima da câmera, centralizada, com sorriso leve e expressão confiante. Faz um pequeno balanço corporal natural, olhando diretamente para a câmera. Pisca uma vez de forma sutil e natural.

1–2s: ela afasta levemente o corpo, revelando melhor o look completo. Coloca uma das mãos na cintura, inclina suavemente o quadril para um lado e mantém sorriso discreto, sem mostrar muito os dentes.

2–3,5s: após corte seco, ela aparece levemente de lado, cerca de 30 a 45 graus, mostrando a lateral do corpo e o caimento da peça. Olha por cima do ombro para a câmera com expressão confiante, fazendo um pequeno movimento de quadril, sem virar totalmente de costas.

3,5–5s: após corte seco, ela volta para posição frontal. Leva uma das mãos ao cabelo, joga os fios suavemente para o lado e inclina a cabeça com expressão charmosa. Mantém contato visual com a câmera e faz um sorriso leve.

5–6,5s: ela segura delicadamente uma parte da roupa com as duas mãos na região da cintura ou da barriga, ajustando o tecido de forma natural para mostrar o caimento. O movimento deve ser pequeno, realista e feminino.

6,5–8s: após corte seco, ela faz um leve balanço corporal, passa uma mão pelo cabelo novamente e olha rapidamente para baixo, depois volta o olhar para a câmera com expressão confiante.

8–9,5s: ela se aproxima um pouco da câmera e aponta suavemente para baixo com o dedo indicador, como se estivesse indicando o link, botão ou carrinho. O gesto deve ser natural, próximo da câmera, com movimento suave da mão.

9,5–10s: finaliza sorrindo de forma espontânea, inclinando levemente a cabeça para o lado e mantendo o olhar direto para a câmera.

Regras importantes:
Vídeo silencioso. Sem fala. Sem áudio humano. Sem narração. Sem lipsync. Sem textos obrigatórios na tela. Sem marcas d'água. Sem logos. Sem distorções. Sem dedos deformados. Sem mãos bugadas. Sem troca de rosto. Sem mudança de identidade. Sem movimentos robóticos. Sem transições entre cenas. Apenas cortes secos.

A estética deve ser ultrarrealista, como um vídeo real gravado no celular por uma influencer de TikTok. Movimentos suaves, expressões faciais naturais, piscada realista, sorriso leve, olhar confiante, mão no cabelo, mão na cintura, leve pose lateral e apontando para baixo no final.

Funcionar para qualquer influencer, qualquer roupa e qualquer produto fashion, mantendo sempre a identidade da modelo e a peça de referência exatamente como enviada.

—----------

Movimentos 3211

LAYER 1 — SCENE TITLE + STYLE
Scene Title: "Posando casual"
Style: UGC try-on, câmera fixa em tripé, ultra-realista, luz natural lateral, comportamento espontâneo de blogueira se filmando sozinha
🔹 LAYER 2 — TIMELINE
[0:00–0:01.5 — Cabelo pra trás]
Visual: ela está de frente pra lente, mão direita sobe pelo lado do rosto, dedos entram no cabelo na altura da têmpora, deslizam pra trás levando a mecha pro ombro direito. Uma mecha menor não acompanha e fica caída perto da orelha. Mão desce devagar, não cai seca.
Camera: fixa, foco respira levemente no gesto
Audio: leve som de cabelo, ambiente de casa
Emotion: gesto automático, inconsciente
[0:01.5–0:02.5 — Passo pra frente]
Visual: pé direito dá um passo curto à frente, peso vai pro pé da frente, quadril desencaixa levemente. Tronco acompanha com leve atraso. Olha pra lente.
Camera: fixa, foco automático ajusta da paisagem pro rosto

Audio: passo abafado no piso
Emotion: confiança casual
[0:02.5–0:03.5 — Passo pra trás]
Visual: pé direito recua voltando à marca original, mas passa um pouquinho do ponto inicial. Peso vai pra perna de trás. Ombros relaxam.
Camera: fixa, enquadramento não corrige
Audio: passo no piso, respiração curta
Emotion: ajustando-se sem pensar
[0:03.5–0:05 — Vira de lado]
Visual: tronco gira pra direita primeiro, pés seguem um instante depois (não é bloco único). Para em perfil, peso na perna direita, mão esquerda relaxada ao lado do corpo. O tecido balança meio segundo a mais que o corpo. Não olha pra lente, olha pra frente (perfil puro).
Camera: fixa, corpo sai levemente do centro do quadro
Audio: leve atrito do pé no chão, som sutil da roupa
Emotion: pausa natural, sem "anunciar" a pose
[0:05–0:06 — Volta pra frente]
Visual: tronco gira de volta pra frente, pés acompanham com leve atraso. Ela passa do ponto ao voltar e faz um micro-ajuste com o pé esquerdo pra centralizar. Olha pra lente.
Camera: fixa, foco caça e reencontra
Audio: passo curto, ambiente
Emotion: relaxada
[0:06–0:08 — Mãos na cintura (pose)]
Visual: braço direito sobe primeiro, mão pousa no quadril direito (dedos pra frente, polegar pra trás). Meio segundo depois, braço esquerdo sobe e a mão pousa no quadril esquerdo. Ombros se ajustam, queixo abaixa 5°, sorriso assimétrico começa pelo lado direito. Respira fundo uma vez, peito sobe e desce.
Camera: fixa
Audio: respiração leve audível, ambiente
Emotion: pose consciente mas relaxada, leve charme involuntário

🔹 MICRO-DETAILS (REALISMO MÁXIMO)

Mecha de cabelo cai e ela não corrige (realismo: nem todo detalhe é arrumado)
Mão direita desce devagar depois do cabelo (não cai seca)
Cinemática humana: tronco gira antes dos pés, pés seguem com atraso
Tecido tem atraso físico em todo movimento (balança um instante a mais que o corpo)
Ao voltar do giro, passa do ponto e corrige com micro-ajuste do pé (destrói o efeito IA)
Mãos na cintura entram em sequência (uma de cada vez, não simétrico)
Sorriso assimétrico, lado direito sobe primeiro
Respiração visível no peito ao final
Peso do corpo assimétrico durante todo o vídeo
Foco automático "caça" levemente nos passos
Enquadramento NÃO corrige quando ela sai do centro
Piscadas irregulares ao longo da sequência
Em nenhum momento ela "anuncia" o próximo movimento — tudo flui sem cortes mentais

Não quero ela falando exatamente nada
